Special Cautionary Notice Regarding Forward Looking Information

Certain matters discussed in this report, excluding historical information, include forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and are subject to the safe harbor created by these sections. Although the International Bancshares Corporation (the "Company") believes such forward-looking statements are based on reasonable assumptions, no assurance can be given that every objective will be reached. The words "estimate," "expect," "intend," "believe" and "project," as well as other words or expressions of a similar meaning are intended to identify forward-looking statements. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date of this report. Such statements are based on current expectations, are inherently uncertain, are subject to risks and should be viewed with caution. Actual results and experience may differ materially from the forward-looking statements as a result of many factors.

Risk factors that could cause actual results to differ materially from any results that are projected, forecasted, estimated or budgeted by the Company in forward-looking statements include, among others, the following possibilities:

- Local, regional, national and international economic business conditions and the impact they may have on the Company, the Company's customers, and such customers' ability to transact profitable business with the Company, including the ability of its borrowers to repay their loans according to their terms or a change in the value of the related collateral.
- Volatility and disruption in national and international financial markets.
- Government intervention in the U.S. financial system.
- Changes in consumer spending, borrowings and savings habits.
- Changes in interest rates and market prices, which could reduce the Company's net interest margins, asset valuations and expense expectations.
- Changes in the capital markets utilized by the Company and its subsidiaries, including changes in the interest rate environment that may reduce margins.
- Changes in state and/or federal laws and regulations to which the Company and its subsidiaries, as well as their customers, competitors and potential competitors, are subject, including, without limitation, changes in the accounting, tax and regulatory treatment of trust preferred securities, as well as changes in banking, tax, securities, insurance and employment laws and regulations.
- Changes in U.S.—Mexico trade, including, without limitation, reductions in border crossings and commerce resulting from the Homeland Security Programs called "US-VISIT," which is derived from Section 110 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996.
- The loss of senior management or operating personnel.
- Increased competition from both within and outside the banking industry.
- The timing, impact and other uncertainties of the Company's potential future acquisitions including the Company's ability to identify suitable potential future acquisition candidates, the success or failure in the integration of their operations and the Company's ability to maintain its current branch network and to enter new markets successfully and capitalize on growth opportunities.
- Changes in the Company's ability to pay dividends on its Preferred Stock or Common Stock.
- The effects of the proceedings pending with the Internal Revenue Service regarding the Company's lease financing transactions.

Table of Contents

- Additions to the Company's loan loss allowance as a result of changes in local, national or international conditions which adversely affect the Company's customers.
- Greater than expected costs or difficulties related to the development and integration of new products and lines of business.
- Changes in the soundness of other financial institutions with which the Company interacts.
- Political instability in the United States and Mexico.
- Technological changes.
- Acts of war or terrorism.
- Natural disasters.
- Reduced earnings resulting from the write down of the carrying value of securities held in our securities available-for-sale portfolio following a determination that the securities are other-than-temporarily impaired.
- The effect of changes in accounting policies and practices as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board and other accounting standards setters.
- The costs and effects of regulatory developments, including the resolution of regulatory or other governmental inquiries and the results of regulatory examinations or reviews.
- The effect of final rules amending Regulation E that prohibit financial institutions from charging consumer fees for paying overdrafts on ATM and one-time debit card transactions, unless the consumer consents or opts-in to the overdraft service for those types of transactions.
- The Company's success at managing the risks involved in the foregoing items.

Forward-looking statements speak only as of the date on which such statements are made. It is not possible to foresee or identify all such factors. The Company makes no commitment to update any forward-looking statement, or to disclose any facts, events or circumstances after the date hereof that may affect the accuracy of any forward-looking statement, unless required by law.

Recent Developments

On December 23, 2008, as part of the Capital Purchase Program (the "CPP") established by the United States Department of the Treasury (the "Treasury") under the Emergency Economic Stabilization Act (the "EESA"), the Company entered into a Letter Agreement incorporating an attached Securities Purchase Agreement—Standard Terms (collectively, the "Securities Purchase Agreement"), with the Treasury. The closing of the transactions contemplated in the Securities Purchase Agreement occurred on December 23, 2008.

Under the Securities Purchase Agreement, the Company agreed to sell 216,000 shares of the Company's fixed-rate cumulative perpetual preferred stock, Series A, par value \$.01 per share (the "Senior Preferred Stock"), having a liquidation preference of \$1,000 per share, for a total price of \$216,000,000. The Senior Preferred Stock will pay dividends at the rate of 5% per year for the first five years and 9% per year thereafter. The Senior Preferred Stock has no maturity date and ranks senior to the Company's common stock with respect to the payment of dividends and distributions and amounts payable upon liquidation, dissolution and winding up of the Company. The Senior Preferred Stock generally is non-voting except for class voting rights on matters that would adversely affect the rights of the holders of the Senior Preferred Stock. To date, the Company has not redeemed any of the Senior Preferred Stock.

Table of Contents

Item 1. Business

General

The Company is a financial holding company with its principal corporate offices in Laredo, Texas. Four bank subsidiaries provide commercial and retail banking services through 280 main banking and branch facilities located in 104 communities in South, Central and Southeast Texas and the State of Oklahoma. The Company was originally incorporated under the General Corporation Law of the State of Delaware in 1979. Effective June 7, 1995, the Company's state of incorporation was changed from Delaware to Texas. The Company was organized for the purpose of operating as a bank holding company within the meaning of the Bank Holding Company Act of 1956, as amended (the "BHCA"), and as such, is subject to supervision and regulation by the Board of Governors of the Federal Reserve System (the "FRB"). As a registered bank holding company, the Company may own one or more banks and may engage directly, or through subsidiary corporations, in those activities closely related to banking which are specifically permitted under the BHCA and by the FRB. Effective March 13, 2000, the Company became certified as a financial holding company. As a financial holding company, the Company may engage in a broad list of financial and non-financial activities. The Company's principal assets at December 31, 2009 consisted of all the outstanding capital stock of four Texas state banking associations (the "Banks" or "bank subsidiaries"). All of the Company's bank subsidiaries are members of the Federal Deposit Insurance Corporation (the "FDIC").

The bank subsidiaries are in the business of gathering funds from various sources and investing these funds in order to earn a return. Funds gathering primarily takes the form of accepting demand and time deposits from individuals, partnerships, corporations and public entities. Investments principally are made in loans to various individuals and entities as well as in debt securities of the U.S. Government and various other entities whose payments are guaranteed by the U.S. Government. Historically, the bank subsidiaries have primarily focused on providing commercial banking services to small and medium sized businesses located in their trade areas and international banking services. In recent years, the bank subsidiaries have also emphasized consumer and retail banking, including mortgage lending, as well as branches situated in retail locations and shopping malls.

The Company's philosophy focuses on customer service as represented by its motto, "We Do More." The Banks maintain a strong commitment to their local communities by, among other things, appointing selected members of the communities in which the Banks' branches are located to local advisory boards (the "local boards"). The local boards direct the operations of the branches, with the supervision of the lead Bank's board of directors, and assist in introducing prospective customers to the Banks as well as developing or modifying products and services to meet customer needs. The Banks function largely on a decentralized basis and the Company believes that such decentralized structure enhances the commitment of the Banks to the communities in which their branches are located. In contrast to many of their principal competitors, the credit decisions of the Banks are made locally and promptly. The Company believes that the knowledge and expertise afforded by the local boards are key components to sound credit decisions. Expense control is an essential element in the Company's profitability. The Company has centralized virtually all of the Banks' back office support and investment functions in order to achieve consistency and cost efficiencies in the delivery of products and services.

On July 28, 1980, the Company acquired all of the outstanding shares of its predecessor, International Bank of Commerce ("IBC"), which is today the flagship bank of the Company, representing the majority of the Company's banking assets. IBC was chartered under the banking laws of Texas in 1966 and has its principal place of business at 1200 San Bernardo Avenue, Laredo, Webb County, Texas. It is a wholly-owned subsidiary of the Company. Since the acquisition of the flagship bank in 1980, the Company has formed three banks: (i) Commerce Bank, a Texas state banking association which commenced operations in 1982, located in Laredo, Texas ("Commerce Bank");

Table of Contents

(ii) International Bank of Commerce, Brownsville, a Texas state banking association which commenced operations in 1984, located in Brownsville, Texas ("IBC-Brownsville"); and (iii) International Bank of Commerce, Zapata, a Texas state banking association which commenced operations in 1984, located in Zapata, Texas ("IBC-Zapata").

During the last several years, the Company has acquired various financial institutions and banking assets in its trade area and expanded its trade area to the State of Oklahoma. The community-focus of the subsidiary banks and the involvement of the local boards has resulted in the Company becoming aware of acquisition possibilities in the ordinary course of its business and in many instances before other potential purchasers. The Company's decision to pursue an acquisition is based on a multitude of factors, including the ability to efficiently assimilate the operations and assets of the acquired entity, the cost efficiencies to be attained and the growth potential of the market.

On December 4, 2008, the Company completed its acquisition of certain rights to InsCorp, Inc. insurance contracts for \$1,074,000. InsCorp, Inc. is a multiline independently owned insurance agency, which insures oil operators, merchants and industrial businesses.

The Company also has five direct non-banking subsidiaries. They are (i) IBC Life Insurance Company, a Texas chartered subsidiary which reinsures a small percentage of credit life and accident and health risks related to loans made by bank subsidiaries, (ii) IBC Trading Company, an export trading company which is currently inactive, (iii) IBC Subsidiary Corporation, a second-tier bank holding company incorporated in the State of Delaware, (iv) IBC Capital Corporation, a company incorporated in the State of Delaware for the purpose of holding certain investments of the Company and (v) Premier Tierra Holdings, Inc., a liquidating subsidiary formed under the laws of the State of Texas. The Company owns a fifty percent interest in Gulfstar Group I, Ltd. and related entities, which are involved in investment banking activities. The Company also owns a controlling interest in three merchant banking entities.

Website Access to Reports

The Company makes its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports, filed or furnished pursuant to section 13(a) or 15(d) of the Securities Exchange Act of 1934 available free of charge on or through the Company's internet website, www.ibc.com, as soon as reasonably practicable after such materials are electronically filed with, or furnished to, the Securities and Exchange Commission ("SEC"). Additionally, the Company has posted on its website a code of ethics that applies to its directors and executive officers (including the Company's chief executive officer and financial officer). The Company's website also includes the charter for its Audit Committee and the Company's Excessive or Luxury Expenditure Policy. The Company's website will also include the Proxy Statement relating to the Company's 2010 Annual Meeting of Shareholders upon filing of the definitive Proxy Statement with the SEC.

Services and Employees

The Company, through its bank subsidiaries, IBC, Commerce Bank, IBC-Zapata and IBC-Brownsville, is engaged in the business of banking, including the acceptance of checking and savings deposits and the making of commercial, real estate, personal, home improvement, automobile and other installment and term loans. Certain of the bank subsidiaries are very active in facilitating international trade along the United States border with Mexico and elsewhere. The international banking business of the Company includes providing letters of credit, making commercial and industrial loans, and providing a nominal amount of currency exchange. Each bank subsidiary also offers other related services, such as credit cards, travelers' checks, safety deposit, collection, notary public, escrow, drive-up and walk-up facilities and other customary banking services. Additionally, each bank subsidiary makes available certain securities products through third party providers. The bank subsidiaries also

Table of Contents

make banking services available during traditional and nontraditional banking hours through their network of over 435 automated teller machines, and through their 280 branches situated in retail locations and shopping malls. Additionally, IBC introduced IBC Bank Online, an Internet banking product, in order to provide customers online access to banking information and services 24 hours a day.

The Company owns U.S. service mark registrations for "INTERNATIONAL BANK OF COMMERCE," "WALL STREET INTERNATIONAL," "INTERNATIONAL BANK OF COMMERCE CENTRE," "OVERDRAFT COURTESY," "IBC," "IBC CONNECTION," "IBC ELITE," "IBC ELITE ADVANTAGE," "IBC BANK," "BIZ RITE CHECKING," "GOT YOU COVERED," "OVERDRAFT COURTESY GOT YOU COVERED," "FREE BEE," "IT'S A BRIGHTER CHRISTMAS," a design mark depicting a bee character and "IT'S A BRIGHTER CHRISTMAS" as well as a design mark depicting the United States and Mexico, a design mark depicting "IBC" with the United States and Mexico. In addition, the Company owns Texas service mark registrations for "RITE CHECK," "THE CLUB," "WALL STREET INTERNATIONAL," "INTERNATIONAL BANK OF COMMERCE," "WE DO MORE," a composite mark depicting "CHECK'N SAVE" with a design, a composite mark depicting "WALL STREET INTERNATIONAL," with a design and a design mark depicting the United States and Mexico. The Company also owns Oklahoma service mark registrations for "CHECK 'N SAVE," "RITE CHECKING," "THE CLUB," and "WE DO MORE." The Company also owns a pending application for federal registration of another proprietary service mark and is regularly investigating the availability of service mark registrations related to certain proprietary products.

No material portion of the business of the Company may be deemed seasonal and the deposit and loan base of the Company's bank subsidiaries is diverse in nature. There has been no material effect upon the Company's capital expenditures, earnings or competitive position as a result of Federal, State or local environmental regulation.

As of December 31, 2009, the Company and its subsidiaries employed approximately 2,918 persons full-time and 744 persons part-time.

Competition

The Company is the third largest independent Texas bank holding company. The primary market area of the Company is South, Central and Southeast Texas, an area bordered on the east by the Galveston area, to the northwest by Roundrock, to the southwest by Del Rio and to the southeast by Brownsville, as well as the State of Oklahoma. The Company has increased its market share in its primary market area over the last several years through strategic acquisitions. The Company, through its bank subsidiaries, competes for deposits and loans with other commercial banks, savings and loan associations, credit unions and non-bank entities, which non-bank entities serve as an alternative to traditional financial institutions and are considered to be formidable competitors. The percentage of bank-related services being provided by non-bank entities has increased dramatically during the last several years.

The Company and its bank subsidiaries do a large amount of business for customers domiciled in Mexico, with an emphasis in Northern Mexico. Deposits from persons and entities domiciled in Mexico comprise a large and stable portion of the deposit base of the Company's bank subsidiaries. Such deposits comprised approximately 31%, 30% and 30% of the bank subsidiaries' total deposits for the three years ended December 31, 2009, 2008 and 2007, respectively.

Under the Gramm-Leach-Bliley Act ("GLBA"), effective March 11, 2000, banks, securities firms and insurance companies may affiliate under an entity known as a financial holding company which may then serve its customers' varied financial needs through a single corporate structure. GLBA has significantly changed the competitive environment in which the Company and its subsidiaries conduct

Table of Contents

business. The financial services industry is also likely to become even more competitive as further technological advances enable more companies to provide financial services. These technological advances may diminish the importance of depository institutions and other financial intermediaries in the transfer of funds between parties.

Supervision and Regulation

GENERAL—THE COMPANY. In addition to the generally applicable state and Federal laws governing businesses and employers, the Company and its bank subsidiaries are further extensively regulated by special Federal and state laws governing financial institutions. These laws comprehensively regulate the operations of the Company's bank subsidiaries and include, among other matters, requirements to maintain reserves against deposits; restrictions on the nature and amount of loans that may be made and the interest that may be charged thereon; restrictions on the amounts, terms and conditions of loans to directors, officers, large shareholders and their affiliates; restrictions related to investments in activities other than banking; and minimum capital requirements. The descriptions are qualified in their entirety by reference to the full text of the applicable statutes, regulations and policies. With few exceptions, state and Federal banking laws have as their principal objective either the maintenance of the safety and soundness of the Federal deposit insurance system or the protection of consumers, rather than the specific protection of shareholders of the Company. Further, the earnings of the Company are affected by the fiscal and monetary policies of the Federal Reserve System, which regulates the national money supply in order to mitigate recessionary and inflationary pressures. These monetary policies influence to a significant extent the overall growth of bank loans, investments and deposits and the interest rates charged on loans or paid on time and savings deposits. The nature of future monetary policies and the effect of such policies on the future earnings and business of the Company cannot be predicted.

RECENT LEGISLATION. On October 3, 2008, the President signed into law the Emergency Economic Stabilization Act of 2008 or ("EESA"), which, among other measures, authorized the Secretary of the Treasury to establish the Troubled Asset Relief Program ("TARP"). Pursuant to TARP, the U.S. Treasury has the authority to, among other things, purchase up to \$700 billion of mortgages, mortgage-backed securities and certain other financial instruments from financial institutions for the purpose of stabilizing and providing liquidity to the U.S. financial markets. In addition, under TARP, the Treasury created a capital purchase program ("CPP"), pursuant to which it provides access to capital that will serve as Tier 1 capital to financial institutions through a standardized program to acquire preferred stock (accompanied by warrants) from eligible financial institutions. On December 23, 2008, the Company sold \$216 million of Series A Preferred Stock to the Treasury under the CPP. On February 17, 2009, President Obama signed into law the American Recovery and Reinvestment Act of 2009 (the "ARRA"). ARRA was intended to provide a stimulus to the U.S. economy in the wake of the economic downturn brought about by the subprime mortgage crisis and the resulting credit crunch. ARRA includes federal tax cuts, expansion of unemployment benefits and other social welfare provisions, and domestic spending in education, healthcare, and infrastructure, including the energy structure. ARRA also includes numerous non-economic recovery related items, including a limitation on executive compensation of certain of the most highly-compensated employees and executive officers of financial institutions, such as the Company, that participated in the TARP Capital Purchase Program. The restrictions in the new law, which will be further described in rules to be adopted by the Commission and standards to be established by the Treasury Department, include the following:

- Limits on compensation incentives for risk taking by senior executive officers.
- Requirement of recovery of any compensation paid based on inaccurate financial information.
- Prohibition on "Golden Parachute Payments."

Table of Contents

- Prohibition on compensation plans that would encourage manipulation of reported earnings to enhance the compensation of employees.
- Publicly registered CPP recipients must establish a board compensation committee comprised entirely of independent directors, for the purpose of reviewing employee compensation plans.
- Prohibition on bonus, retention award, or incentive compensation, except for limited payments of long term restricted stock units payable in stock or cash.
- Limitation on luxury expenditures.
- CPP recipients are required to permit a separate non-binding shareholder vote to approve the compensation of executives, as disclosed pursuant to the SEC's compensation disclosure rules.
- The chief executive officer and chief financial officer of each CPP recipient will be required to provide a written certification of compliance with these standards to the SEC.

Pursuant to the ARRA, subject to consultation with the appropriate Federal banking agency, the Treasury Secretary shall permit a CPP participant to repay the CPP funds that they received without regard to whether the financial institution has replaced such funds from any other source, and when such CPP funds are repaid, the Treasury Secretary will liquidate warrants associated with the CPP funds at the current market price, however, in certain instances the determination of the market price of the warrants has taken considerable time.

There can be no assurance as to the actual impact that EESA and ARRA and such related measures undertaken to alleviate the credit crisis will have generally on the financial markets, including the extreme levels of volatility currently being experienced. The failure of such measures to help stabilize the financial markets and a continuation or worsening of current financial market conditions could materially and adversely affect our business, financial condition, results of operations, access to credit or the trading price of our common stock.

FRB APPROVALS. The Company is a registered bank holding company within the meaning of the BHCA, and is subject to supervision by the FRB and to a certain extent the Texas Department of Banking (the "DOB"). The Company is required to file with the FRB annual reports and other information regarding the business operations of itself and its subsidiaries. It is also subject to examination by the FRB. Under the BHCA, a bank holding company is, with limited exceptions, prohibited from acquiring direct or indirect ownership or control of any voting stock of any company which is not a bank or bank holding company, and must engage only in the business of banking, managing, controlling banks, and furnishing services to or performing services for its subsidiary banks. One of the exceptions to this prohibition is the ownership of shares of any company provided such shares do not constitute more than 5% of the outstanding voting shares of the company and so long as the FRB does not disapprove such ownership. Another exception to this prohibition is the ownership of shares of a company the activities of which the FRB has specifically determined to be so closely related to banking, managing or controlling banks as to be a proper incident thereto.

The BHCA and the Change in Bank Control Act of 1978 require that, depending on the circumstances, either FRB approval must be obtained or notice must be furnished to the FRB and not disapproved prior to any person or company acquiring "control" of a bank holding company, such as the Company, subject to certain exceptions for certain transactions. Control is conclusively presumed to exist if an individual or company acquires 25% or more of any class of voting securities of the bank holding company. Control is rebuttably presumed to exist if a person acquires 10% or more but less than 25% of any class of voting securities where the bank holding company, such as the Company, has registered Securities under Section 12 of the Securities Exchange Act of 1934 (the "Exchange Act").

As a bank holding company, the Company is required to obtain approval prior to merging or consolidating with any other bank holding company, acquiring all or substantially all of the assets of

Table of Contents

any bank or acquiring ownership or control of shares of a bank or bank holding company if, after the acquisition, the Company would directly or indirectly own or control 5% or more of the voting shares of such bank or bank holding company.

THE USA PATRIOT ACT. On October 26, 2001, the President signed into law a comprehensive anti-terrorism legislation entitled Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism (USA PATRIOT) Act of 2001 (the "Act"). Title III of the Act constitutes the USA PATRIOT ACT. The USA PATRIOT ACT and the regulations promulgated thereunder substantially expand and change the responsibilities of U.S. financial institutions with respect to countering money laundering and terrorist activities. The implementing regulations impose obligations on financial institutions to maintain appropriate policies, procedures and controls to detect, prevent and report money laundering and terrorist financing and to verify the identity of their customers. Also, the Act requires the bank regulatory agencies to consider the record of a bank or bank holding company in combating money laundering activities in their evaluation of bank and bank holding company merger or acquisition transactions. In recent years, money laundering and the Bank Secrecy Act compliance emerged as bank regulatory enforcement priorities. The Company has a program in place to monitor and enforce its policies on money laundering, corruption and bribery as well as its policies on prohibiting the use of Company assets to finance or otherwise aid alleged terrorist groups. Failure of a financial institution to maintain and implement adequate programs to combat money laundering and terrorist financing, or to comply with all the relevant laws or regulations, could have serious legal and reputational consequences for the institution.

OFFICE OF FOREIGN ASSETS CONTROL REGULATION. The United States has imposed economic sanctions that affect transactions with designated foreign countries, nationals and others. These are typically known as the "OFAC" rules based on their administration by the U.S. Treasury Department Office of Foreign Assets Control ("OFAC"). The OFAC administered sanctions take many forms, including without limitation, restrictions on trade or investment and the blocking of certain assets related to the designated foreign countries and nationals. Blocked assets, which may include bank deposits, cannot be paid out, withdrawn, set off or transferred in any manner without a license from OFAC. Failure to comply with the OFAC sanctions could have serious legal and reputational consequences.

FINANCIAL MODERNIZATION. The Gramm-Leach-Bliley Act of 1999 ("GLBA") eliminates the barriers to affiliations among banks, securities firms, insurance companies and other financial service providers. GLBA provides for a new type of financial holding company structure under which affiliations among these entities may occur. Under GLBA, a financial holding company may engage in a broad list of financial activities and any non-financial activity that the FRB determines is complementary to a financial activity and poses no substantial risk to the safety and soundness of depository institutions or the financial system. In addition, GLBA permits certain non-banking financial and financially related activities to be conducted by financial subsidiaries of banks.

Under GLBA, a bank holding company may become certified as a financial holding company by filing a declaration with the FRB, together with a certification that each of its subsidiary banks is well capitalized, is well managed, and has at least a satisfactory rating under the Community Reinvestment Act of 1977 ("CRA"). The Company has elected to become a financial holding company under GLBA and the election was made effective by the FRB as of March 13, 2000. During the second quarter of 2000, IBC established an insurance agency subsidiary which acquired two insurance agencies. As part of the Local Financial Corporation ("LFIN") acquisition in 2004, the Company acquired a securities firm registered under the Exchange Act, IBC Investments, Inc. A financial holding company that has a securities affiliate registered under the Act or a qualified insurance affiliate may make permissible merchant banking investments. As of December 31, 2009, the Company has made 25 merchant banking investments.

Table of Contents

The FRB and the Secretary of the Treasury have regulations governing the scope of permissible merchant banking investments. The investments that may be made under this authority are substantially broader in scope than the investment activities otherwise permissible for bank holding companies, and are referred to as "merchant banking investments" in "portfolio companies." Before making a merchant banking investment, a financial holding company must either be or have a securities affiliate registered under the Exchange Act or a qualified insurance affiliate. The merchant banking investments may be made by the financial holding company or any of its subsidiaries, other than a depository institution or subsidiary of a depository institution. The regulations place restrictions on the ability of a financial holding company to become involved in the routine management or operation of any of its portfolio companies. The regulation also generally limits the ownership period of merchant banking investments to no more than ten years.

The FRB, the Office of the Comptroller of the Currency (the "OCC"), and the FDIC have rules governing the regulatory capital treatment of equity investments in non-financial companies held by banks, bank holding companies and financial holding companies. The rule applies a graduated capital charge on covered equity investments which would increase as the proportion of such investments to Tier 1 Capital increases.

PREEMPTION. At the beginning of 2004, the OCC issued final rules clarifying when federal law overrides state law for national banks and their operating subsidiaries and confirming that only the OCC has the right to examine and take enforcement action against those institutions.

FINANCIAL PRIVACY. Additionally under the GLBA, federal banking regulators adopted rules that limit the ability of banks and other financial institutions to disclose non-public information about consumers to non-affiliated third parties. Pursuant to the rules, financial institutions must provide: (i) initial notices to customers about their privacy policies, describing the conditions under which they may disclose non-public personal information to non-affiliated third parties and affiliates; (ii) annual notices of their privacy policies to current customers; and (iii) a reasonable method for customers to "opt out" of disclosures to non-affiliated third parties. These privacy provisions affect how customer information is transmitted through diversified financial companies and conveyed to outside vendors. The Fair and Accurate Credit Transactions Act amended the Fair Credit Reporting Act and provided limitations on information sharing among affiliates. In order to share transaction and experience information, affiliates must provide consumers with a notice and opt out opportunity.

SARBANES-OXLEY ACT OF 2002. The Sarbanes-Oxley Act of 2002 represents a comprehensive revision of laws affecting corporate governance, accounting obligations and corporate reporting. The Sarbanes-Oxley Act is applicable to all companies with equity securities registered or that file reports under the Securities Exchange Act of 1934. In particular, the Sarbanes-Oxley Act establishes: (i) new requirements for audit committees, including independence, expertise, and responsibilities; (ii) additional responsibilities regarding certification of financial statements by the Chief Executive Officer and Chief Financial Officer of the reporting company; (iii) new standards for auditors and regulation of audits; (iv) increased disclosure and reporting obligations for the reporting company and its directors and executive officers; and (v) new and increased civil and criminal penalties for violations of the securities laws.

NASDAQ LISTING STANDARDS. The Company is traded on the NASDAQ Stock Market. The Company must comply with the listing standards of the NASDAQ Stock Market. In addition to other matters, the listing standards address disclosure requirements and standards relating to board independence and other corporate governance matters.

INTERSTATE BANKING. The Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994 ("Interstate Banking Act"), rewrote federal law governing the interstate expansion of banks in the United States. Under the Interstate Banking Act, adequately capitalized, well managed bank holding companies with FRB approval may acquire banks located in any State in the United States, provided

Table of Contents

that the target bank meets the minimum age (up to a maximum of five years, which is the maximum Texas has adopted) established by the host State. Under the Interstate Banking Act, an anti-concentration limit will bar interstate acquisitions that would give a bank holding company control of more than ten percent (10%) of all deposits nationwide or thirty percent (30%) of any one State's deposits, or such higher or lower percentage established by the host State. The anti-concentration limit in Texas has been set at twenty percent (20%) of all federally insured deposits in Texas. As allowed by the Interstate Banking Act, the Company acquired LFIN, including its Oklahoma financial institution, during 2004.

FRB ENFORCEMENT POWERS. The FRB has certain cease-and-desist and divestiture powers over bank holding companies and non-banking subsidiaries where their actions would constitute a serious threat to the safety, soundness or stability of a subsidiary bank. These powers may be exercised through the issuance of cease-and-desist orders or other actions. In the event a bank subsidiary experiences either a significant loan loss or rapid growth of loans or deposits, the Company may be compelled by the FRB to invest additional capital in the bank subsidiary. Further, the Company would be required to guaranty performance of the capital restoration plan of any undercapitalized bank subsidiary. The FRB is also empowered to assess civil money penalties against companies or individuals who violate the BHCA in amounts up to \$1,000,000 per day, to order termination of non-banking activities of non-banking subsidiaries of bank holding companies and to order termination of ownership and control of a non-banking subsidiary. Under certain circumstances the Texas Banking Commissioner may bring enforcement proceedings against a bank holding company in Texas.

COMPANY DIVIDENDS. The FRB's policy discourages the payment of dividends from borrowed funds and discourages payments that would affect capital adequacy. The FRB has issued policy statements which generally state that bank holding companies should serve as a source of financial and managerial strength to their bank subsidiaries, generally should not pay dividends except out of current earnings, and should not borrow to pay dividends if the bank holding company is experiencing capital or other financial problems.

CROSS-GUARANTEE PROVISIONS. The Financial Institutions Reform Recovery and Enforcement Act of 1989 ("FIRREA") contains a "cross-guarantee" provision which generally makes commonly controlled insured depository institutions liable to the FDIC for any losses incurred in connection with the failure of a commonly controlled depository institution.

AUDIT REPORTS. Insured institutions with total assets of \$1 billion or more must submit annual audit reports prepared by independent auditors to federal and state regulators, as well as certain internal control assessments. In some instances, the audit report of the institution's holding company can be used to satisfy this requirement. Auditors must receive examination reports and examination related correspondence. In addition, financial statements prepared in accordance with accounting principles generally accepted in the United States of America, management's certifications concerning responsibility for the financial statements, internal controls and compliance with legal requirements designated by the FDIC, and an audit by the independent auditor regarding the internal controls must be submitted to federal and state regulators. The Federal Deposit Insurance Corporation Improvement Act of 1991 ("FDICIA") requires that independent audit committees be formed, consisting of outside directors only. The committees of such institutions must include members with experience in banking or financial management, must have access to outside counsel, and must not include representatives of large customers.

During 1999, the SEC and the National Association of Securities Dealers adopted new rules, which became effective during 2000, to improve the function of corporate audit committees. The new rules require, among other things, that the audit committee review and assess the adequacy of its charter on an annual basis, that independent auditors review public companies' interim financial information prior to filing with the SEC and that companies include in their proxy statements certain information about

Table of Contents

their audit committees. The bank subsidiaries of the Company satisfy the annual audit requirement by relying on the audit of the Company. The Company is also subject to the enhanced audit committee requirements set forth in the Sarbanes-Oxley Act of 2002.

GENERAL—BANK SUBSIDIARIES. All of the bank subsidiaries of the Company are state banks subject to regulation by, and supervision of, the Texas DOB and the FDIC.

DEPOSIT INSURANCE. All of the bank subsidiaries of the Company are examined by the FDIC, which currently insures the deposits of each member bank up to applicable limits. Deposits of each of the bank subsidiaries are insured by the FDIC through the Deposit Insurance Fund ("DIF") to the extent provided by law. The FDIC uses a risk-based assessment system that imposes premiums based upon a matrix that takes into account a bank's capital level and supervisory rating. As of January 1, 2007, the previous nine risk categories utilized in the risk matrix were condensed into four risk categories which continue to be distinguished by capital levels and supervisory rating. During 2007, the bank subsidiaries of the Company were required to pay deposit insurance premiums. Under the Federal Deposit Insurance Reform Act of 2005, which became law in 2006, the bank subsidiaries of the Company received a one-time assessment credit that can be applied against future premiums, subject to certain limitations. During 2009, the remaining credit was used to offset a portion of the deposit insurance premiums owed by the bank subsidiaries of the Company. During 2009, the bank subsidiaries of the Company paid Financing Corporation ("FICO") assessments related to outstanding FICO bonds to the FDIC as a collection agent. The FICO is a mixed-ownership government corporation whose sole purpose was to serve as a financing vehicle for the defunct Federal Savings & Loan Insurance Corporation.

In December 2008, the FDIC issued a final rule that raised the then current assessment rates uniformly by 7 basis points for the first quarter of 2009 assessment, which resulted in annualized assessment rates for institutions, such as the Subsidiary Banks in Risk Category 1 ("Risk Category 1 institutions"), ranging from 12 to 14 basis points (basis points representing cents per \$100 of assessable deposits). In February 2009, the FDIC issued final rules to amend the DIF restoration plan, change the risk-based assessment system and set assessment rates for Risk Category 1 institutions beginning in the second quarter of 2009. The initial base assessment rates for Risk Category 1 institutions range from 12 to 16 basis points, on an annualized basis. After the effect of potential base-rate adjustments, total base assessment rates rate from 7 to 24 basis points.

In May 2009, the FDIC issued a final rule which levied a special assessment applicable to all insured depository institutions totaling 5 basis points of each institution's total assets, less Tier 1 capital, as of June 30, 2009, not to exceed 10 basis points of domestic deposits. The special assessment was part of the FDIC's efforts to rebuild the DIF. Deposit insurance expenses for the Subsidiary Banks during 2009 included \$5.1 million accrued in the second quarter related to the special assessment.

In November 2009, the FDIC issued a rule that required all deposit institutions, with limited exceptions, to prepay their estimated quarterly risk-based assessments for the fourth quarter of 2009, and for all of 2010, 2011, and 2012. The FDIC also adopted a uniform three-basis point increase in assessment rates effective on January 1, 2011. In December 2009, the Company paid \$34.2 million in pre-paid risk-based assessments.

Under the FDIA, the FDIC may terminate deposit insurance upon a finding that the institution has engaged in unsafe and unsound practices, is in an unsafe or uninsured condition to continue operations, or has violated any applicable law, regulation, rule or order of condition imposed by the FDIC.

Table of Contents

On November 21, 2008, the Board of Directors of the FDIC adopted a final rule relating to the Temporary Liquidity Guarantee Program ("TLG Program"). Under the TLG Program, the FDIC will (i) guarantee, through the earlier of maturity or June 30, 2012, certain newly issued senior unsecured debt issued by participating institutions on or after October 14, 2008, and before June 30, 2009 and (ii) provide full FDIC deposit insurance coverage for non-interest bearing transaction deposit accounts. Negotiable Order of Withdrawal ("NOW") accounts paying less than 0.5% interest per annum and Interest on Lawyers Trust Accounts held at participating FDIC-insured institutions through June 30, 2010 (extended from December 31, 2009, subject to opt-out provision by subsequent amendment). Coverage under the TLG Program was available for the first 30 days without charge. The fee assessment for coverage of senior unsecured debt ranges from 50 basis points to 100 basis points per annum, depending on the initial maturity of the debt. The fee assessment for deposit insurance coverage is 10 basis points per quarter on amounts in covered accounts exceeding \$250,000. The Company elected to participate in the broader FDIC insurance program, but opted out of the debt guarantee program. During the six month extension period in 2010, the fee assessment increases to 15 basis points per quarter on amounts in covered accounts exceeding \$250,000. On February 2, 2009, the FDIC adopted a final rule clarifying the processing of deposit accounts in the event of an insured depository institution failure, which rule made it clear the Repo sweep account customers are protected because they will receive ownership of the underlying assets in the event of a bank failure.

CAPITAL ADEQUACY. The Company and its bank subsidiaries are currently required to meet certain minimum regulatory capital guidelines utilizing total capital-to-risk-weighted assets and Tier 1 Capital elements. At December 31, 2009, the Company's ratio of total capital-to-risk-weighted assets was 18.99%. The guidelines make regulatory capital requirements more sensitive to differences in risk profiles among banking organizations, consider off-balance sheet exposure in assessing capital adequacy, and encourage the holding of liquid, low-risk assets. At least one-half of the minimum total capital must be comprised of Core Capital or Tier 1 Capital elements. Tier 1 Capital of the Company is comprised of common shareholders' equity and permissible amounts related to the trust preferred securities. The deductible core deposit intangibles and goodwill of \$304,890,000 booked in connection with all the financial institution acquisitions of the Company after February 1992 are deducted from the sum of core capital elements when determining the capital ratios of the Company.

In addition, the FRB has established minimum leverage ratio guidelines for bank holding companies. These guidelines provide for a minimum leverage ratio of Tier 1 capital to adjusted average quarterly assets ("leverage ratio") equal to three percent for bank holding companies that meet certain specified criteria, including having the highest regulatory rating. All other bank holding companies will generally be required to maintain a leverage ratio of at least four to five percent. The Company's leverage ratio at December 31, 2009 was 10.95%. The guidelines also provide that bank holding companies experiencing internal growth or making acquisitions will be expected to maintain strong capital positions substantially above the minimum supervisory levels without significant reliance on intangible assets. Furthermore, the guidelines indicate that the FRB will continue to consider a "tangible tier 1 leverage ratio" (deducting all intangibles) in evaluating proposals for expansion or new activity. The FRB has not advised the Company of any specific minimum leverage ratio or tangible Tier 1 leverage ratio applicable to it. For a bank holding company to be considered "well-capitalized" under the regulatory framework for prompt corrective action, its leverage ratio must be at least 5.0%.

In March 2005, the Federal Reserve Board issued a final rule that would continue to allow the inclusion of trust preferred securities in Tier 1 capital, but with stricter quantitative limits. Under the final rule, after a five-year transition period ending March 31, 2009, the aggregate amount of trust preferred securities and certain other capital elements would be limited to 25% of Tier 1 capital elements, net of goodwill, less any associated deferred tax liability. The amount of trust preferred securities and certain other elements in excess of the limit could be included in Supplementary Capital or Tier 2 capital, subject to restrictions. Tier 2 capital includes among other things, perpetual preferred

Table of Contents

stock, qualifying mandatory convertible debt securities, qualifying subordinated debt, and allowances for probable loan and lease losses, subject to limitations. Bank holding companies with significant international operations will be expected to limit trust preferred securities to 15% of Tier 1 capital elements, net of goodwill; however, they may include qualifying mandatory convertible preferred securities up to the 25% limit. On March 16, 2009, the Federal Reserve Board extended for two years the transition period. The Company believes that substantially all of the trust preferred securities issued by the Company will qualify as Tier 1 capital after the transition period ending on March 31, 2011.

Each of the Company's bank subsidiaries is subject to similar capital requirements adopted by the FDIC. Each of the Company's bank subsidiaries had a leverage ratio in excess of five percent as of December 31, 2009. As of that date, the federal banking agencies had not advised any of the bank subsidiaries of any specific minimum leverage ratio applicable to it.

Effective December 19, 1992, the federal bank regulatory agencies adopted regulations which mandate a five-tier scheme of capital requirements and corresponding supervisory actions to implement the prompt corrective action provisions of FDICIA. The regulations include requirements for the capital categories that will serve as benchmarks for mandatory supervisory actions. Under the regulations, the highest of the five categories would be a well capitalized institution with a total risk-based capital ratio of 10%, a Tier 1 risk-based capital ratio of 6% and a Tier 1 leverage ratio of 5%. An institution would be prohibited from declaring any dividends, making any other capital distribution or paying a management fee if the capital ratios drop below the levels for an adequately capitalized institution, which are 8%, 4% and 4%, respectively. The corresponding provisions of FDICIA mandate corrective actions are taken if a bank is undercapitalized. Based on the Company's and each of the bank subsidiaries' capital ratios as of December 31, 2009, the Company and each of the bank subsidiaries were classified as "well capitalized" under the applicable regulations.

The risk-based standards that apply to bank holding companies and banks incorporate market and interest rate risk components. Applicable banking institutions are required to adjust their risk-based capital ratio to reflect market risk. Under the market risk capital guidelines, capital is allocated to support the amount of market risk related to a financial institution's ongoing trading activities. Financial institutions are allowed to issue qualifying unsecured subordinated debt (Tier 3 capital) to meet a part of their market risks. The Company does not have any Tier 3 capital and did not need Tier 3 capital to offset market risks. In January 2010, the federal bank regulators issued a final risk-based capital rule related to new accounting standards that make substantive changes in how banking organizations account for more items, including securitized assets that previously had been taken off banks' balance sheets.

The federal regulatory authorities' risk-based capital guidelines are based upon the 1988 capital accord of the Basel Committee on Banking Supervision (the "BIS"). The BIS is a committee of central banks and bank supervisors/regulators from the major industrialized countries that develops broad policy guidelines for use by each country's supervisors in determining the supervisory policies they apply. In June 2004, the BIS released a new capital accord to replace the 1988 capital accord with an update in November 2005 ("BIS II"). BIS II would set capital requirements for operational risk, and refine the existing capital requirements for credit risk and market risk exposures. The United States federal banking agencies are developing proposed revisions to their existing capital adequacy regulations and standards based on BIS II. A definitive final rule for implementing BIS II in the United States that would apply only to internationally active banking organizations, or "core banks"—defined as those with consolidated total assets of \$250 billion or more or consolidated on-balance sheet foreign exposures of \$10 billion or more became effective as of April 1, 2008. Other U.S. banking organizations may elect to adopt the requirements of this rule (if they meet applicable qualification requirements), but they will not be required to apply them. The rule also allows a banking organization's primary federal supervisor to determine that the application of the rule would not be

Table of Contents

appropriate in light of the bank's asset size, level of complexity, risk profile, or scope of operations. The Company is not required to comply with Basel II at this time.

In July 2008, the banking agencies issued a proposed rule that would give banking organizations that are not required to comply with Basel II the option to implement a new risk-based capital framework. This framework would adopt the standardized approach of Basel II for credit risk, the basic indicator approach of Basel II for operational risk, and related disclosure requirements. While this proposed rule generally parallels the relevant approaches under Basel II, it diverges where United States markets have unique characteristics and risk profiles, most notably with respect to risk weighting residential mortgage exposures. Comments on the proposed rule were due to the agencies by October 27, 2008, but a definitive final rule has not been issued. The proposed rule, if adopted, would replace the agencies' earlier proposed amendments to existing risk-based capital guidelines to make them more risk sensitive (formerly referred to as the "Basel I-A" approach).

On September 3, 2009, the United States Treasury Department issued a policy statement (the "Treasury Policy Statement") entitled "Principles for Reforming the U.S. and International Regulatory Capital Framework for Banking Firms." The Treasury Policy Statement was developed in consultation with the U.S. bank regulatory agencies and contemplates changes to the existing regulatory capital regime that would involve substantial revisions to, if not replacement of, major parts of the Basel I and Basel II capital frameworks and affect all regulated banking organizations and other systemically important institutions. The Treasury Policy Statement calls for, among other things, higher and stronger capital requirements for all banking firms. The Treasury Policy Statement suggested that changes to the regulatory capital framework be phased in over a period of several years. The recommended schedule provides for a comprehensive international agreement by December 31, 2010, with the implementation of reforms by December 31, 2012, although it does remain possible that U.S. bank regulatory agencies could officially adopt, or informally implement, new capital standards at an earlier date.

On December 17, 2009, the BIS issued a set of proposals (the "Capital Proposals") that would significantly revise the definitions of Tier 1 capital and Tier 2 capital, with the most significant changes being to Tier 1 capital. Most notably, the Capital Proposals would disqualify certain structured capital instruments, such as trust preferred securities, from Tier 1 capital status. The Capital Proposals would also re-emphasize that common equity is the primary component of Tier 1 capital by adding a minimum common stock equity to risk-weighted assets ratio and requiring that goodwill, general intangibles and certain other items that currently must be deducted from Tier 1 capital instead be deducted from common equity as a component of Tier 1 capital. The Capital Proposals also leave open the possibility that the BIS will recommend changes to the minimum Tier 1 capital and total capital ratios of 4.0% and 8.0%, respectively.

Concurrently with the release of the Capital Proposals, the BIS also released a set of proposals related to liquidity risk exposure (the "Liquidity Proposals," and, together with the Capital Proposals, the "2009 Basel Committee Proposals"). The Liquidity Proposals have three key elements, including the implementation of (i) a "liquidity coverage ratio" designed to ensure that a bank maintains an adequate level of unencumbered, high-quality assets sufficient to meet the bank's liquidity needs over a 30-day time horizon under an acute liquidity stress scenario, (ii) a "net stable funding ratio" designed to promote more medium and long-term funding of the assets and activities for banks over a one-year time horizon, and (iii) a set of monitoring tools that the BIS indicates should be considered as the minimum types of information that banks should report to supervisors and that supervisors should use in monitoring the liquidity risk profiles of supervised entities.

Comments on the 2009 Basel Committee Proposals are due by April 16, 2010, with the expectations that the BIS will release a comprehensive set of proposals by December 31, 2010, and that final provisions will be implemented by December 31, 2012. The U.S. bank regulators have urged comment on the 2009 Basel Committee Proposals. Ultimate implementation of such proposals in the

Table of Contents

U.S. will be subject to the discretion of the U.S. bank regulators and the regulations or guidelines adopted by such agencies may, of course, differ from the 2009 Basel Committee Proposals and other proposals that the BIS may promulgate in the future.

STATE ENFORCEMENT POWERS. The Banking Commissioner of Texas may determine to close a Texas state bank when he finds that the interests of depositors and creditors of a state bank are jeopardized through its insolvency or imminent insolvency and that it is in the best interest of such depositors and creditors that the bank be closed. The Texas DOB also has broad enforcement powers over the bank subsidiaries, including the power to impose orders, remove officers and directors, impose fines and appoint supervisors and conservators.

DEPOSITOR PREFERENCE. Because the Company is a legal entity separate and distinct from its bank subsidiaries, its right to participate in the distribution of assets of any subsidiary upon the subsidiary's liquidation or reorganization will be subject to the prior claims of the subsidiary's creditors. In the event of a liquidation or other resolution of a subsidiary bank, the claims of depositors and other general or subordinated creditors of the bank are entitled to a priority of payment over the claims of holders of any obligation of the institution to its shareholders, including any depository institution holding company (such as the Company) or any shareholder or creditor thereof.

CRA. Under the CRA, the FDIC is required to assess the record of each bank subsidiary to determine if the bank meets the credit needs of its entire community, including low and moderate-income neighborhoods served by the institution, and to take that record into account in its evaluation of any application made by the bank for, among other things, approval of the acquisition or establishment of a branch or other deposit facility, an office relocation, a merger, or the acquisition of shares of capital stock of another financial institution. The FDIC prepares a written evaluation of an institution's record of meeting the credit needs of its entire community and assigns a rating. The FIRREA requires federal banking agencies to make public a rating of a bank's performance under the CRA. Each bank subsidiary received a "satisfactory" CRA rating in its most recently completed examination. The Company's bank subsidiaries conduct an award-winning financial literacy program in their communities as part of their community outreach. Further, there are fair lending laws, including the Equal Credit Opportunity Act and the Fair Housing Act, which prohibit discrimination in connection with lending decisions. The board periodically conducts fair lending evaluations of banks and IBC is currently undergoing such an evaluation, as well as a CRA examination.

CONSUMER LAWS. In addition to the laws and regulations discussed herein, the Bank is also subject to certain consumer laws and regulations that are designed to protect consumers in transactions with banks. While the list set forth herein is not exhaustive, these laws and regulations include the Truth in Lending Act, the Truth in Savings Act, the Electronic Funds Transfer Act, the Expedited Funds Availability Act, the Real Estate Settlement Procedures Act and the Fair Credit Reporting Act, among others. In the residential real estate lending area, each subsidiary bank is required to comply with the Home Ownership Equity and Protection Act, which is implemented by Regulation Z, as well as certain state laws. These laws and regulations mandate certain disclosure requirements and regulate the manner in which financial institutions must deal with customers when taking deposits or making loans to such customers. The Bank must comply with the applicable provisions of these consumer protection laws and regulations as part of their ongoing customer relations.

AFFILIATE TRANSACTIONS. The Company, IBC and the other bank subsidiaries of the Company are "affiliates" within the meaning of Section 23A of the Federal Reserve Act which sets forth certain restrictions on loans and extensions of credit between a bank subsidiary and affiliates, on investments in an affiliate's stock or other securities, and on acceptance of such stock or other securities as collateral for loans. Such restrictions prevent a bank holding company from borrowing from any of its bank subsidiaries unless the loans are secured by specific obligations. Further, such secured loans and investments by a bank subsidiary are limited in amount, as to a bank holding

Table of Contents

company or any other affiliate, to 10% of such bank subsidiary's capital and surplus and, as to the bank holding company and its affiliates, to an aggregate of 20% of such bank subsidiary's capital and surplus. Certain restrictions do not apply to 80% or more owned sister banks of bank holding companies. Each bank subsidiary of the Company is wholly-owned by the Company. Section 23B of the Federal Reserve Act requires that the terms of affiliate transactions be comparable to terms of similar non-affiliate transactions. On October 31, 2002, the Board of Governors of the Federal Reserve System adopted a final rule (Regulation W) to implement comprehensively sections 23A and 23B of the Federal Reserve Act and provides several new exemptions consistent with the purposes of the statute. The final rule combines statutory restrictions on transactions between a member bank and its affiliates with numerous Board interpretations and exemptions in an effort to simplify compliance with sections 23A and 23B.

INSIDER LOANS. The restrictions on loans to directors, executive officers, principal shareholders and their related interests (collectively referred to herein as "insiders") contained in the Federal Reserve Act and Regulation O apply to all insured institutions and their subsidiaries and holding companies. These restrictions include limits on loans to one borrower, prohibition on preferential terms, and other conditions that must be met before such a loan can be made. There is also an aggregate limitation on all loans to insiders and their related interests. These loans cannot exceed the institution's total unimpaired capital and surplus, and the FDIC may determine that a lesser amount is appropriate. Insiders are subject to enforcement actions for knowingly accepting loans in violation of applicable restrictions.

LENDING RESTRICTIONS. The operations of the Banks are also subject to lending limit restrictions pertaining to the extension of credit and making of loans to one borrower. Further, under the BHCA and the regulations of the FRB thereunder, the Company and its subsidiaries are prohibited from engaging in certain tie-in arrangements with respect to any extension of credit or provision of property or services; however, the FRB adopted a rule relaxing tying restrictions by permitting a bank holding company to offer a discount on products or services if a customer obtains other products or services from such company. In February 2005, the banking agencies issued best practices guidelines on overdraft protection programs which state that overdraft protection programs are an extension of credit, but are not subject to Truth-in-Lending disclosure requirements. On November 12, 2009, the FRB issued final rules amending Regulation E that prohibit financial institutions from charging consumer fees for paying overdrafts on ATM and on-time debit card transactions, unless the consumer consents or opts-in to the overdraft service for those types of transactions.

DIVIDENDS. The ability of the Company to pay dividends is largely dependent on the amount of cash derived from dividends declared by its bank subsidiaries. The payment of dividends by any bank or bank holding company is affected by the requirement to maintain adequate capital as discussed above. The ability of the Banks, as Texas banking associations, to pay dividends is restricted under Texas law. A Texas bank generally may not pay a dividend reducing its capital and surplus without the prior approval of the Texas Banking Commissioner. The FDIC has the right to prohibit the payment of dividends by a bank where the payment is deemed to be an unsafe and unsound banking practice. Additionally, as a result of the Company's participation in the CPP, the Company is restricted in the payment of dividends and may not without the Treasury Department's consent, declare or pay any dividend on the Company Common Stock other than a regular semi-annual cash dividend of not more than \$.33 per share, as adjusted for any stock dividend or stock split. The restriction ceases to exist only on the earlier to occur of December 23, 2011 or the date on which the Company has redeemed all of the Preferred Stock issued as part of the CPP program or the date on which the Treasury has transferred all of the Preferred Stock to third parties not affiliated with the Treasury. At December 31, 2009, there was an aggregate of approximately \$390,000,000 available for the payment of dividends to the Company by IBC, Commerce Bank, IBC-Zapata and IBC-Brownsville under the applicable restrictions, assuming that each of such banks continues to be classified as "well capitalized." Further, the Company could expend the entire \$390,000,000 and continue to be classified as "well capitalized". Note 21 of Notes to Consolidated Financial Statements of the Company in the 2009 Annual Report is incorporated herein by reference.

Table of Contents

POWERS. As a result of FDICIA, the authority of the FDIC over state-chartered banks was expanded. FDICIA limits state-chartered banks to only those principal activities permissible for national banks, except for other activities specifically approved by the FDIC. The new Texas Banking Act includes a parity provision which establishes procedures for state banks to notify the Banking Commissioner if the bank intends to conduct any activity permitted for a national bank that is otherwise denied to a state bank. The Banking Commissioner has thirty (30) days to prohibit the activity. Also, the Texas Finance Code includes, a super parity provision with procedures for state banks to notify the Banking Commissioner if the bank intends to conduct any activity permitted for any depository institution in the United States. The Banking Commissioner has thirty (30) days to prohibit the activity.

FINANCIAL SUBSIDIARIES. Under GLBA, a national bank may establish a financial subsidiary and engage, subject to limitations on investment, in activities that are financial in nature, other than insurance underwriting as principal, insurance company portfolio investment, real estate development, real estate investment and annuity issuance. To do so, a bank must be well capitalized, well managed and have a CRA rating of satisfactory or better. Subsidiary banks of a financial holding company or national banks with financial subsidiaries must remain well capitalized and well managed in order to continue to engage in activities that are financial in nature without regulatory actions or restrictions, which could include divestiture of the financial subsidiary or subsidiaries. In addition, a bank may not acquire a company that is engaged in activities that are financial in nature unless the bank and each affiliated bank has a CRA rating of satisfactory or better.

The powers of state-chartered banks that are not members of the Federal Reserve System were not directly addressed by GLBA. However, Texas state nonmember banks should indirectly benefit from the enhanced powers made available to financial subsidiaries of national banks by GLBA through the Texas parity statute, which authorizes state-chartered banks to engage in powers available for national banks, subject to certain state and federal law restrictions.

REGULATORY REFORM. In June 2009, the U.S. President's administration proposed a wide range of regulatory reforms that, if enacted, may have significant effects on the financial services industry in the United States. Significant aspects of the administration's proposals that may affect the Company included, among other things, proposals: (i) to reassess and increase capital requirements for banks and bank holding companies and examine the types of instruments that qualify as regulatory capital, (ii) to combine the OCC and the Office of Thrift Supervision into a National Bank Supervisor with a unified federal bank charter, (iii) to increase the current eligibility requirements for financial holding companies such as the Company so that the financial holding company must be "well-capitalized" and "well managed" on a consolidated basis, (iv) to create a federal consumer financial protection agency to be the primary federal consumer protection supervisor with broad examination, supervision and enforcement authority with respect to consumer financial products and services, (v) to further limit the ability of banks to engage in transactions with affiliates, and (vi) to subject all "over-the-counter" derivative markets to comprehensive regulation.

The U.S. Congress, state lawmaking bodies and federal and state regulatory agencies continue to consider a number of wide-ranging and comprehensive proposals for altering the structure, regulation and competitive relationships of the nation's financial institutions, including rules and regulations related to the administration's proposals. Separate comprehensive financial reform bills intended to address the proposals set forth by the administration were introduced in both houses of Congress in the second half of 2009, and remain under review by both the U.S. House of Representatives and the U.S. Senate. In addition, both the U.S. Treasury Department and the Basel Committee have issued policy statements regarding proposed significant changes to the regulatory capital framework applicable to banking organizations as discussed above. The Company cannot predict whether or in what form further legislation or regulations may be adopted or the extent to which the Company may be affected thereby.

Table of Contents

INCENTIVE COMPENSATION. On October 22, 2009, the Federal Reserve issued a comprehensive proposal on incentive compensation policies (the "Incentive Compensation Proposal") intended to ensure that incentive compensation policies of banking organizations don't undermine the safety and soundness of such organizations by encouraging excessive risk-taking. The Incentive Compensation Proposal, which covers all employees that have the ability to materially affect the risk profile of an organization, either individually or as part of a group, is based upon the key principles that a banking organization's incentive compensation arrangement should (i) provide incentives that do not encourage risk-taking beyond the organization's ability to effectively identify and manage risks, (ii) be compatible with effective internal controls and risk management, and (iii) be supported by strong corporate governance, including active and effective oversight by the organization's board of directors. Banking organizations are instructed to begin an immediate review of their incentive compensation policies to ensure that they do not encourage excessive risk-taking and implement corrective programs as needed.

The Federal Reserve will review, as part of the regular, risk-focused examination process, the incentive compensation arrangements of banking organizations, such as the Company. These reviews will be tailored to each organization based on the scope and complexity of the organization's activities and the prevalence of incentive compensation arrangements. The findings of the supervisory initiatives will be included in reports of examination. Deficiencies will be incorporated into the organization's supervisory ratings, which can affect the organization's ability to make acquisitions and take other actions. Enforcement actions may be taken against a banking organization if its incentive compensation arrangements, or related risk-management control or governance processes, pose a risk to the organization's safety and soundness and the organization is not taking prompt and effective measures to correct the deficiencies.

In addition, on January 12, 2010, the FDIC announced that it would seek public comment on whether banks with compensation plans that encourage risky behavior should be charged at higher deposit assessment rates than such banks would otherwise be charged.

The scope and content of the U.S. banking regulators' policies on executive compensation are continuing to develop and are likely to continue evolving in the near future. It cannot be determined at this time whether compliance with such policies will adversely affect the Company's ability to hire, retain and motivate its key employees.

INSTABILITY OF REGULATORY STRUCTURE. New legislation could be adopted which would change banking statutes and the operating environment of the Company and the bank subsidiaries in substantial and unpredictable ways. Such changes could have a material effect on the business of the Company. The Company cannot predict whether any such legislation will be adopted and the Company cannot determine the ultimate effect that potential legislation, if enacted, or implementing regulations with respect thereto, would have upon the financial condition or results of operations of the Company or its subsidiaries.

Item 1A. Risk Factors

Risk Factors

An investment in the Company's common stock is subject to risks inherent to the Company's business. Described below are the material risks and uncertainties that management believes may affect the Company. You should carefully consider the risks and uncertainties the Company describes below and the other information in this Annual Report or incorporated by reference before deciding to invest in, or retain, shares of the Company's common stock. These are not the only risks and uncertainties that the Company faces. Additional risks and uncertainties that the Company does not know about or that the Company currently believes are immaterial, or that the Company has not predicted, may also harm the Company's business operations or adversely affect the Company. If any of these risks or

Table of Contents

uncertainties actually occurs, the Company's business, financial condition, operating results or liquidity could be materially harmed. This report is qualified in its entirety by these risk factors.

Risks Related to the Company's Business

Losses from loan defaults may exceed the allowance the Company establishes for that purpose, which could have an adverse effect on the Company's business.

There are inherent risks associated with the Company's lending activities. Losses from loan defaults may exceed the allowance the Company establishes for that purpose. Like all financial institutions, the Company maintains an allowance for probable loan losses to provide for losses inherent in the loan portfolio. The allowance for probable loan losses reflects management's best estimate of loan losses in the loan portfolio at the relevant balance sheet date. The level of the allowance reflects management's continuing evaluation of the specific credit risks, the Company's historical loan loss experience, current loan portfolio quality, composition and growth of the loan portfolio, and economic, political and regulatory conditions and unidentified losses inherent in the current loan portfolio. The determination of an appropriate level of loan loss allowance is an inherently difficult process and is based on numerous assumptions. In addition, bank regulatory agencies periodically review the Company's allowance for loan losses and may require an increase in the provision for probable loan losses or the recognition of further loan charge-offs, based on judgments different than those of management. As a result, the Company's allowance for loan losses may not be adequate to cover actual losses, and future provisions for loan losses may adversely affect the Company's earnings. The Company believes its allowance for probable loan losses is adequate at December 31, 2009.

If real estate values in the Company's target markets decline, the loan portfolio would be impaired.

A significant portion of the Company's loan portfolio consists of loans secured by real estate located in the markets served by the Company. Real estate values and real estate markets are generally affected by, among other things, changes in national, regional, or local economic conditions; fluctuations in interest rates and the availability of loans to potential purchases, changes in the tax laws and other governmental statutes, regulations, and policies; and acts of nature. If real estate prices decline significantly in any of these markets, the value of the real estate collateral securing the Company's loans would be reduced. Such a reduction in the value of the Company's collateral could increase the number of impaired loans and adversely affect the Company's financial performance.

The Company Is Subject To Environmental Liability Risk Associate With Lending Activities.

A significant portion of the Company's loan portfolio is secured by real property. During the ordinary course of business, the Company may foreclose on and take title to properties securing certain loans. In doing so, there is a risk that hazardous or toxic substances could be found on these properties. If hazardous or toxic substances are found, the Company may be liable for remediation costs, as well as for personal injury and property damage. Environmental laws may require the Company to incur substantial expenses and may materially reduce the affected property's value or limit the Company's ability to use or sell the affected property. In addition, future laws or more stringent interpretations or enforcement policies with respect to existing laws may increase the Company's exposure to environmental liability. The remediation costs and any other financial liabilities associated with an environmental hazard could have a material adverse effect on the Company's financial condition and results of operations.

Table of Contents

The Company's subsidiary banks face strong competition in their market areas, which may limit their asset growth and profitability.

The Company's primary market areas are South, Central and Southeast Texas, including Austin and Houston, and the State of Oklahoma. The banking business in these areas is extremely competitive, and the level of competition facing the Company may increase further, which may limit the growth and profitability of the Company. Each of the Company's subsidiary banks experience competition in both lending and attracting funds from other banks, savings institutions, credit unions and non-bank financial institutions located within its market area, many of which are significantly larger institutions. Non-bank competitors competing for deposits and deposit type accounts include mortgage bankers and brokers, finance companies, credit unions, securities firms, money market funds, life insurance companies, and mutual funds. For loans, the Company encounters competition from other banks, savings associations, finance companies, mortgage bankers and brokers, insurance companies, small loan and credit card companies, credit unions, pension trusts, and securities firms. Many of the Company's competitors have fewer regulatory constraints and may have lower cost structures. Additionally, due to their size, many competitors may be able to achieve economies of scale and, as a result, may offer a broader range of products and services as well as better pricing for those products and services than the Company offers. Also, technology and other changes are allowing parties to complete financial transactions that historically have involved banks through alternative methods. The process of eliminating banks as intermediaries could result in the loss of fee income, as well as the loss of customer deposits and the related income generated from those deposits. The loss of revenue streams and the reduction of lower cost deposits as a source of funds could have a material adverse affect on the Company's financial condition and results of operations.

The Company relies, in part, on external financing to fund the Company's operations and the unavailability of such funds in the future could adversely impact the Company's growth strategy and prospects.

The Company relies on deposits, repurchase agreements, advances from the Federal Home Loan Bank ("FHLB") of Dallas and other borrowings to fund its operations. The subsidiary banks have also historically relied on certificates of deposit. While the Company has reduced its reliance on certificates of deposit and has been successful in promoting its transaction and non-transaction deposit products (demand deposit accounts, money market, savings and checking), jumbo deposits nevertheless constituted a large portion of total deposits at December 31, 2009. Jumbo deposits tend to be a more volatile source of funding. Although management has historically been able to replace such deposits on maturity if desired, no assurance can be given that the Company would be able to replace such funds at any given point in time.

The Company's business is subject to interest rate risk and variations in interest rates may negatively affect the Company's financial performance.

The Company is unable to predict fluctuations of market interest rates, which are affected by many factors, including:

- Inflation;
- Recession;
- A rise in unemployment;
- Tightening of the money supply; and
- Domestic and international disorder and instability in domestic and foreign financial markets.

Changes in the interest rate environment may reduce the Company's profits. The Company expects that the bank subsidiaries will continue to realize income from the differential or "spread" between the

Table of Contents

interest earned on loans, securities and other interest-earning assets, and the interest paid on deposits, borrowings and other interest-bearing liabilities. Net interest spreads are affected by the difference between the maturities and repricing characteristics of interest-earning assets and interest-bearing liabilities. Earnings could be adversely affected if the net interest spreads are reduced.

The Company is subject to extensive regulation which could adversely affect the Company including changes in U.S.—Mexico trade and travel along the Texas border.

The Company's operations are subject to extensive regulation by federal, state and local governmental authorities and are subject to various laws and judicial and administrative decisions imposing requirements and restrictions on part or all of the Company's operations. Because the Company's business is highly regulated, the laws, rules and regulations applicable to the Company are subject to regular modification and change. There can be no assurance that there will be no laws, rules or regulations adopted in the future, which could make compliance more difficult or expensive, or otherwise adversely affect the Company's business, financial condition or prospects. The U.S. President's administration has proposed major changes to the banking and financial institutions regulatory structures in the near future and legislation to implement these changes is pending in the U.S. House of Representatives and the U.S. Senate. These proposed reforms and other changes to statutes, regulations or regulatory policies, including changes in the interpretation or implementation of statutes, regulations or policies, could affect the Company in substantial and unpredictable ways. Such changes could subject the Company to additional costs, limit the types of financial services and products the Company may offer and/or increase the ability of non-banks to offer competing financial services and products, among other things. Failure to comply with laws, regulations or policies could result in sanctions by regulatory agencies, civil money penalties and/or reputation damage, which could have a material adverse effect on the Company's business, financial condition and results of operations. Additionally, any reductions in border crossings and commerce resulting from the Homeland Security Programs called "US-VISIT," which is derived from Section 110 of the Illegal Immigration Reform and Immigration Responsibility Act of 1996 could affect the Company negatively, and any possible negative consequences from an adverse immigration law could also have a negative effect on the Company's operations.

The effects of the proceedings pending with the Internal Revenue Service regarding the Company's lease financing transactions could adversely affect the Company.

The Company was involved in lawsuits with the IRS relating to two lease-financing transactions that the Company entered into through two subsidiary partnerships. In 2006, the trial court rendered a judgment against the Company on one of the lawsuits, which judgment was affirmed by the appellate court in the third quarter of 2007 and became non-appealable in the third quarter of 2007. Subsequently, the Company settled the second case, and conceded the entire amount in dispute. The Company has expensed approximately \$25,700,000 in connection with the lawsuits, which amount is the total of tax adjustments due and the interest due on such adjustments for both lawsuits. Management continues to evaluate the correspondence with the IRS on the Final Partnership Administrative Adjustments and make any appropriate revisions to the expensed amount as deemed necessary. The inability of the Company to satisfactorily resolve the tax adjustments with the IRS could negatively impact the results of operations of the Company.

The Company's potential future acquisitions could be adversely affected by a number of factors.

Acquisitions of other financial institutions have been a key element of the Company's growth. There are a number of factors that may impact the ability of the Company to continue to grow through acquisition transactions, including strong competition from other financial institutions who are active or potential acquirers of financial institutions in the existing or future markets of the Company.

Table of Contents

Acquisitions of other financial institutions must be approved by bank regulators and such approvals are dependent on many factors, including the results of regulatory examinations. The inability to receive regulatory approvals for proposed acquisitions could adversely affect the future growth and prospects of the Company.

The Company relies heavily on its chief executive officer.

The Company has experienced substantial growth in assets and deposits during the past, particularly since Dennis E. Nixon became our President in 1979. Although Mr. Nixon is the chief executive officer and one of the Company's substantial shareholders, the Company does not have an employment agreement with Mr. Nixon and the loss of his services could have a material adverse effect on the Company's business and prospects.

System failure or breaches of our network security could subject us to increased operating costs as well as litigation and other liabilities.

The computer systems and network infrastructure our Company uses could be vulnerable to unforeseen problems. Our operations are dependent upon our ability to protect our computer equipment against damage from fire, power loss, telecommunications failure or a similar catastrophic event. Any damage or failure that causes an interruption in our operations could have an adverse effect on our customers. In addition, we must be able to protect the computer systems and network infrastructure utilized by us against physical damage, security breaches and service disruption caused by the Internet or other users. Such computer break-ins and other disruptions would jeopardize the security of information stored in and transmitted through our computer systems and network infrastructure, which may result in significant liability to us. While the Company conducts its own data processing, it is reliant on certain external vendors to provide products and services necessary to maintain day-to-day operations of the Company. Accordingly, the Company's operations are exposed to risks that these vendors will not perform in accordance with contracted arrangements and in a manner that adequately protects the operations of the Company.

The Company may desire or need to raise additional capital in the future, and such capital may not be available when needed or at all.

The Company may desire or need to raise additional capital in the future to provide it with sufficient capital resources and liquidity to meet its commitments and business needs, particularly if its asset quality or earnings were to deteriorate significantly. The Company's ability to raise additional capital, if needed, will depend on, among other things, conditions in the capital markets at that time, which are outside of its control, and the Company's financial performance. The Company cannot assure that such capital will be available on acceptable terms or at all. If the Company needs to raise capital in the future, it may have to do so when many other financial institutions are also seeking to raise capital and would have to compete with those institutions for investor. An inability to raise additional capital on acceptable terms when needed could have a materially adverse effect on the Company's businesses, financial condition and results of operations.

Severe weather, natural disasters, acts of war or terrorism and other external events could significantly impact the Company's business.

Severe weather, natural disasters, acts of war or terrorism and other adverse external events could have a significant impact on the Company's ability to conduct business. In addition, such events could affect the stability of the Company's deposit base, impair the ability of borrowers to repay outstanding loans, impair the value of collateral securing loans, cause significant property damage, result in loss of revenue and cause the Company to incur additional expenses. Although management has established disaster recovery policies and procedures, the occurrence of any such event in the future could have a material adverse effect on the Company's business.

An impairment in the carrying value of our goodwill could negatively impact our earnings and capital.

Goodwill is initially recorded at fair value and is not amortized, but is reviewed for impairment at least annually or more frequently if events or changes in circumstances indicate that the carrying value may not be recoverable. Given the current economic environment and conditions in the financial markets, we could be required to evaluate the recoverability of goodwill prior to our normal annual assessment if we experience disruption in our business, unexpected significant declines in our operating results, or sustained market capitalization declines. These types of events and the resulting analyses could result in goodwill impairment charges in the future, which would be recorded as charges against earnings. The decrease in earnings resulting from impairment charges could also negatively impact other performance measures; however, for regulatory purposes, goodwill is eliminated in calculating the Company's regulatory ratios such as its regulatory capital ratios. We performed an annual goodwill impairment assessment as of September 30, 2009. Based on our analyses, we concluded that the fair value of our reporting units exceeded the carrying value of our assets and liabilities and, therefore, goodwill was not considered impaired.

Risks Related to the Company's Industry

Changes in economic and political conditions could adversely affect the Company's earnings, as our borrowers' ability to repay loans and the value of the collateral securing our loans decline.

The Company's success depends, to a certain extent, upon economic and political conditions, local, national and international with respect to Mexico, as well as governmental monetary policies. Conditions such as inflation, recession, unemployment, changes in interest rates, changes in capital markets, money supply, political issues, legislative and regulatory changes and other factors beyond the Company's control may adversely affect the Company's asset quality, deposit levels and loan demand and, therefore, the Company's earnings. The Company is particularly affected by conditions in its primary market areas of South, Central and Southeast Texas, including Austin and Houston, and the State of Oklahoma. If the weakened economic conditions in the Company's primary market areas worsen or fail to improve, the Company could experience an increase in loan delinquencies and non-performing assets, decreases in loan collateral values and a decrease in demand for the Company's products and services, any of which could have a material adverse impact on the Company's financial condition and results of operations.

The Company depends on the accuracy and completeness of information about customers and counterparties.

In deciding whether to extend credit or enter into other transactions, the Company may rely on information furnished by or on behalf of customers and counterparties, including financial statements, credit reports and other financial information. The Company may also rely on representations of those customers, counterparties or other third parties, such as independent auditors, as to the accuracy and completeness of that information. Reliance on inaccurate or misleading financial statements, credit reports or other financial information could have a material adverse impact on the Company's business and, in turn, the Company's financial condition and results of operations.

If the Company does not adjust to rapid changes in the financial services industry, its financial performance may suffer.

The Company's ability to deliver strong financial performance and returns on investment to shareholders will depend in part on its ability to expand the scope of available financial services to meet the needs and demands of its customers and its ability to stay abreast of technological innovations and evaluate those technologies that will enable it to compete on a cost-effective basis.

In addition to the challenge of competing against other banks in attracting and retaining customers for traditional banking services, the Company's competitors also include securities dealers, brokers,

Table of Contents

mortgage bankers, investment advisors, specialty finance and insurance companies who seek to offer one-stop financial services that may include services that banks have not been able or allowed to offer to their customers in the past. The increasingly competitive environment is primarily a result of changes in regulation, changes in technology and product delivery systems and the accelerating pace of consolidation among financial service providers. Such changes in the financial industry may result in the loss of fee income, as well as the loss of customer deposits and the related income generated from those deposits. The loss of these revenue streams and the lower cost deposits as a source of funds could have a material adverse effect on the Company's financial condition and results of operations.

Further, the costs of new technology, including personnel, can be high in both absolute and relative terms. There can be no assurance, given the fast pace of change and innovation, that the Company's technology, either purchased or developed internally, will meet or continue to meet the needs of the Company and the needs of our customers.

Risks Related to the Company's Stock

The Company's stock price may be volatile.

Several factors could cause the Company's stock price to fluctuate substantially in the future. These factors include among other things:

- Actual or anticipated variations in earnings;
- Recommendations by securities analysts;
- The Company's announcements of developments related to its businesses;
- Operating and stock performance of other companies deemed to be peers;
- New technology used or services offered by traditional and non-traditional competitors;
- Continued low trading volume in the Company's stock;
- The volatile impact of short selling activity in the Company's stock;
- News reports of trends, concerns and other issues related to the financial services industry; and
- Changes in the Company's ability to pay dividends;
- Changes in government regulations.

The Company's stock price may fluctuate significantly in the future, and these fluctuations may be unrelated to the Company's performance. General market price declines or market volatility in the future could adversely affect the price of its common stock, and the current market price may not be indicative of future market prices.

The holders of our junior subordinated debentures have rights that are senior to those of our shareholders.

As of December 31, 2009, we had \$201 million in junior subordinated debentures outstanding that were issued to our statutory trusts. The trusts purchased the junior subordinated debentures from us using the proceeds from the sale of trust preferred securities to third party investors. Payments of the principal and interest on the trust preferred securities are conditionally guaranteed by us to the extent not paid or made by each trust, provided the trust has funds available for such obligations.

The junior subordinated debentures are senior to our shares of common stock and the Senior Preferred Stock. As a result, we must make payments on the junior subordinated debentures (and the related trust preferred securities) before any dividends can be paid on our common stock or preferred stock and, in the event of our bankruptcy, dissolution or liquidation, the holders of the debentures must be satisfied before any distributions can be made to our shareholders. If certain conditions are

Table of Contents

met, we have the right to defer interest payments on the junior subordinated debentures (and the related trust preferred securities) at any time or from time to time for a period not to exceed 10 consecutive semi-annual periods on one of the trusts and up to 20 consecutive quarters in a deferral period on the other seven trusts, during which time no dividends may be paid to holders of our common stock or preferred stock.

Risks Related to Participation in the CPP

We may be adversely affected by our participation in the CPP.

In connection with our sale of Senior Preferred Stock to the Treasury Department under the Capital Purchase Program, the Company also issued to the Treasury Department a warrant to purchase 1,326,238 shares of our common stock. The terms of the transaction with the Treasury will result in limitations on our ability to pay dividends and repurchase our shares. Until December 23, 2011 or until Treasury no longer holds any shares of the Series A Preferred Stock, the Company will not be able to increase cash dividends above current levels (\$.33 per share of common stock on a semi-annual basis). In addition, we will not be able to pay any dividends at all on our common stock unless we are current on our dividend payments on the Senior Preferred Stock. These restrictions, as well as the dilutive impact of the warrant, may have a negative effect on the market price of our common stock.

Unless the Company is able to redeem the Senior Preferred Stock prior to February 15, 2014, the cost of this capital will increase substantially on that date, from 5.00% on the liquidation preference of \$1,000 per share of Senior Preferred Stock (approximately \$10,800,000 million annually) to 9.00% on the liquidation preference of \$1,000 per share of Senior Preferred Stock (approximately \$19,440,000 million annually). Depending on our financial condition at the time, this increase in dividends on the Series A Preferred Stock could have a negative effect on our liquidity.

The terms of the Securities Purchase Agreement in which we entered into with Treasury pursuant to the CPP provides that the Treasury may unilaterally amend any provision of the Purchase Agreement to the extent required to comply with any changes in applicable federal law that may occur in the future. We have no assurances that changes in applicable law affecting the Purchase Agreement will not occur in the future. Such changes may place restrictions on our business or results of operations, which may adversely affect the market price of our common stock.

The programs established or to be established under the EESA and Capital Purchase Program may have adverse effects upon the Company. The Company may face increased regulation of the financial services industry. Compliance with such regulation may increase the Company's costs and limit its ability to pursue business opportunities. The affects of additional CPP related legislation and regulatory programs on the Company cannot reliably be determined at this time.

You may not receive dividends on the common stock.

Holders of our common stock are entitled to receive dividends only when, as and if declared by our Board of Directors. Although we have historically declared cash dividends on our common stock, we are not required to do so and our Board of Directors may reduce or eliminate our common stock dividend in the future. Further, the terms of the Senior Preferred Stock limit our payment of dividends on common stock, as described above. This could adversely affect the market price of our common stock.

We may experience increases in the cost of compensation programs

In addition, pursuant to the Securities Purchase Agreement we adopted Treasury's standards for executive compensation for the period during which the Treasury holds the equity issued pursuant to the Securities Purchase Agreement, including the common stock that may be issued pursuant to the

Table of Contents

warrant. These standards include an agreement not to deduct for tax purposes executive compensation in excess of \$500,000 for each applicable senior executive. This change to the deductibility limit on executive compensation increased the costs of our compensation programs for the year ended December 31, 2009 and will likely increase the overall cost of our compensation programs in future periods during with the Company is a TARP participant.

We may lose members of our management team due to compensation restrictions.

The Company's ability to retain key officers and employees may be negatively impacted by recent legislation and regulation affecting the financial services industry. On February 17, 2009, the American Recovery and Reinvestment Act of 2009 (the "ARRA") was signed into law and the related rules of the Treasury Department were adopted on June 15, 2009. The ARRA, among other things, significantly expands the executive compensation restrictions previously imposed by the Emergency Economic Stabilization Act of 2008. Such restrictions apply to any entity that has received or will receive funds under the TARP Capital Purchase Program, and shall generally continue to apply for as long as any of the preferred stock issued under the Capital Purchase Program remains outstanding and held by the Treasury Department. As a result of our participation in the TARP Capital Purchase Program, the restrictions and standards set forth in the ARRA shall be applicable to the Company, subject to regulations promulgated by the U.S. Treasury. Such restrictions and standards may further impact management's ability to retain key officers and employees as well as the Company's ability to compete with financial institutions that are not subject to the same limitations as the Company under the ARRA.

Item 1B. *Unresolved Staff Comments*

N/A

Item 2. *Properties*

The principal offices of the Company and IBC are located at 1200 San Bernardo Avenue, Laredo, Texas and 2418 Jacaman Road, Laredo, Texas in buildings owned and completely occupied by the Company and IBC and containing approximately 147,000 square feet. The bank subsidiaries of IBC have 280 main banking and branch facilities. All the facilities are customary to the banking industry. The bank subsidiaries own most of their banking facilities and the remainder are leased. The facilities are located in the regions of Laredo, San Antonio, Houston, Zapata, Eagle Pass, the Rio Grande Valley of Texas, the Coastal Bend area of Texas, and throughout the State of Oklahoma.

As Texas state-chartered banks, no bank subsidiary of the Company may, without the prior written consent of the Banking Commissioner, invest an amount in excess of its Tier 1 capital in bank facilities, furniture, fixtures and equipment. None of the Company's bank subsidiaries exceeds such limitation.

Item 3. *Legal Proceedings*

The Company and its bank subsidiaries are involved in various legal proceedings that are in various stages of litigation. Some of these actions allege "lender liability" claims on a variety of theories and claim substantial actual and punitive damages. The Company and its subsidiaries have determined, based on discussions with their counsel that any material loss in such actions, individually or in the aggregate, is remote or the damages sought, even if fully recovered, would not be considered material to the consolidated financial position or results of operations of the Company and its subsidiaries. However, many of these matters are in various stages of proceedings and further developments could cause management to revise its assessment of these matters. Further information regarding legal proceedings has been provided in Note 18 of the Notes to consolidated financial statements located on page 67 of the 2009 Annual Report to Shareholders which is incorporated herein by reference.

Item 4A. *Executive Officers of the Registrant*

Certain information is set forth in the following table concerning the executive officers of the Company, each of whom has been elected to serve until the 2010 Annual Meeting of Shareholders and until his successor is duly elected and qualified.

<u>Name</u>	<u>Age</u>	<u>Position of Office</u>	<u>Officer of the Company Since</u>
Dennis E. Nixon	67	Chairman of the Board of the Company since 1992 and President of the Company since 1979, Chief Executive Officer and Director of IBC	1979
R. David Guerra	57	Vice President of the Company since 1986 and President of IBC McAllen Branch and Director of IBC	1986
Imelda Navarro	52	Treasurer of the Company since 1982 and Senior Executive Vice President of IBC and Director of IBC since 2002	1982

There are no family relationships among any of the named persons. Each executive officer has held the same position or another executive position with the Company during the past five years.

None.

Item 9A. *Controls and Procedures*

As of the end of the period covered by this Annual Report on Form 10-K, an evaluation was carried out by the management of International Bancshares Corporation, (the "Corporation") with the participation of its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Corporation's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective as of the end of the period covered by this report. Additionally, there were no changes in the Corporation's internal control over financial reporting that occurred during the quarter ended December 31, 2009 that have materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

The management of the Company is responsible for establishing and maintaining adequate internal controls over financial reporting, as defined under Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934. The Company's internal control over financial reporting is a process designed under the supervision of the Company's Chief Executive Officer and Chief Financial Officer to provide

Table of Contents

reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements for external purposes in accordance with generally accepted accounting principles.

As of December 31, 2009, management assessed the effectiveness of the design and operation of the Company's internal controls over financial reporting based on the criteria for effective internal control over financial reporting established in "Internal Control—Integrated Framework," issued by the Committee of Sponsoring Organizations (COSO) of the Treadway Commission. Based on the assessment, management determined that the Company maintained effective internal control over financial reporting as of December 31, 2009, based on those criteria.

McGladrey & Pullen, LLP, the independent registered public accounting firm that audited the 2009 consolidated financial statements of the Company included in this Annual Report on Form 10-K, has audited the effectiveness of the Company's internal control over financial reporting as of December 31, 2009. Their report, which expresses an unqualified opinion, on the effectiveness of the Company's internal control over financial reporting as of December 31, 2009 is included in this Item under the heading "Report of Independent Registered Public Accounting Firm."

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
International Bancshares Corporation:

We have audited International Bancshares Corporation and subsidiaries' (the "Company") internal control over financial reporting as of December 31, 2009, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control, based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, International Bancshares Corporation and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements of International Bancshares Corporation and subsidiaries as of and for the years ended December 31, 2009, and our report dated March 1, 2010 expressed an unqualified opinion on those consolidated financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's discussion and analysis represents an explanation of significant changes in the financial position and results of operations of International Bancshares Corporation and subsidiaries (the "Company" or the "Corporation") on a consolidated basis for the three-year period ended December 31, 2009. The following discussion should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2009, and the Selected Financial Data and Consolidated Financial Statements included elsewhere herein.

Special Cautionary Notice Regarding Forward Looking Information

Certain matters discussed in this report, excluding historical information, include forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and are subject to the safe harbor created by these sections. Although the Company believes such forward-looking statements are based on reasonable assumptions, no assurance can be given that every objective will be reached. The words "estimate," "expect," "intend," "believe" and "project," as well as other words or expressions of a similar meaning are intended to identify forward-looking statements. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date of this report. Such statements are based on current expectations, are inherently uncertain, are subject to risks and should be viewed with caution. Actual results and experience may differ materially from the forward-looking statements as a result of many factors.

Risk factors that could cause actual results to differ materially from any results that are projected, forecasted, estimated or budgeted by the Company in forward-looking statements include, among others, the following possibilities:

- Local, regional, national and international economic business conditions and the impact they may have on the Company, the Company's customers, and such customers' ability to transact profitable business with the Company, including the ability of its borrowers to repay their loans according to their terms or a change in the value of the related collateral.
- Volatility and disruption in national and international financial markets.
- Government intervention in the U.S. financial system.
- Changes in consumer spending, borrowings and savings habits.
- Changes in interest rates and market prices, which could reduce the Company's net interest margins, asset valuations and expense expectations.
- Changes in the capital markets utilized by the Company and its subsidiaries, including changes in the interest rate environment that may reduce margins.
- Changes in state and/or federal laws and regulations to which the Company and its subsidiaries, as well as their customers, competitors and potential competitors, are subject, including, without limitation, changes in the accounting, tax and regulatory treatment of trust preferred securities, as well as changes in banking, tax, securities, insurance and employment laws and regulations.
- Changes in U.S.—Mexico trade, including, without limitation, reductions in border crossings and commerce resulting from the Homeland Security Programs called "US-VISIT," which is derived from Section 110 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996.
- The loss of senior management or operating personnel.
- Increased competition from both within and outside the banking industry.

- The timing, impact and other uncertainties of the Company's potential future acquisitions including the Company's ability to identify suitable potential future acquisition candidates, the success or failure in the integration of their operations and the Company's ability to maintain its current branch network and to enter new markets successfully and capitalize on growth opportunities.
- Changes in the Company's ability to pay dividends on its Preferred Stock or Common Stock.
- The effects of the proceedings pending with the Internal Revenue Service regarding the Company's lease financing transactions.
- Additions to the Company's loan loss allowance as a result of changes in local, national or international conditions which adversely affect the Company's customers.
- Greater than expected costs or difficulties related to the development and integration of new products and lines of business.
- Changes in the soundness of other financial institutions with which the Company interacts.
- Political instability in the United States and Mexico.
- Technological changes.
- Acts of war or terrorism.
- Natural disasters.
- Reduced earnings resulting from the write down of the carrying value of securities held in our securities available-for-sale portfolio following a determination that the securities are other-than-temporarily impaired.
- The effect of changes in accounting policies and practices as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board and other accounting standards setters.
- The costs and effects of regulatory developments, including the resolution of regulatory or other governmental inquiries and the results of regulatory examinations or reviews.
- The effect of final rules amending Regulation E that prohibit financial institutions from charging consumer fees for paying overdrafts on ATM and on-time debit card transactions, unless the consumer consents or opts-in to the overdraft service for those types of transactions.
- The Company's success at managing the risks involved in the foregoing items.

Forward-looking statements speak only as of the date on which such statements are made. It is not possible to foresee or identify all such factors. The Company makes no commitment to update any forward-looking statement, or to disclose any facts, events or circumstances after the date hereof that may affect the accuracy of any forward-looking statement, unless required by law.

Recent Developments

On December 23, 2008, as part of the TARP Capital Purchase Program, the Company entered into a Letter Agreement incorporating an attached Securities Purchase Agreement Standard Terms (collectively the "Securities Purchase Agreement") with the Treasury. The closing of the transactions contemplated in the Securities Purchase Agreement occurred on December 23, 2008.

Under the Securities Purchase Agreement, the Company sold 216,000 shares of the Company's fixed-rate cumulative perpetual preferred stock, Series A, par value \$.01 per share (the "Senior Preferred Stock"), having a liquidation preference of \$1,000 per share, for a total price of \$216,000,000. The Senior Preferred Stock will pay dividends at the rate of 5% per year for the first five years and 9% per year

thereafter. The Senior Preferred Stock has no maturity date and ranks senior to the Company's common stock with respect to the payment of dividends and distributions and amounts payable upon liquidation, dissolution and winding up of the Company. The Senior Preferred Stock generally is non-voting except for class voting rights on matters that would adversely affect the rights of the holders of the Senior Preferred Stock. To date, the Company has not redeemed any of the Senior Preferred Stock.

Overview

The Company, which is headquartered in Laredo, Texas, with 280 facilities and more than 435 ATMs, provides banking services for commercial, consumer and international customers of South, Central and Southeast Texas and the State of Oklahoma. The Company is one of the largest independent commercial bank holding companies headquartered in Texas. The Company, through its bank subsidiaries, is in the business of gathering funds from various sources and investing those funds in order to earn a return. The Company either directly or through a bank subsidiary owns two insurance agencies, a liquidating subsidiary, a broker/dealer and a fifty percent interest in an investment banking unit that owns a broker/dealer. The Company's primary earnings come from the spread between the interest earned on interest-bearing assets and the interest paid on interest-bearing liabilities. In addition, the Company generates income from fees on products offered to commercial, consumer and international customers.

A primary goal of the Company is to grow net interest income and non-interest income while adequately managing credit risk, interest rate risk and expenses. Effective management of capital is a critical objective of the Company. A key measure of the performance of a banking institution is the return on average common equity ("ROE"). The Company's ROE for the year ended December 31, 2009 was 11.10% as compared to 13.34% for the year ended December 31, 2008.

The Company is very active in facilitating trade along the United States border with Mexico. The Company does a large amount of business with customers domiciled in Mexico. Deposits from persons and entities domiciled in Mexico comprise a large and stable portion of the deposit base of the Company's bank subsidiaries. The Company also serves the growing Hispanic population through the Company's facilities located throughout South, Central and Southeast Texas and the State of Oklahoma.

Expense control is an essential element in the Company's long-term profitability. As a result, the Company monitors the efficiency ratio, which is a measure of non-interest expense to net interest income plus non-interest income closely. The Company's efficiency ratio has been negatively impacted over the last few years because of the Company's aggressive branch expansion which has added a total of 34 branches during 2008 and 2009. During rapid expansion periods, the Company's efficiency ratio will suffer but the long-term benefits of the expansion should be realized in future periods and the benefits should positively impact the efficiency ratio in future periods. The Company monitors this ratio over time to assess the Company's efficiency relative to its peers taking into account the Company's branch expansion. The Company uses this measure as one factor in determining if the Company is accomplishing its long-term goals of providing superior returns to the Company's shareholders.

Results of Operations

Net Income

Net income for the year ended December 31, 2009 increased by 8.0% compared to the same period in 2008 despite the \$25.4 million, after tax, increase in the provision for probable loan losses charged to expense during 2009. Additionally, an industry-wide FDIC special assessment negatively impacted the Company's earnings by \$3.3 million, after tax in the second quarter. The increase in the provision was prompted by management's analysis of the general weakness in the economy and the impact of that weakness on the Company's loan portfolio and the related allowance for probable loan losses. Additionally, net income for 2009 was positively affected by the increasing net interest margin of the Company. While the Texas and Oklahoma economies are performing better than other parts of the country, Texas and Oklahoma are not immune to the problems associated with the U.S. economy. The substantial increase in the provision for probable loan losses is not necessarily an indicator that more credits will worsen to the point that the Company will have to continue to record provisions for probable loan losses at these levels in future periods.

Net income for the year ended December 31, 2008 was also negatively impacted by increases in the provision for probable loan losses charged to expense. Net income for the year ended December 31, 2007

was positively affected by the credit for probable loan losses recorded in 2007. Net income for the year ended December 31, 2007 was negatively impacted by an impairment charge of \$13.1 million, after tax, on certain investments. A significant portion of the impairment charge was the result of the Company's strategic sale of certain investment securities in the second quarter of 2007 with the proceeds from the sales used to reduce Federal Home Loan Bank ("FHLB") borrowings. Net income for the same period was positively affected by the sale of the securities, which generated gains of \$1.5 million, after tax. The investments sold were certain hybrid mortgage-backed securities with a coupon re-set date that exceeded 30 months and a weighted average yield to coupon re-set that was approximately 100 basis points less than the FHLB certificate of indebtedness short-term rate. The sale of the securities facilitated a re-positioning of the balance sheet to a more neutral position in terms of interest rate risk and also improved operating ratios.

Net Interest Income

Net interest income is the spread between income on interest-earning assets, such as loans and securities, and the interest expense on liabilities used to fund those assets, such as deposits, repurchase agreements and funds borrowed. Net interest income is the Company's largest source of revenue. Net interest income is affected by both changes in the level of interest rates and changes in the amount and composition of interest-earning assets and interest-bearing liabilities.

	For the years ended December 31,		
	2009	2008	2007
	Average	Average	Average
	Rate/Cost	Rate/Cost	Rate/Cost
<i>Assets</i>			
Interest earning assets:			
Loan, net of unearned discounts:			
Domestic	5.88%	6.60%	8.58%
Foreign	4.96	6.03	7.43
Investment securities:			
Taxable	4.34	4.59	4.69
Tax-exempt	4.87	4.87	4.89
Federal funds sold	—	1.75	4.96
Other	.87	4.99	5.81
Total interest-earning assets	5.17%	5.70%	6.82%
<i>Liabilities</i>			
Interest bearing liabilities:			
Savings and interest bearing demand deposits	.51%	1.17%	2.31%
Time deposits:			
Domestic	1.96	3.25	4.32
Foreign	1.78	3.11	4.28
Securities sold under repurchase agreements	3.06	3.51	4.46
Other borrowings	.57	2.44	5.15
Junior subordinated deferrable interest debentures	6.23	7.03	8.06
Total interest bearing liabilities	1.59%	2.67%	4.01%

For the three years ended December 31, 2009, as short term interest rates have fluctuated, the Company has monitored and adjusted interest rates on loans and deposits accordingly. The level of interest rates and the volume and mix of earning assets and interest-bearing liabilities impact net income and net interest margin. The yield on average interest-earning assets decreased 9.3% from 5.70% in 2008 to 5.17% in 2009, and the rates paid on average interest-bearing liabilities decreased 40.4% from 2.67% in 2008 to 1.59% in 2009. The yield on average interest-earning assets decreased 16.4% from 6.82% in 2007 to 5.70% in 2008, and the rates paid on average interest-bearing liabilities decreased 33.4% from 4.01% in 2007 to 2.67% in 2008. The majority of the Company's taxable investment securities are invested in mortgage backed securities and during rapid increases or reduction in interest rates, the yield on these securities do not re-price as quickly as the loans.

The following table analyzes the changes in net interest income during 2009 and 2008 and the relative effect of changes in interest rates and volumes for each major classification of interest-earning assets and interest-bearing liabilities. Non-accrual loans have been included in assets for the purpose of this analysis, which reduces the resulting yields:

	2009 compared to 2008			2008 compared to 2007

(Note 1) The change in interest due to both rate and volume has been allocated to volume and rate changes in proportion to the relationship of the absolute dollar amounts of the change in each.

As part of the strategy to manage interest rate risk, the Company strives to manage both assets and liabilities so that interest sensitivities match. One method of calculating interest rate sensitivity is through

gap analysis. A gap is the difference between the amount of interest rate sensitive assets and interest rate sensitive liabilities that re-price or mature in a given time period. Positive gaps occur when interest rate sensitive assets exceed interest rate sensitive liabilities, and negative gaps occur when interest rate sensitive liabilities exceed interest rate sensitive assets. A positive gap position in a period of rising interest rates should have a positive effect on net interest income as assets will re-price faster than liabilities. Conversely, net interest income should contract somewhat in a period of falling interest rates. Management can quickly change the Company's interest rate position at any given point in time as market conditions dictate. Additionally, interest rate changes do not affect all categories of assets and liabilities equally or at the same time. Analytical techniques employed by the Company to supplement gap analysis include simulation analysis to quantify interest rate risk exposure. The gap analysis prepared by management is reviewed by the Investment Committee of the Company twice a year. The Investment Committee is comprised of certain senior managers of the various Company bank subsidiaries along with consultants. Management currently believes that the Company is properly positioned for interest rate changes; however, if management determines at any time that the Company is not properly positioned, it will strive to adjust the interest rate sensitive assets and liabilities in order to manage the effect of interest rate changes.

At December 31, 2009, based on these simulations, a rate shift of 300 basis points in interest rates up will vary net interest income by 1.89%, while a rate shift of 100 basis points down will not vary net interest income by more than .18% of projected 2010 net interest income. The basis point shift in interest rates is a hypothetical rate scenario used to calibrate risk, and does not necessarily represent management's current view of future market developments. The Company believes that it is properly positioned for a potential interest rate increase or decrease.

Allowance for Probable Loan Loss

The following table presents information concerning the aggregate amount of non-accrual, past due and restructured domestic loans; certain loans may be classified in one or more categories:

	December 31,				
	2009	2008	2007	2006	2005
	(Dollars in Thousands)				
Loans accounted for on a non-accrual basis	\$ 68,314	\$ 163,700	\$ 32,900	\$ 13,490	\$ 17,129
Accruing loans contractually past due ninety days or more as to interest or principal payments	11,986	6,208	21,330	9,201	5,478
Loans accounted for as "troubled debt restructuring"	—	—	—	—	—

The allowance for probable loan losses increased 29.9% to \$95,393,000 at December 31, 2009 from \$73,461,000 at December 31, 2008. The provision for probable loan losses charged to expense increased \$39,020,000 to \$58,833,000 for the year ended December 31, 2009 from \$19,813,000 for the same period in 2008. The Company's provision for probable loan losses increased for the years ended December 31, 2009 and 2008, prompted by the analysis of management regarding the weakness in the overall economy and the impact of that weakness on the Company's loan portfolio and the related allowance for probable loan losses. While the Texas and Oklahoma economies are performing better than other parts of the country, Texas and Oklahoma are not immune to the problems associated with the U.S. economy. The decrease in the allowance for probable loan losses for the year ended December 31, 2007, can be partially attributed to the charge off of loans acquired as part of the LFIN acquisition. The allowance for probable loan losses was 1.68% of total loans, net of unearned income at December 31, 2009 and 1.25% at December 31, 2008.

The following table presents information concerning the aggregate amount of non-accrual and past due foreign loans extended to persons or entities in foreign countries. Certain loans may be classified in one or more category:

	December 31,				
	2009	2008	2007	2006	2005
	(Dollars in Thousands)				
Loans accounted for on a non-accrual basis	\$ 24	\$ 530	\$ 722	\$ 4,298	\$ 12,946
Accruing loans contractually past due ninety days or more as to interest or principal payments	103	66	510	199	608

The gross income that would have been recorded during 2009 and 2008 on non-accrual and restructured loans in accordance with their original contract terms was \$4,008,000 and \$6,148,000 on domestic loans and \$3,000 and \$94,000 on foreign loans, respectively. The amount of interest income on such loans that was recognized in 2009 and 2008 was \$547,000 and \$193,000 on domestic loans and \$0 and \$0 for foreign loans, respectively.

Generally, loans are placed on non-accrual status if principal or interest payments become 90 days past due and/or management deem the collectability of the principal and/or interest to be in question, as well as when required by applicable regulatory guidelines. Interest income on non-accrual loans is recognized only to the extent payments are received or when, in management's opinion, the creditor's financial condition warrants reestablishment of interest accruals. Under special circumstances, a loan may be more than 90 days delinquent as to interest or principal and not be placed on non-accrual status. This situation generally results when a bank subsidiary has a borrower who is experiencing financial difficulties, but not to the extent that requires a restructuring of indebtedness. The majority of this category is composed of loans that are considered to be adequately secured and/or for which there has been a recent history of payments. When a loan is placed on non-accrual status, any interest accrued, not paid is reversed and charged to operations against interest income.

Loan commitments, consisting of unused commitments to lend, letters of credit, credit card lines and other approved loans, that have not been funded, were \$1,349,516,000 and \$1,914,733,000 at December 31, 2009 and 2008, respectively. See Note 20 to the Consolidated Financial Statements.

The following table summarizes loan balances at the end of each year and average loans outstanding during the year; changes in the allowance for probable loan losses arising from loans charged-off and recoveries on loans previously charged-off by loan category; and additions to the allowance which have been charged to expense:

	2009	2008	2007	2006	2005
	(Dollars in Thousands)				
Loans, net of unearned discounts, outstanding at December 31	\$ 5,667,262	\$ 5,872,833	\$ 5,536,628	\$ 5,034,810	\$ 4,625,692
Average loans outstanding during the year (Note 1)	\$ 5,748,789	\$ 5,683,130	\$ 5,215,435	\$ 4,796,489	\$ 4,830,881

Allowance acquired in purchase transactions	—	—	1,054	—	—
Balance of allowance at December 31	\$ 95,393	\$ 73,461	\$ 61,726	\$ 64,537	\$ 77,796
Ratio of net loans charged-off during the year to average loans outstanding during the year (Note 1)	.64%	.14%	.04%	.36%	.09%
Ratio of allowance to loans, net of unearned discounts, outstanding at December 31	1.68%	1.25%	1.11%	1.28%	1.68%

(Note 1) The average balances for purposes of the above table are calculated on the basis of daily balances for 2009, 2008, 2007 and 2006 and month-end balances for the year ended 2005.

The allowance for probable loan losses has been allocated based on the amount management has deemed to be reasonably necessary to provide for the probable losses incurred within the following categories of loans at the dates indicated and the percentage of loans to total loans in each category:

	At December 31,									
	2009		2008		2007		2006		2005	
	Allowance	Percent of total	Allowance	Percent of total	Allowance	Percent of total	Allowance	Percent of total	Allowance	Percent of total
(Dollars in Thousands)										
Commercial, Financial and Agricultural	\$ 47,676	47.8%	\$ 33,737	43.8%	\$ 28,117	43.9%	\$ 28,158	46.5%	\$ 34,283	51.4%
Real estate—Mortgage	16,825	16.8	11,639	15.1	9,256	14.4	9,461	15.6	12,228	18.3
Real estate—Construction	27,918	27.9	25,058	32.6	21,277	33.2	16,914	27.9	13,007	19.5
Consumer	2,581	2.6	2,223	2.9	2,212	3.4	2,392	3.9	3,154	4.7
Foreign	393	4.9	804	5.6	864	5.1	7,612	6.1	15,124	6.1
	<u>\$ 95,393</u>	<u>100.0%</u>	<u>\$ 73,461</u>	<u>100.0%</u>	<u>\$ 61,726</u>	<u>100.0%</u>	<u>\$ 64,537</u>	<u>100.0%</u>	<u>\$ 77,796</u>	<u>100.0%</u>

The allowance for probable loan losses consists of the aggregate loan loss allowances of the bank subsidiaries. The allowances are established through charges to operations in the form of provisions for probable loan losses.

The bank subsidiaries charge off that portion of any loan which management considers to represent a loss as well as that portion of any other loan which is classified as a "loss" by bank examiners. Commercial, financial and agricultural or real estate loans are generally considered by management to represent a loss, in whole or part, (i) when an exposure beyond any collateral coverage is apparent, (ii) when no further collection of the portion of the loan so exposed is anticipated based on actual results, (iii) when the credit enhancements, if any, are not adequate, and (iv) when the borrower's financial condition would indicate so. Generally, unsecured consumer loans are charged off when 90 days past due.

The allowance for probable loan losses is a reserve established through a provision for probable loan losses charged to expense, which represents management's best estimate of probable loan losses within the existing portfolio of loans. The Company's allowance for probable loan loss methodology is based on guidance provided in Securities and Exchange Commission Staff Accounting Bulletin No. 102, "Selected Loan Loss Allowance Methodology and Documentation Issues" and includes allowance allocations calculated in accordance with ASC 310, "Receivables" and ASC 450, "Contingencies." The reserve allocated to all categories of loans increased approximately \$21.9 million from 2008 to 2009 and \$11.7 million from 2007 to 2008. The increase in the reserve occurred as the result of the deterioration of economic conditions in 2008 that continue in to occur in 2009. The reserve allocated to Commercial and Real Estate—Construction loans increased from 2007 to 2008 primarily due to increases in impaired loans in which a specified valuation allowance was determined in accordance with ASC 310-10. Please refer to Note 5—Allowance for Probable Loan Losses in the accompanying Notes to the consolidated Financial Statements.

While management of the Company considers that it is generally able to identify borrowers with financial problems reasonably early and to monitor credit extended to such borrowers carefully, there is no precise method of predicting loan losses. The determination that a loan is likely to be uncollectible and that it should be wholly or partially charged off as a loss is an exercise of judgment. Similarly, the determination of the adequacy of the allowance for probable loan losses can be made only on a subjective basis. It is the judgment of the Company's management that the allowance for probable loan losses at December 31, 2009 was adequate to absorb probable losses from loans in the portfolio at that date. See Critical Accounting Policies on page 24. Should any of the factors considered by management in evaluating the adequacy of the allowance for probable loan losses change, the Company's estimate of probable loan losses could also change, which could affect the level of future provisions for probable loan losses.

Non-Interest Income

	Year Ended December 31, 2009	Year Ended December 31, 2008	Percent Increase (Decrease) 2009 vs. 2008	Year Ended December 31, 2007	Percent Increase (Decrease) 2008 vs. 2007
			(Dollars in Thousands)		
Service charges on deposit accounts	\$ 99,642	\$ 98,466	1.2%	\$ 89,186	10.4%
Other service charges, commissions and fees					
Banking	42,861	40,543	5.7	34,897	16.2
Non-banking	12,697	7,592	67.2	18,675	(59.3)
Investment securities transactions, net	11,956	6,427	86.0	(15,938)	140.3
Other investments, net	19,773	15,183	30.2	19,821	(23.4)
Other income	14,084	21,598	(34.8)	18,722	15.4
Total non-interest income	<u>\$ 201,013</u>	<u>\$ 189,809</u>	<u>5.9%</u>	<u>\$ 165,363</u>	<u>14.8%</u>

The increase in investment securities transactions for the year ended December 31, 2009 can be attributed to the sale of investment securities resulting in a gain of \$12.0 million, before taxes. Non-banking service charges, commissions and fees 2009 was positively impacted by the results of a wholly owned insurance subsidiary of the Company's lead bank. During 2008, the Company sold certain equity securities resulting in a gain of \$6.2 million, before taxes. The loss in the investment securities transactions for the year ended December 31, 2007 can be attributed to a \$17.0 million impairment charge recorded in connection with certain investment securities identified for sale in the first quarter 2007 and the sale of certain equity investments. The impairment charge in 2007 was the result of the Company's strategic sale of certain investment securities with the proceeds from the sales used to reduce Federal Home Loan Bank ("FHLB") borrowings. The investments identified were certain hybrid mortgage backed securities with a coupon re-set date that exceeded 30 months and a weighted average yield to coupon re-set that was approximately 100 basis points less than the FHLB certificate of indebtedness short-term rate. The sale of the securities facilitated a re-positioning of the balance sheet to a more neutral position in terms of interest rate risk and was done to improve the Company's operating ratios. As a result of this decision, the Company marked the securities to market. The increase in banking service charges, commissions and fees for the year ended December 31, 2009 and 2008 can be attributed to increased surcharge and interchange income from customers using the IBC debit card and automated teller machines (ATM). The increase in service charges on deposit accounts can be attributed partially to the Company's sales programs and the additional accounts created as a result of those programs.

Non-Interest Expense

	Year Ended December 31, 2009	Year Ended December 31, 2008	Percent Increase (Decrease) 2009 vs. 2008	Year Ended December 31, 2007	Percent Increase (Decrease) 2008 vs. 2007
			(Dollars in Thousands)		
Employee compensation and benefits	\$ 130,849	\$ 129,084	1.4%	\$ 130,385	(1.0)%
Occupancy	35,374	38,315	(7.7)	33,583	14.1
Depreciation of bank premises and equipment	35,879	36,700	(2.2)	32,069	14.4
Professional fees	12,640	10,051	25.8	9,741	3.2

Advertising	9,149	13,189	(30.6)	11,973	10.2
Other	65,109	61,536	5.8	70,057	(12.2)
Total non-interest expense	<u>\$ 309,031</u>	<u>\$ 301,226</u>	<u>2.6%</u>	<u>\$ 300,282</u>	<u>0.3%</u>

Non-interest expense was affected by the aggressive de novo branching activity that has added 16 new branches in 2009 and 18 branches in 2008. As a result of the branch expansion, employee compensation increased due to staffing of these branches. Deposit insurance assessment expense for the twelve months ended December 31, 2009 was negatively impacted by the FDIC special assessment. In May 2009, the FDIC issued a final rule which levied a special assessment on all insured depository institutions totaling five basis points of each institution's total assets less Tier 1 capital as of June 30, 2009 that was collected on September 30, 2009. The special assessment is part of the FDIC's efforts to re-build the Deposit Insurance Fund ("DIF"). The Company accrued \$5.1 million related to the special assessment. In October 2009, the FDIC issued a final rule that financial institutions prepay their quarterly assessments for the next three years in an effort to shore up the DIF. The rule required banks to prepay their quarterly risk-based assessments for the fourth quarter of 2009, and all of 2010, 2011 and 2012 on December 30, 2009. The Company also paid additional fees related to its participation in the FDIC Temporary Liquidity Guaranty Program, which provides full FDIC deposit insurance coverage for non-interest bearing accounts through June 30, 2010 (extended from December 31, 2009). The fee assessment for such accounts was ten basis points per quarter in 2009 and increased to fifteen basis points per quarter in 2010 on amounts in covered accounts exceeding \$250,000.

Effects of Inflation

The principal component of earnings is net interest income, which is affected by changes in the level of interest rates. Changes in rates of inflation affect interest rates. It is difficult to precisely measure the impact of inflation on net interest income because it is not possible to accurately differentiate between increases in net interest income resulting from inflation and increases resulting from increased business activity. Inflation also raises costs of operations, primarily those of employment and services.

Financial Condition

Investment Securities

The following table sets forth the carrying value of investment securities as of December 31, 2009, 2008 and 2007:

	December 31,		
	2009	2008	2007
	(Dollars in Thousands)		
U.S. Treasury Securities			
Available for sale	\$ 1,327	\$ 1,319	\$ 1,308
Residential mortgage-backed securities			
Available for sale	4,491,764	4,974,317	4,066,829
Obligations of states and political subdivisions			
Available for sale	136,866	82,214	84,633
Equity securities			
Available for sale	14,126	14,030	13,500
Other securities			
Held to maturity	2,450	2,300	2,300
Available for sale	—	—	1,618
Total	<u>\$ 4,646,533</u>	<u>\$ 5,074,180</u>	<u>\$ 4,170,188</u>

The following tables set forth the contractual maturities of investment securities, based on amortized cost, at December 31, 2009 and the average yields of such securities, except for the totals, which reflect the weighted average yields. Actual maturities will differ from contractual maturities because borrowers may have the right to prepay obligations with or without prepayment penalties.

	Available for Sale Maturing

Total	<u>\$ 1,825</u>	1.45%	<u>\$ 625</u>	1.41%	<u>\$ —</u>	—%	<u>\$ —</u>	—%

Mortgage-backed securities are securities primarily issued by the Federal Home Loan Mortgage Corporation ("Freddie Mac"), Federal National Mortgage Association ("Fannie Mae"), and the Government National Mortgage Association ("Ginnie Mae"). Investments in mortgage-backed securities issued by Ginnie Mae are fully guaranteed by the U.S. Government. Investments in mortgage-backed securities issued by Freddie Mac and Fannie Mae are not fully guaranteed by the U.S. Government, but carry an implied AAA rating with limited credit risk, particularly given the placement of Fannie Mae and Freddie Mac into conservatorship by the federal government in early September 2008.

Loans

The amounts of loans outstanding, by classification, at December 31, 2009, 2008, 2007, 2006 and 2005 are shown in the following table:

	December 31,				
	2009	2008	2007	2006	2005
	(Dollars in Thousands)				
Commercial, financial and agricultural	\$ 2,703,379	\$ 2,574,247	\$ 2,426,064	\$ 2,337,573	\$ 2,376,276
Real estate—mortgage	954,010	888,095	798,708	785,401	847,512
Real estate—construction	1,583,057	1,911,954	1,835,950	1,404,186	901,518
Consumer	146,331	169,589	190,899	198,580	218,607
Foreign	<u>280,485</u>	<u>328,948</u>	<u>285,008</u>	<u>309,144</u>	<u>281,947</u>

Total	<u>\$ 254,032</u>	<u>\$ 2,901,800</u>

International Operations

On December 31, 2009, the Company had \$280,485,000 (2.4% of total assets) in loans outstanding to borrowers domiciled in foreign countries, which included primarily borrowers domiciled in Mexico. The loan policies of the Company's bank subsidiaries generally require that loans to borrowers domiciled in foreign countries be primarily secured by assets located in the United States or have credit enhancements, in the form of guarantees, from significant United States corporations. The composition of such loans and the related amounts of allocated allowance for probable loan losses as of December 31, 2009 is presented below.

	Amount of Loans	Related Allowance for Probable Losses
	(Dollars in Thousands)	
Secured by certificates of deposit in United States banks	\$ 178,336	\$ 89
Secured by United States real estate	31,481	70
Secured by other United States collateral (securities, gold, silver, etc.)	17,955	56
Direct unsecured Mexican sovereign debt (principally former FICORCA debt)	1,507	4
Other (principally Mexico real estate)	<u>51,206</u>	<u>174</u>
	<u>\$ 280,485</u>	<u>\$ 393</u>

The transactions for the year ended December 31, 2009, in that portion of the allowance for probable loan losses related to foreign debt were as follows:

	(Dollars in Thousands)
Balance at December 31, 2008	\$ 604
Charge-offs	(691)
Recoveries	<u>7</u>
Net recoveries	(684)
Provision charged to expense	<u>473</u>
Balance at December 31, 2009	<u>\$ 393</u>

Deposits

	2009	2008

Total interest expense on deposits	\$ 73,087	\$ 133,130	\$ 196,798

Scheduled maturities of time deposits in amounts of \$100,000 or more at December 31, 2009, were as follows:

Due within 3 months or less	\$	931,885
Due after 3 months and within 6 months		547,820
Due after 6 months and within 12 months		590,219
Due after 12 months		171,808
	\$	<u>2,241,732</u>

The Company offers a variety of deposit accounts having a wide range of interest rates and terms. The Company relies primarily on its high quality customer service, sales programs, customer referrals and advertising to attract and retain these deposits. Deposits provide the primary source of funding for the Company's lending and investment activities, and the interest paid for deposits must be managed carefully to control the level of interest expense. Deposits at December 31, 2009 were \$7,178,007,000, an increase of 4.7% from \$6,858,784,000 at December 31, 2008.

Return on Equity and Assets

Certain key ratios for the Company for the years ended December 31, 2009, 2008 and 2007 follows (Note 1):

	Years ended December 31,		
	2009	2008	2007
Percentage of net income to:			
Average shareholders' equity	11.10%	13.34%	13.73%
Average total assets	1.23	1.17	1.12
Percentage of average shareholders' equity to average total assets	11.07	8.81	8.19
Percentage of cash dividends per share to net income per share	17.89	34.27	38.45

(Note 1) The average balances for purposes of the above table are calculated on the basis of daily balances.

Liquidity and Capital Resources

Liquidity

The maintenance of adequate liquidity provides the Company's bank subsidiaries with the ability to meet potential depositor withdrawals, provide for customer credit needs, maintain adequate statutory reserve levels and take full advantage of high-yield investment opportunities as they arise. Liquidity is afforded by access to financial markets and by holding appropriate amounts of liquid assets. The Company's bank subsidiaries derive their liquidity largely from deposits of individuals and business entities. Deposits from persons and entities domiciled in Mexico comprise a stable portion of the deposit base of the Company's bank subsidiaries. Historically, the Mexico based deposits of the Company's bank subsidiaries have been a stable source of funding. Such deposits comprised approximately 31%, 30%, and 30% of the Company's bank subsidiaries' total deposits at each of the years ended December 31, 2009, 2008 and 2007, respectively. Other important funding sources for the Company's bank subsidiaries have been borrowings from the Federal Home Loan Bank ("FHLB"), securities sold under repurchase agreements and large certificates of deposit, requiring management to closely monitor its asset/liability mix in terms of both rate sensitivity and maturity distribution. Primary liquidity of the Company and its subsidiaries has been maintained by means of increased investment in shorter-term securities, certificates of deposit and repurchase agreements. As in the past, the Company will continue to monitor the volatility

and cost of funds in an attempt to match maturities of rate-sensitive assets and liabilities, and respond accordingly to anticipate fluctuations in interest rates over reasonable periods of time.

Asset/Liability Management

The Company’s fund management policy has as its primary focus the measurement and management of the banks' earnings at risk in the face of rising or falling interest rate forecasts. The earliest and most simplistic concept of earnings at risk measurement is the gap report, which is used to generate a rough estimate of the vulnerability of net interest income to changes in market rates as implied by the relative re-pricings of assets and liabilities. The gap report calculates the difference between the amounts of assets and liabilities re-pricing across a series of intervals in time, with emphasis typically placed on the one-year period. This difference, or gap, is usually expressed as a percentage of total assets.

If an excess of liabilities over assets matures or re-prices within the one-year period, the statement of condition is said to be negatively gapped. This condition is sometimes interpreted to suggest that an institution is liability-sensitive, indicating that earnings would suffer from rising rates and benefit from falling rates. If a surplus of assets over liabilities occurs in the one-year time frame, the statement of condition is said to be positively gapped, suggesting a condition of asset sensitivity in which earnings would benefit from rising rates and suffer from falling rates.

The gap report thus consists of an inventory of dollar amounts of assets and liabilities that have the potential to mature or re-price within a particular period. The flaw in drawing conclusions about interest rate risk from the gap report is that it takes no account of the probability that potential maturities or re-pricings of interest-rate-sensitive accounts will occur, or at what relative magnitudes. Because simplicity, rather than utility, is the only virtue of gap analysis, financial institutions increasingly have either abandoned gap analysis or accorded it a distinctly secondary role in managing their interest-rate risk exposure.

The net interest rate sensitivity at December 31, 2009, is illustrated in the following table. This information reflects the balances of assets and liabilities whose rates are subject to change. As indicated in the table on the following page, the Company is liability-sensitive during the early time periods and is asset-sensitive in the longer periods. The table shows the sensitivity of the statement of condition at one point in time and is not necessarily indicative of the position at future dates.

INTEREST RATE SENSITIVITY
(Dollars in Thousands)

December 31, 2009	Rate/Maturity				
	3 Months or Less	Over 3 Months to 1 Year	Over 1 Year to 5 Years	Over 5 Years	Total

Ratio of cumulative, interest- sensitive assets to liabilities	.872	.938	1.249	1.185	

The detailed inventory of statement of condition items contained in gap reports is the starting point of income simulation analysis. Income simulation analysis also focuses on the variability of net interest income and net income, but without the limitations of gap analysis. In particular, the fundamental, but often unstated, assumption of the gap approach that every statement of condition item that can re-price will do so to the full extent of any movement in market interest rates is taken into consideration in income simulation analysis.

Accordingly, income simulation analysis captures not only the potential of assets and liabilities to mature or re-price, but also the probability that they will do so. Moreover, income simulation analysis focuses on the relative sensitivities of these balance sheet items and projects their behavior over an extended period of time in a motion picture rather than snapshot fashion. Finally, income simulation analysis permits management to assess the probable effects on balance sheet items not only of changes in market interest rates, but also of proposed strategies for responding to such changes. The Company and many other institutions rely primarily upon income simulation analysis in measuring and managing exposure to interest rate risk.

At December 31, 2009, based on these simulations, a rate shift of 300 basis points in interest rates up will vary projected 2010 net interest income by 1.89%, while a rate shift of 100 basis points down will not vary net interest income by more than .18% of projected 2010 net interest income. The basis point shift in interest rates is a hypothetical rate scenario used to calibrate risk, and does not necessarily represent

management's current view of future market developments. The Company believes that it is properly positioned for a potential interest rate increase or decrease.

All the measurements of risk described above are made based upon the Company's business mix and interest rate exposures at the particular point in time. The exposure changes continuously as a result of the Company's ongoing business and its risk management initiatives. While management believes these measures provide a meaningful representation of the Company's interest rate sensitivity, they do not necessarily take into account all business developments that have an effect on net income, such as changes in credit quality or the size and composition of the statement of condition.

Principal sources of liquidity and funding for the Company are dividends from subsidiaries and borrowed funds, with such funds being used to finance the Company's cash flow requirements. The Company closely monitors the dividend restrictions and availability from the bank subsidiaries as disclosed in Note 21 to the Consolidated Financial Statements. At December 31, 2009, the aggregate amount legally available to be distributed to the Company from bank subsidiaries as dividends was approximately \$390,000,000, assuming that each bank subsidiary continues to be classified as "well capitalized" under the applicable regulations. The restricted capital (capital and surplus) of the bank subsidiaries was approximately \$928,945,000 as of December 31, 2009. The undivided profits of the bank subsidiaries were approximately \$727,972,000 as of December 31, 2009. Additionally, as a result of the Company's participation in the TARP Capital Purchase Program, the Company is restricted in the payment of dividends and may not without the Treasury Department's consent, declare or pay any dividend on the Company Common Stock other than a regular semi-annual cash dividend of not more than \$.33 per share, as adjusted for any stock dividend or stock split. The restriction ceases to exist only on the earlier to occur of December 23, 2011 or the date on which the Company has redeemed all of the Series A Preferred Stock issued as part of the Capital Purchase Program or the date on which the Treasury has transferred all of the Preferred Stock to third parties affiliated with the Treasury.

At December 31, 2009, the Company has outstanding \$1,347,625,000 in other borrowed funds and \$201,082,000 in junior subordinated deferrable interest debentures. In addition to borrowed funds and dividends, the Company has a number of other available alternatives to finance the growth of its existing banks as well as future growth and expansion.

Capital

The Company maintains an adequate level of capital as a margin of safety for its depositors and shareholders. At December 31, 2009, shareholders' equity was \$1,407,470,000 compared to \$1,257,297,000 at December 31, 2008, an increase of \$150,173,000, or 11.9%. Shareholders' equity increased primarily due to the retention of earnings offset by the payment of cash dividends to shareholders and the repurchase of common stock under the Company's publicly announced stock purchase program. The accumulated other comprehensive income is not included in the calculation of regulatory capital ratios.

During 1990, the Federal Reserve Board ("FRB") adopted a minimum leverage ratio of 3% for the most highly rated bank holding companies and at least 4% to 5% for all other bank holding companies. The Company's leverage ratio (defined as shareholders' equity plus eligible trust preferred securities issued and outstanding less goodwill and certain other intangibles divided by average quarterly assets) was 10.95% at December 31, 2009 and 9.97% at December 31, 2008. The large increase in the Company's leverage ratio is primarily due to the Company's participation in the Treasury's CPP program. The core deposit intangibles and goodwill of \$304,890,000 as of December 31, 2009, are deducted from the sum of core capital elements when determining the capital ratios of the Company.

The FRB has adopted risk-based capital guidelines which assign risk weightings to assets and off-balance sheet items. The guidelines also define and set minimum capital requirements (risk-based capital ratios). Under the final 1992 rules, all banks are required to have Tier 1 capital of at least 4.0% of risk-weighted assets and total capital of 8.0% of risk-weighted assets. Tier 1 capital consists principally of shareholders' equity plus trust preferred securities issued and outstanding less goodwill and certain other intangibles, while total capital consists of Tier 1 capital, certain debt instruments and a portion of the reserve for loan losses. In order to be deemed well capitalized pursuant to the regulations, an institution must have a total risk-weighted capital ratio of 10%, a Tier 1 risk-weighted ratio of 6% and a Tier 1 leverage ratio of 5%. The Company had risk-weighted Tier 1 capital ratios of 17.74% and 15.30% and risk weighted total capital ratios of 18.99% and 16.35% as of December 31, 2009 and 2008, respectively, which are well above the minimum regulatory requirements and exceed the well capitalized ratios (see Note 21 to Notes to Consolidated Financial Statements).

During the past few years the Company has expanded its banking facilities. Among the activities and commitments the Company funded during 2009 and 2008 were certain capital expenditures relating to the modernization and improvement of several existing bank facilities and the expansion of the bank branch network.

Junior Subordinated Deferrable Interest Debentures

The Company has formed twelve statutory business trusts under the laws of the State of Delaware, for the purpose of issuing trust preferred securities. As part of the Local Financial Corporation ("LFIN") acquisition, the Company acquired three additional statutory business trusts previously formed by LFIN for the purpose of issuing trust preferred securities. The twelve statutory business trusts formed by the Company and the three business trusts acquired in the LFIN transaction (the "Trusts") have each issued Capital and Common Securities and invested the proceeds thereof in an equivalent amount of junior subordinated debentures (the "Debentures") issued by the Company or LFIN, as appropriate. As of December 31, 2009, the Debentures issued by four of the trusts formed by the Company and the Debentures issued by all three of the trusts formed by LFIN have been redeemed by the Company. As of December 31, 2009, the principal amount of debentures outstanding totaled \$201,082,000. As a result of participation in the TARP Capital Purchase Program, the Company may not without the consent of the Treasury Department redeem any of the Debentures until the earlier to occur of December 23, 2011, or the date on which the Company has redeemed all of the Series A Preferred Stock issued under the Capital Purchase Program or the date on which the Treasury has transferred all of the Series A Preferred Stock to third parties not affiliated with the Treasury.

The Debentures are subordinated and junior in right of payment to all present and future senior indebtedness (as defined in the respective indentures) of the Company, and are *pari passu* with one another. The interest rate payable on, and the payment terms of the Debentures are the same as the distribution rate and payment terms of the respective issues of Capital and Common Securities issued by the Trusts. The Company has fully and unconditionally guaranteed the obligations of each of the Trusts with respect to the Capital and Common Securities. The Company has the right, unless an Event of Default (as defined in the Indentures) has occurred and is continuing, to defer payment of interest on the Debentures for up to ten consecutive semi-annual periods on Trust I and for up to twenty consecutive quarterly periods on Trusts VI, VII, VIII, IX, X, XI and XII. If interest payments on any of the Debentures are deferred, distributions on both the Capital and Common Securities related to that Debenture would also be deferred. The redemption prior to maturity of any of the Debentures may require the prior approval of the Federal Reserve and/or other regulatory bodies.

For financial reporting purposes, the Trusts are treated as investments of the Company and not consolidated in the consolidated financial statements. Although the Capital Securities issued by each of the Trusts are not included as a component of shareholders' equity on the consolidated statement of condition, the Capital Securities are treated as capital for regulatory purposes. Specifically, under applicable

regulatory guidelines, the Capital Securities issued by the Trusts qualify as Tier 1 capital up to a maximum of 25% of Tier 1 capital on an aggregate basis. Any amount that exceeds the 25% threshold would qualify as Tier 2 capital. As of December 31, 2009, the total \$201,082,000, of the Capital Securities outstanding qualified as Tier 1 capital.

In March 2005, the Federal Reserve Board issued a final rule that allowed the inclusion of trust preferred securities in Tier 1 capital, but placed stricter quantitative limits. Under the final rule, after a transition period ending March 31, 2009, the aggregate amount of trust preferred securities and certain other capital elements would be limited to 25% of Tier 1 capital, net of goodwill, less any associated deferred tax liability. The amount of trust preferred securities and certain other elements in excess of the limit could be included in Tier 2 capital, subject to restrictions. On March 16, 2009, the Federal Reserve Board extended for two years the transition period. The Company believes that all of the current trust preferred securities will be included in Tier 1 capital after the transition period ending on March 31, 2011.

The following table illustrates key information about each of the Debentures and their interest rates at December 31, 2009:

	Junior Subordinated Deferrable Interest Debentures (in thousands)	Repricing Frequency	Interest Rate	Interest Rate Index	Maturity Date	Optional Redemption Date
Trust I	\$ 10,356	Fixed	10.18%	Fixed	June 2031	June 2011
Trust VI	\$ 25,774	Quarterly	3.72%	LIBOR + 3.45	November 2032	May 2010
Trust VII	\$ 10,310	Quarterly	3.53%	LIBOR + 3.25	April 2033	April 2010
Trust VIII	\$ 25,774	Quarterly	3.33%	LIBOR + 3.05	October 2033	April 2010
Trust IX	\$ 41,238	Fixed	7.10%	Fixed	October 2036	October 2011
Trust X	\$ 34,021	Fixed	6.66%	Fixed	February 2037	February 2012
Trust XI	\$ 32,990	Fixed	6.82%	Fixed	July 2037	July 2012
Trust XII	\$ 20,619	Fixed	6.85%	Fixed	September 2037	September 2012
	<u>\$ 201,082</u>					

- (1) Trust IX, X, XI and XII accrue interest at a fixed rate for the first five years, then floating at LIBOR + 1.62%, 1.65%, 1.62% and 1.45% thereafter, respectively.

Contractual Obligations and Commercial Commitments

The following table presents contractual cash obligations of the Company (other than deposit liabilities) as of December 31, 2009:

Contractual Cash Obligations	Payments due by Period (Dollars in Thousands)				
	Total	Less than One Year	One to Three Years	Three to Five Years	After Five Years
Securities sold under repurchase agreements	\$ 1,441,817	\$ 440,483	\$ 1,334	\$ —	\$ 1,000,000
Federal Home Loan Bank borrowings	\$ 1,347,625	1,347,625	—	—	—
Junior subordinated deferrable interest debentures	\$ 201,082	—	—	—	201,082
Operating leases	\$ 38,022	10,043	13,930	6,385	7,664
Total Contractual Cash Obligations	<u>\$ 3,028,546</u>	<u>\$ 1,798,151</u>	<u>\$ 15,264</u>	<u>\$ 6,385</u>	<u>\$ 1,208,746</u>

The following table presents contractual commercial commitments of the Company (other than deposit liabilities) as of December 31, 2009:

Commercial Commitments	Amount of Commitment Expiration Per Period				
	(Dollars in Thousands)				
	Total	Less than One Year	One to Three Years	Three to Five Years	After Five Years
Financial and Performance Standby					
Letters of Credit	\$ 132,151	\$ 127,941	\$ 4,210	\$ —	\$ —
Commercial Letters of Credit	\$ 1,356	1,356	—	—	—
Credit Card Lines	\$ 48,016	48,016	—	—	—
Other Commercial Commitments	\$ 1,167,993	705,699	328,749	62,351	71,194
Total Commercial Commitments	\$ 1,349,516	\$ 883,012	\$ 332,959	\$ 62,351	\$ 71,194

Due to the nature of the Company's commercial commitments, including unfunded loan commitments and lines of credit, the amounts presented above do not necessarily reflect the amounts the Company anticipates funding in the periods presented above.

Critical Accounting Policies

The Company has established various accounting policies which govern the application of accounting principles in the preparation of the Company's consolidated financial statements. The significant accounting policies are described in the Notes to the Consolidated Financial Statements. Certain accounting policies involve significant subjective judgments and assumptions by management which have a material impact on the carrying value of certain assets and liabilities; management considers such accounting policies to be critical accounting policies.

The Company considers its Allowance for Probable Loan Losses as a policy critical to the sound operations of the bank subsidiaries. The allowance for probable loan losses consists of the aggregate loan loss allowances of the bank subsidiaries. The allowances are established through charges to operations in the form of provisions for probable loan losses. Loan losses or recoveries are charged or credited directly to the allowances. The allowance for probable loan losses of each bank subsidiary is maintained at a level considered appropriate by management, based on estimated probable losses in the loan portfolio. The allowance is derived from the following elements: (i) allowances established on specific loans (ii) allowances based on quantitative historical loss experience on the Company's loan portfolio and (iii) allowances based on qualitative data, which includes general economic conditions and other risk factors both internal and external to the Company. See also discussion regarding the allowance for probable loan losses and provision for probable loan losses included in the results of operations and "Provision and Allowance for Probable Loan Losses" included in Notes 1 and 5 of the Notes to Consolidated Financial Statements.

The specific loan loss provision is determined using the following methods. On a weekly basis, loan past due reports are reviewed by the servicing loan officer to determine if a loan has any potential problem and if a loan should be placed on the Company's internal classified report. Additionally, the Company's credit department reviews the majority of the Company's loans regardless of whether they are past due and segregates any loans with potential problems for further review. The credit department will discuss the potential problem loans with the servicing loan officers to determine any relevant issues that were not discovered in the evaluation. Also, any analysis on loans that is provided through examinations by regulatory authorities is considered in the review process. After the above analysis is completed, the Company will determine if a loan should be placed on an internal classified report because of issues related to the analysis of the credit, credit documents, collateral and/or payment history.

The Company's internal classified report is segregated into the following categories: (i) "Special Review Credits," (ii) "Watch List—Pass Credits," or (iii) "Watch List—Substandard Credits." The loans placed in the "Special Review Credits" category reflect the Company's opinion that the loans reflect potential weakness which require monitoring on a more frequent basis. The "Special Review Credits" are reviewed and discussed on a regular basis with the credit department and the lending staff to determine if a change in category is warranted. The loans placed in the "Watch List—Pass Credits" category reflect the Company's opinion that the credit contains weaknesses which represent a greater degree of risk, which warrant "extra attention." The "Watch List—Pass Credits" are reviewed and discussed on a regular basis with the credit department and the lending staff to determine if a change in category is warranted. The loans placed in the "Watch List—Substandard Credits" classification are considered to be potentially inadequately protected by the current sound worth and debt service capacity of the borrower or of any pledged collateral. These credit obligations, even if apparently protected by collateral value, have shown defined weaknesses related to adverse financial, managerial, economic, market or political conditions which may jeopardize repayment of principal and interest. Furthermore, there is the possibility that some future loss could be sustained by the bank if such weaknesses are not corrected; provided however, management may evaluate these credits under Statement of Financial Accounting Standards No. 114, "Accounting by Creditors for Impairment of a Loan," now included as part of ASC 310-10, "Receivables," criteria and, if deemed necessary, a specific reserve is allocated to the credit, but management does not necessarily believe there is a loss present in this classified credit category. The specific reserve allocated under ASC 310-10, is based on (1) the present value of expected future cash flows discounted at the loan's effective interest rate; (2) the loan's observable market price; or (3) the fair value of the collateral if the loan is collateral dependent. Substantially all of the Company's loans evaluated under ASC 310-10 are measured using the fair value of collateral method. In limited cases, the Company may use other methods to determine the specific reserve of a loan under SFAS ASC 310-10 if such loan is not collateral dependent.

The allowance based on historical loss experience on the Company's remaining loan portfolio, which includes the "Special Review Credits," "Watch List—Pass Credits," and "Watch List—Substandard Credits" is determined by segregating the remaining loan portfolio into certain categories such as commercial loans, installment loans, international loans, loan concentrations and overdrafts. Installment loans are then further segregated by number of days past due. A historical loss percentage, adjusted for (i) management's evaluation of changes in lending policies and procedures, (ii) current economic conditions in the market area served by the Company, (iii) other risk factors, (iv) the effectiveness of the internal loan review function, (v) changes in loan portfolios, and (vi) the composition and concentration of credit volume is applied to each category. Each category is then added together to determine the allowance allocated under ASC 450-20.

The Company's management continually reviews the allowance for loan loss of the bank subsidiaries using the amounts determined from the allowances established on specific loans, allowance established on quantitative historical percentages, allowance based on qualitative data, and the loans charged off and recoveries to establish an appropriate amount to maintain in the Company's allowance for loan loss. If the basis of the Company's assumptions change, the allowance for loan loss would either decrease or increase and the Company would increase or decrease the provision for loan loss charged to operations accordingly.

Recent Accounting Standards Issued

See Note 1—Summary of Significant Accounting Policies in the accompanying Notes to the Consolidated Financial Statements for details of recently issued and recently adopted accounting standards and their impact on the Company's consolidated financial statements.

Preferred Stock, Common Stock and Dividends

The Company had issued and outstanding 68,103,940 shares of \$1.00 par value Common Stock held by approximately 2,485 holders of record at February 24, 2010. The book value of the Common Stock at

December 31, 2009 was \$18.90 per share compared with \$16.25 per share at December 31, 2008. The Company has issued and outstanding 216,000 shares of Fixed Rate Cumulative Perpetual Preferred Stock, Series A, par value \$0.01 per share, having a liquidation preference of \$1,000 per share, as of February 25, 2009. The book value of the Series A Preferred at December 31, 2008 was \$1,000 per share.

The Common Stock is traded on the NASDAQ National Market under the symbol "IBOC." The following table sets forth the approximate high and low bid prices in the Company's Common Stock during 2009 and 2008, as quoted on the NASDAQ National Market for each of the quarters in the two year period ended December 31, 2009. Some of the quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not necessarily represent actual transactions. The closing sales price of the Company's Common Stock was \$21.88 per share at February 24, 2010.

		High	Low
2009:	First quarter	\$ 21.68	\$ 7.36
	Second quarter	14.92	7.82
	Third quarter	16.91	9.18
	Fourth quarter	19.06	14.85

		High	Low
2008:	First quarter	\$ 24.61	\$ 18.25
	Second quarter	26.05	21.36
	Third quarter	35.80	19.28
	Fourth quarter	27.40	19.08

The Company paid cash dividends to the common shareholders of \$.17 per share on May 11, 2009 and November 2, 2009, to all holders of record on April 27, 2009 and October 19, 2009, respectively, or \$23,262,000 in the aggregate during 2009. The Company paid cash dividends to the shareholders in 2008 of \$.33 per share on April 18 and October 15, 2008, to all holders of record on March 31, 2008 and September 30, 2008, respectively, or \$45,253,000 in the aggregate during 2008.

Additionally, as a result of the Company's participation in the TARP Capital Purchase Program, the Company is restricted in the payment of dividends and may not without the Treasury Department's consent, declare or pay any dividend on the Company Common Stock other than a regular semi-annual cash dividend of not more than \$.33 per share, as adjusted for any stock dividend or stock split. The restriction ceases to exist only on the earlier to occur of December 23, 2011 or the date on which the Company has redeemed all of the Series A Preferred Stock issued as part of the Capital Purchase Program or the date on which the Treasury has transferred all of the Preferred Stock to third parties not affiliated with the Treasury. On April 7, 2009, the Company gained consent from the Treasury Department (the "Treasury Consent") to use the regular semi-annual cash dividend funds of not more than \$.33 per share, as adjusted for any stock dividend or stock split, to pay quarterly dividends and to repurchase common stock. While the IBC Board is inclined to continue to declare regular semi-annual cash dividends, the Board may decide to pay quarterly cash dividends in the future and the amount of any cash dividends, combined with amounts spent in conjunction with the Company's stock repurchase program, will be limited by the restrictions set forth in the Treasury Consent. There can be no assurance as to future dividends because they are dependent upon the Company's future earnings, capital requirements, financial condition, acquisition opportunities and general business conditions at the time.

In addition, the Company has issued common stock dividends during the last five-year period as follows:

<u>Date</u>	<u>Stock Dividend</u>
May 2, 2005	25 %
May 2006	— %
May 21, 2007	10 %
May 2008	— %
May 2009	— %

The Company's principal source of funds to pay cash dividends on its Common Stock and Series A Preferred Stock is cash dividends from its bank subsidiaries. For a discussion of the limitations, please see Note 21 of Notes to Consolidated Financial Statements.

Stock Repurchase Program

The Company terminated its stock repurchase program on December 19, 2008, in connection with participating in the TARP Capital Purchase Program, which program prohibited stock repurchases, except for repurchases made in connection with the administration of an employee benefit plan in the ordinary course of business and consistent with past practices. Pursuant to the Treasury Consent received on April 7, 2009, the Company obtained consent from the Treasury to repurchase shares of the Company's common stock; provided, however, that in no event will the aggregate amount of cash dividends and common stock repurchases for a given semi-annual period exceed the aggregate amount that would be used to pay the originally permitted semi-annual cash dividend of \$.33 per share. Under the new stock repurchase program, the Company is authorized to repurchase up to \$40,000,000 of its common stock within twelve months from the adoption of the repurchase program on April 9, 2009. Stock repurchases may be made from time to time, on the open market or through private transactions. As part of the stock repurchase program, during the third quarter of 2009 and the first quarter of 2010, the Company's Board of Directors adopted a rule 10b5-1 trading plan and intends to adopt additional Rule 10b5-1 trading plans that will allow the Company to purchase its shares of common stock during certain trading blackout periods when the Company would ordinarily not be in the market due to trading restrictions set forth in its internal trading policy. Shares repurchased in the stock repurchase program will be held in treasury for reissue for various corporate purposes, including employee stock option plans. The Company is not obligated to repurchase shares under its stock purchase program or to enter into additional Rule 10b5-1 trading plans. The timing, actual number and value of shares purchased will depend on many factors, including the Company's cash flow and the liquidity and price performance of its shares of common stock. As of February 24, 2010, a total of 6,913,284 shares had been repurchased under all programs at a cost of \$222,435,000.

Except for repurchases in connection with the administration of an employee benefit plan in the ordinary course of business and consistent with past practices, common stock repurchases are only conducted under publicly announced repurchase programs approved by the Board of Directors. The

following table includes information about common stock share repurchases for the quarter ended December 31, 2009.

	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of a Publicly- Announced Program	Approximate Dollar Value of Shares Available for Repurchase(1)
October 1—October 31, 2009	—	—	—	\$ 33,346,000
November 1—November 30, 2009	68,877	16.08	68,877	32,239,000
December 1—December 31, 2009	90,309	16.79	90,309	30,722,000
Total	<u>159,186</u>	<u>\$ 16.48</u>	<u>159,186</u>	

(1) The formal stock repurchase program was initiated in 1999 and before it was terminated on December 19, 2008, it had been expanded periodically. The new repurchase program that was adopted on April 9, 2009 allows for the repurchase of up to \$40,000,000 of treasury stock through April 9, 2010.

Equity Compensation Plan Information

The following table sets forth information as of December 31, 2009, with respect to the Company's equity compensation plans:

Plan Category	(A) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(B) Weighted average exercise price of outstanding options, warrants and rights	(C) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column A)
Equity Compensation plans approved by security holders	823,592	\$ 20.54	142,922
Total	<u>823,592</u>	<u>\$ 20.54</u>	<u>142,922</u>

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
International Bancshares Corporation:

We have audited the accompanying consolidated statements of condition of International Bancshares Corporation and subsidiaries as of December 31, 2009 and 2008, and the related consolidated statements of income, comprehensive income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2009. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of International Bancshares Corporation and subsidiaries as of December 31, 2009 and 2008, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2009, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 22 to the consolidated financial statements, effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 157, "Fair Value Measurements".

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), International Bancshares Corporation and subsidiaries' internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated March 1, 2010 expressed an unqualified opinion on the effectiveness of International Bancshares Corporation and subsidiaries' internal control over financial reporting.

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(1) Summary of Significant Accounting Policies

The accounting and reporting policies of International Bancshares Corporation ("Corporation") and Subsidiaries (the Corporation and Subsidiaries collectively referred to herein as the "Company") conform to accounting principles generally accepted in the United States of America and to general practices within the banking industry. The following is a description of the more significant of those policies.

Consolidation and Basis of Presentation

The consolidated financial statements include the accounts of the Corporation and its wholly-owned bank subsidiaries, International Bank of Commerce, Laredo ("IBC"), Commerce Bank, International Bank of Commerce, Zapata, International Bank of Commerce, Brownsville, and the Corporation's wholly-owned non-bank subsidiaries, IBC Subsidiary Corporation, IBC Life Insurance Company, IBC Trading Company, Premier Tierra Holdings, Inc. and IBC Capital Corporation. All significant inter-company balances and transactions have been eliminated in consolidation.

The Company, through its subsidiaries, is primarily engaged in the business of banking, including the acceptance of checking and savings deposits and the making of commercial, real estate, personal, home improvement, automobile and other installment and term loans. The primary markets of the Company are South, Central, and Southeast Texas and the state of Oklahoma. Each bank subsidiary is very active in facilitating international trade along the United States border with Mexico and elsewhere. Although the Company's loan portfolio is diversified, the ability of the Company's debtors to honor their contracts is primarily dependent upon the economic conditions in the Company's trade area. In addition, the investment portfolio is directly impacted by fluctuations in market interest rates. The Company and its bank subsidiaries are subject to the regulations of certain Federal agencies as well as the Texas Department of Banking and undergo periodic examinations by those regulatory authorities. Such agencies may require certain standards or impose certain limitations based on their judgments or changes in law and regulations.

The Company owns two insurance-related subsidiaries, IBC Life Insurance Company and IBC Insurance Agency, Inc., a wholly owned subsidiary of IBC, the bank subsidiary. Neither of the insurance-related subsidiaries conducts underwriting activities. The IBC Life Insurance Company is in the business of reinsuring credit life and credit accident and health insurance. The business is assumed from an unaffiliated insurer and the only business written is generated by the bank subsidiaries of the Company. The risk assumed on each of the policies is not significant to the consolidated financial statements.

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the dates of the statement of condition and income and expenses for the periods. Actual results could differ significantly from those estimates. Material estimates that are particularly susceptible to significant changes in the near-term relate to the determination of the allowance for probable loan losses.

On July 1, 2009, the Financial Accounting Standards Board officially launched the "FASB Accounting Standards Codification," ("Codification"), which is now the single official source of authoritative, non-governmental U.S. GAAP, in addition to guidance issued by the Securities and Exchange Commission ("SEC"). The Codification supersedes all prior accounting literature. With the launch of the Codification, U.S. GAAP now consists of two levels—authoritative (Codification) and non-authoritative (anything not in the Codification). The Codification is effective for interim and annual periods ending after September 15, 2009, and is organized into approximately 90 accounting topics. The FASB will no longer be issuing

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(1) Summary of Significant Accounting Policies (Continued)

accounting standards in the form of Statements, Staff Positions or Emerging Issues Task Force Abstracts. The FASB will instead amend the Codification by issuing "Accounting Standards Updates." The adoption of the Codification did not have a significant impact to the Company's consolidated financial statements.

Subsequent Events

Effective June 30, 2009, the Company adopted Statement of Financial Accounting Standards No. 165 ("SFAS No. 165"), "Subsequent Events." SFAS No. 165 is currently included in the Codification under ASC Topic 855, "Subsequent Events" ("ASC 855"). ASC 855 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or available to be issued. ASC 855 defines (i) the period after the balance sheet date during which a reporting entity's management should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements (ii) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements and (iii) the disclosures an entity should make about events or transactions that occurred after the balance sheet date. The adoption of the accounting standard did not have an impact on the Company's consolidated financial statements. The Company has evaluated all events or transactions that occurred after December 31, 2009 through March 1, 2010, the date the Company issued these financial statements. During this period, the Company did not have any material recognizable or non-recognizable subsequent events.

Per Share Data

All share and per share information has been restated giving retroactive effect to stock dividends distributed.

Investment Securities

The Company classifies debt and equity securities into one of these categories: held-to-maturity, available-for-sale, or trading. Such classifications are reassessed for appropriate classification at each reporting date. Securities that are intended and expected to be held until maturity are classified as "held-to-maturity" and are carried at amortized cost for financial statement reporting. Securities that are not positively expected to be held until maturity, but are intended to be held for an indefinite period of time are classified as "available-for-sale" or "trading" and are carried at their fair value. Unrealized holding gains and losses are included in net income for those securities classified as "trading", while unrealized holding gains and losses related to those securities classified as "available-for-sale" are excluded from net income and reported net of tax as other comprehensive income and in shareholders' equity as accumulated other comprehensive income until realized. The Company did not maintain any trading securities during the three year period ended December 31, 2009.

Mortgage-backed securities held at December 31, 2009 and 2008 represent participating interests in pools of long-term first mortgage loans originated and serviced by the issuers of the securities. Mortgage-backed securities are either issued or guaranteed by the U.S. Government or its agencies including the Federal Home Loan Mortgage Corporation ("Freddie Mac"), the Federal National Mortgage Association ("Fannie Mae"), the Government National Mortgage Association ("Ginnie Mae") or other non-government entities. Investments in mortgage-backed securities issued by Ginnie Mae are fully guaranteed by the U. S. Government. Investments in mortgage-backed securities issued by Freddie Mac and Fannie

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(1) Summary of Significant Accounting Policies (Continued)

Mae are not fully guaranteed by the U.S. Government, but carry an implied AAA rating with limited credit risk, particularly given the placement of Fannie Mae and Freddie Mac into conservatorship by the federal government in early September 2008. Market interest rate fluctuations can affect the prepayment speed of principal and the yield on the security.

Premiums and discounts are amortized using the level yield or "interest method" over the terms of the securities. Declines in the fair value of held-to-maturity and available-for sale-securities below their cost that are deemed to be other than temporary are reflected in earnings as realized losses. In determining whether other-than-temporary impairment exists, management considers many factors, including (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent of the Company to hold and the determination of whether the Company will more likely than not be required to sell the investment prior to a recovery in fair value. Gains and losses on the sale of securities are recorded on the trade date and are determined using the specific identification method.

Provision and Allowance for Probable Loan Losses

The allowance for probable loan losses is maintained at a level considered adequate by management to provide for probable loan losses. The allowance is increased by provisions charged to operating expense and reduced by net charge-offs. The provision for probable loan losses is the amount, which, in the judgment of management, is necessary to establish the allowance for probable loan losses at a level that is adequate to absorb known and inherent risks in the loan portfolio.

Management believes that the allowance for probable loan losses is adequate. While management uses available information to recognize losses on loans, future additions to the allowance may be necessary based on changes in economic conditions. In addition, various regulatory agencies, as an integral part of their examination process, periodically review the Company's bank subsidiaries' allowances for probable loan losses. Such agencies may require the Company's bank subsidiaries to make additions or reductions to their GAAP allowances based on their judgments of information available to them at the time of their examination.

Loans

Loans are reported at the principal balance outstanding, net of unearned discounts. Interest income on loans is reported on an accrual basis. Loan fees and costs associated with originating the loans are amortized over the life of the loan using the interest method. The Company originates mortgage loans that may subsequently be sold to an unaffiliated third party. The loans are not securitized and if sold, are sold without recourse. Loans held for sale are carried at cost and the principal amount outstanding is not significant to the consolidated financial statements.

Impaired Loans

Impaired loans are those loans where it is probable that all amounts due according to contractual terms of the loan agreement will not be collected. Impaired loans are measured based on (1) the present value of expected future cash flows discounted at the loan's effective interest rate; (2) the loan's observable market price; or (3) the fair value of the collateral if the loan is collateral dependent. Substantially all of the Company's impaired loans are measured at the fair value of the collateral. In limited cases the

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(1) Summary of Significant Accounting Policies (Continued)

Company may use other methods to determine the level of impairment of a loan if such loan is not collateral dependent.

Non-Accrual Loans

The non-accrual loan policy of the Company's bank subsidiaries is to discontinue the accrual of interest on loans when management determines that it is probable that future interest accruals will be un-collectible. As it relates to consumer loans, management charges off those loans when the loan is contractually 90 days past due. Under special circumstances, a consumer or non-consumer loan may be more than 90 days delinquent as to interest or principal and not be placed on non-accrual status. This situation generally results when a bank subsidiary has a borrower who is experiencing financial difficulties, but not to the extent that requires a restructuring of indebtedness. The majority of this category is composed of loans that are considered to be adequately secured and/or for which there has been a recent history of payments. When a loan is placed on non-accrual status, any interest accrued, not paid is reversed and charged to operations against interest income. As it relates to non-consumer loans that are not 90 days past due, management will evaluate each of these loans to determine if placing the loan on non-accrual status is warranted. Interest income on non-accrual loans is recognized only to the extent payments are received or when, in management's opinion, the debtor's financial condition warrants reestablishment of interest accruals.

Other Real Estate Owned

Other real estate owned is comprised of real estate acquired by foreclosure and deeds in lieu of foreclosure. Other real estate is carried at the lower of the recorded investment in the property or its fair value less estimated costs to sell such property (as determined by independent appraisal). Prior to foreclosure, the value of the underlying loan is written down to the fair value of the real estate to be acquired by a charge to the allowance for loan probable losses, if necessary. Any subsequent write-downs are charged against other non-interest expense. Operating expenses of such properties and gains and losses on their disposition are included in other non-interest expense. Other real estate owned totaled \$35,326,000 and \$27,733,000 at December 31, 2009 and 2008, respectively. Other real estate owned is included in other assets.

Bank Premises and Equipment

Bank premises and equipment are stated at cost less accumulated depreciation. Depreciation is computed on straight-line and accelerated methods over the estimated useful lives of the assets. Repairs and maintenance are charged to operations as incurred and expenditures for renewals and betterments are capitalized.

Other Investments

Other investments include equity investments in non-financial companies, bank owned life insurance, as well as equity securities with no readily determinable fair market value. Equity investments are accounted for using the equity method of accounting. Equity securities with no readily determinable fair value are accounted for using the cost method.

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(1) Summary of Significant Accounting Policies (Continued)

Income Taxes

Deferred income tax assets and liabilities are determined using the asset and liability method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the differences between the book and tax basis of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws. The Company files a consolidated federal income tax return with its subsidiaries.

Recognition of deferred tax assets is based on management's belief that the benefit related to certain temporary differences, tax operating loss carry forwards, and tax credits are more likely than not to be realized. A valuation allowance is recorded for the amount of the deferred tax items for which it is more likely than not that the tax benefits will not be realized.

The Company evaluates uncertain tax positions at the end of each reporting period. The Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefit recognized in the financial statements from any such a position is measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. As of December 31, 2009 and 2008, respectively, after evaluating all uncertain tax positions, the Company has recorded no liability for unrecognized tax benefits at the end of the reporting period. The Company would recognize any interest accrued on unrecognized tax benefits as other interest expense and penalties as other non-interest expense. During the years ended December 31, 2009, 2008 and 2007, the Company recognized no interest expense or penalties related to uncertain tax positions.

The Company files consolidated tax returns in the U.S. Federal jurisdiction and various state jurisdictions. The Company is no longer subject to U.S. federal or state income tax examinations by tax authorities for years before 2006.

Stock Options

Compensation expense for stock awards is based on the market price of the stock on the measurement date, which is generally the date of grant, and is recognized ratably over the service period of the award.

The fair value of stock options granted was estimated as the measurement date, which is generally the date of grant, using the Black-Sholes-Merton option-pricing model. This model was developed for use in estimating the fair value of publicly traded options that have no vesting restrictions and are fully transferable. Additionally, the model requires the input of highly subjective assumptions. Because the Company's employee stock options have characteristics significantly different from those of publicly traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the Black-Scholes-Merton option-pricing model does not necessarily provide a reliable single measure of the fair value of the Company's stock options.

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(1) Summary of Significant Accounting Policies (Continued)

Net Income Per Share

Basic Earnings Per Share ("EPS") is calculated by dividing net income by the weighted average number of common shares outstanding. The computation of diluted EPS assumes the issuance of common shares for all dilutive potential common shares outstanding during the reporting period. The dilutive effect of stock options is considered in earnings per share calculations, if dilutive, using the treasury stock method.

Goodwill and Identified Intangible Assets

Goodwill represents the excess of costs over fair value of assets of businesses acquired. Goodwill is tested for impairment at least annually or on an interim basis if an event triggering impairment may have occurred. As of September 30, 2009, after completing goodwill testing, the Company has determined that no goodwill impairment exists.

Identified intangible assets are acquired assets that lack physical substance but can be distinguished from goodwill because of contractual or other legal rights or because the asset is capable of being sold or exchanged either on its own or in combination with a related contract, asset, or liability. The Company's identified intangible assets relate to core deposits and contract rights. As of December 31, 2009, the Company has determined that no impairment of identified intangibles exists. Identified intangible assets with definite useful lives are amortized on an accelerated basis over their estimated life. See Note 7—Goodwill and Other Intangible Assets.

Impairment of Long-Lived Assets

Long-lived assets, such as property, plant and equipment, and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying value of the asset to the estimated undiscounted future cash flows expected to be generated by the asset. If the carrying value of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying value of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the statement of condition and reported at the lower of the carrying value or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of a disposed group classified as held for sale would be presented separately in the appropriate asset and liability sections of the statement of condition.

Consolidated Statements of Cash Flows

For purposes of the consolidated statements of cash flows, the Company considers all short-term investments with a maturity at date of purchase of three months or less to be cash equivalents. Also, the Company reports transactions related to deposits and loans to customers on a net basis.

Accounting for Transfers and Servicing of Financial Assets

The Company accounts for transfers and servicing of financial assets and extinguishments of liabilities based on the application of a financial-components approach that focuses on control. After a transfer of financial assets, the Company recognizes the financial and servicing assets it controls and liabilities it has incurred, derecognizes financial assets when control has been surrendered and derecognizes liabilities

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(1) Summary of Significant Accounting Policies (Continued)

when extinguished. The Company has retained mortgage servicing rights in connection with the sale of mortgage loans. Because the Company may not initially identify loans as originated for resale, all loans are initially treated as held for investment. The value of the mortgage servicing rights are reviewed periodically for impairment and are amortized in proportion to, and over the period of estimated net servicing income or net servicing losses. The value of the mortgage servicing rights is not significant to the consolidated statements of condition.

Segments of an Enterprise and Related Information

The Company operates as one segment. The operating information used by the Company's chief executive officer for purposes of assessing performance and making operating decisions about the Company is the consolidated financial statements presented in this report. The Company has four active operating subsidiaries, namely, the bank subsidiaries, otherwise known as International Bank of Commerce, Laredo, Commerce Bank, International Bank of Commerce, Zapata and International Bank of Commerce, Brownsville.

Comprehensive Income

Comprehensive income consists of net income and other comprehensive income. Other comprehensive income includes unrealized gains and losses on securities available for sale.

Advertising

Advertising costs are expensed as incurred.

Reclassifications

Certain amounts in the prior year's presentations have been reclassified to conform to the current presentation. These reclassifications had no effect on previously reported net income or total assets.

New Accounting Standards

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157 ("SFAS No. 157"), "Fair Value Measurements," now included in ASC 820-10. ASC 820-10 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. The Company adopted ASC 820-10 on January 1, 2008. The impact of the adoption of the new accounting standard was not significant.

In February 2007, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 159 ("SFAS No. 159"), "The Fair Value Option for Financial Assets and Financial Liabilities—Including an amendment of FASB Statement No. 115," now included in ASC 825-10. ASC 825-10 permits entities to choose to measure eligible items at fair value at certain specified review dates. Changes in unrealized gains/losses for items elected to be measured using the fair value option are reported in earnings at each subsequent reporting date. The fair value option (i) may be applied instrument by instrument, with certain exceptions, (ii) is irrevocable (unless a new election date occurs) and (iii) is applied only to entire instruments and not to portions of instruments. The Company adopted

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(1) Summary of Significant Accounting Policies (Continued)

ASC 825-10 on January 1, 2008. The adoption of the new accounting standard did not have an impact on the Company's financial statements.

In December 2007, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 141R ("SFAS No. 141R"), "Business Combinations (Revised 2007)," now included in ASC 805-10 through ASC 805-50. The accounting standard, replaces SFAS No. 141, "Business Combinations," and applies to all transactions and other events in which one entity obtains control over one or more other entities. The accounting standard requires an acquirer, upon initially obtaining control of another entity, to recognize the assets, liabilities, and any non-controlling interest in the acquiree at fair value as of the acquisition date. Contingent consideration is required to be recognized and measured at fair value on the date of acquisition rather than at a later date when the amount of that consideration may be determinable beyond a reasonable doubt. This fair value approach replaces the cost-allocation process required under SFAS No. 141, whereby the cost of an acquisition was allocated to the individual assets acquired and liabilities assumed based on their estimated fair value. It requires the acquiring entity to expense acquisition-related costs as incurred rather than allocating such costs to the assets acquired and liabilities assumed, as was previously the case under SFAS No. 141. Under ASC 805-10 through ASC 805-50, the requirements of SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities," or ASC 420-10, would have to be met in order to accrue for a restructuring plan in purchase accounting. Pre-acquisition contingencies are to be recognized at fair value, unless it is a non-contractual contingency that is not likely to materialize, in which case, nothing should be recognized in purchase accounting and, instead, that contingency would be subject to the probable and estimateable criteria of SFAS No. 5, "Accounting for Contingencies," or ASC 450. The new accounting standard applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. An entity may not adopt this standard early. The new accounting standard will affect the accounting for any future business combinations the Company enters into.

In December 2007, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 160 ("SFAS No. 160"), "Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB Statement No. 51," now included in ASC 810-10. ASC 810-10 amends Accounting Research Bulletin (ARB) No. 51, "Consolidated Financial Statements," to establish accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS ASC 810-10 clarifies that a non-controlling interest in a subsidiary, which is sometimes referred to as minority interest, is an ownership interest in the consolidated entity that should be reported as a component of equity in the consolidated financial statements. Among other requirements, ASC 810-10 requires consolidated net income to be reported at amounts that include the amounts attributable to both the parent and the non-controlling interest. It also requires disclosure, on the face of the consolidated financial statements, of the amounts of consolidated net income attributable to the parent and to the non-controlling interest. ASC 810-10 is effective for fiscal year, and interim periods within those fiscal years, beginning on or after December 15, 2008, or January 1, 2009 for entities with a calendar year end. The Company adopted ASC 810-10 on January 1, 2009. The adoption of the new accounting standard did not have an impact on the Company's financial statements.

In March 2008, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 161 ("SFAS No. 161"), "Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133," now included in ASC 815-10. ASC 815-10 amends and expands the disclosure requirements of SFAS No. 133 to provide greater transparency about how and why

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(1) Summary of Significant Accounting Policies (Continued)

and entity uses derivative instruments, how derivative instruments and related hedge items are accounted for under SFAS No. 133 and its related interpretations and how derivative instruments and related hedged items affect an entity's financial position, results of operations and cash flows. ASC 815-10 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments and disclosures about credit-risk-related contingent features in derivative agreements. ASC 815-10 is effective for fiscal years and interim periods beginning after November 15, 2008. The adoption of the new standard did not have a significant impact on the Company's consolidated financial statements.

On April 9, 2009, the Financial Accounting Standards Board issued FASB Staff Position No. 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly" ("FSP No. 157-4"), included in ASC 820-10. ASC 820-10 provides additional guidance for estimating fair value in accordance with FASB ASC 820-10, "Fair Value Measurements," when the volume and level of activity for the asset or liability have significantly decreased. Additionally, the staff position also provides guidance on identifying circumstances that indicate a transaction is not orderly. The staff position stresses that even though there has been a significant decrease in the volume and level of activity for the asset or liability and regardless of the valuation techniques used to measure the fair value of the asset or liability, the main objective of fair value accounting measurements remains the same. As defined by the FSP, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date under current market conditions. Additionally, the staff position amends the fair value disclosures as originally required by ASC 820-10. The staff position is effective for interim and annual reporting periods ending after June 15, 2009, although early adoption is permitted for periods ending after March 15, 2009. The adoption of the staff position did not have a significant impact on the Company's consolidated financial statements.

On April 9, 2009, the Financial Accounting Standards Board issued FASB Staff Position No. 107-1 and APB 28-1, "Interim Disclosures about Fair Value of Financial Instruments" ("FSP No. 107-1 and APB 28-1"), included in ASC 825-10. The staff position amends FASB Statement No. 107, "Disclosures about Fair Value of Financial Instruments," also in ASC 825-10, to require disclosures about fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements. The FSP also amends Accounting Principles Board Opinion No. 28, "Interim Financial Reporting" to require those disclosures in summarized financial information at interim reporting periods. The new standard is effective for interim reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The adoption of the staff accounting position did not have a significant impact on the Company's consolidated financial statements.

On April 9, 2009, the Financial Accounting Standards Board issued FASB Staff Position No. 115-2 and 124-2, "Recognition and Presentation of Other-Than-Temporary Impairments" (FSP No. 115-2 and 124-2"), included in ASC 320-10 and amends the other-than-temporary guidance in U.S. GAAP for debt securities to make the guidance more operational and to improve the presentation and disclosure of other-than-temporary impairments in debt and equity securities in the financial statements. The staff position does not amend existing recognition and measurement guidance related to other-than-temporary impairment. The staff position requires that unless there is an intent or requirement to sell a debt security, only the amount of the estimated credit loss is recorded through earnings, while the remaining mark-to-market loss is recognized as a component of equity through other comprehensive income. Additionally, it enhances required disclosures of existing guidelines. The staff position is effective for interim and annual

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(1) Summary of Significant Accounting Policies (Continued)

reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009, and will be applied to all existing and new investments in debt securities. The adoption of the accounting standard did not have a significant impact on the Company's consolidated financial statements.

In August 2009, the Financial Accounting Standards Board issued Accounting Standards Update No. 2009-05, to ASC 820, "Fair Value Measurements and Disclosures." The Update provides amendments for the fair value measurement of liabilities. The Update clarifies which techniques should be used to measure fair value in the event that there are no quoted prices in active markets for an identical liability. The amendment also clarifies that when estimating the fair value of a liability, entities are not required to factor in any existing requirements that would affect the transferability of the asset. The Update is effective for the first interim and annual reporting period ending after issuance. The adoption of the update to existing accounting standards did not have a significant impact on the Company's consolidated financial statements.

In September 2009, the Financial Accounting Standards Board issued Accounting Standards Update No. 2009-06, to update ASC 740, "Income Taxes." The Update addresses the need for additional implementation guidance in accounting for uncertainty in income taxes. The key provisions of the Update illustrate by example what should be done in the case where a decision needs to be made regarding whether the income tax is paid by the entity is attributable to the entity or its owners, what constitutes a tax position for a pass-through or tax exempt not-for-profit entity, and how the accounting for uncertainty in income taxes is impacted when a combined group include both taxable and non-taxable entities. The Update is effective for interim and annual reporting periods ending after September 15, 2009 for entities that are currently applying the standards for accounting for uncertainty in income taxes. The adoption of the update to existing accounting standards did not have a significant impact on the Company's consolidated financial statements.

In December 2009, the Financial Accounting Standards Board issued Accounting Standards Update No. 2009-16, to ASC 860, "Transfers and Servicing." The Update amends prior accounting guidance to enhance reporting about transfers of financial assets, including securitizations, and where companies have continued exposure to the risks related to the transferred financial assets. The Update eliminates the concept of a "qualifying special-purpose entity" and changes the requirements for derecognizing financial assets. The Update also requires additional disclosures about all continuing involvement by the entity in transferred financial assets including information about gains and losses resulting from transfers during the reporting period. The Update is effective for fiscal periods ending after January 1, 2010. The adoption of the update to existing accounting standards is not expected to have a significant impact on the Company's consolidated financial statements.

(2) Acquisitions

On December 4, 2008, the Company completed its acquisition of certain rights to InsCorp, Inc. insurance contracts for \$1,074,000. InsCorp, Inc. is a multiline independently owned insurance agency, which insures oil operators, merchants and industrial businesses.

(3) Investment Securities (Continued)

The amortized cost and estimated fair value by type of investment security at December 31, 2008 are as follows:

	Held to Maturity			
	Amortized cost	Gross unrealized gains	Gross unrealized losses	Estimated fair value
	(Dollars in Thousands)			
Other securities	\$ 2,300	\$ —	\$ —	\$ 2,300
Total investment securities	<u>\$ 2,300</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 2,300</u>

	Available for Sale			
	Amortized cost	Gross unrealized gains	Gross unrealized losses	Estimated fair value
	(Dollars in Thousands)			
U.S. Treasury securities	\$ 1,319	\$ —	\$ —	\$ 1,319
Residential mortgage-backed securities	4,947,351	59,915	(32,949)	4,974,317
Obligations of states and political subdivisions	81,208	1,346	(340)	82,214
Equity securities	13,825	205	—	14,030
Total investment securities	<u>\$ 5,043,703</u>	<u>\$ 61,466</u>	<u>\$ (33,289)</u>	<u>\$ 5,071,880</u>

- (1) Included in the carrying value of residential mortgage-backed securities are \$1,820,988 of mortgage-backed securities issued by Ginnie Mae, \$3,087,038 of mortgage-backed securities issued by Fannie Mae and Freddie Mac and \$66,291 issued by non-government entities.

Mortgage-backed securities are securities issued by the Freddie Mac, Fannie Mae, Ginnie Mae or non-government entities. Investments in mortgage-backed securities issued by Ginnie Mae are fully guaranteed by the U.S. Government. Investments in mortgage-backed securities issued by Freddie Mac and Fannie Mae are not fully guaranteed by the U.S. Government, but carry an implied AAA rating with limited credit risk, particularly given the placement of Fannie Mae and Freddie Mac into conservatorship by the federal government in early September 2008.

The amortized cost and fair value of available for sale investment securities pledged to qualify for fiduciary powers, to secure public monies as required by law, repurchase agreements and short-term fixed borrowings was \$2,747,873,000 and \$2,829,519,000, respectively, at December 31, 2009.

Proceeds from the sale and call of securities available-for-sale were \$579,099,000, \$8,376,000 and \$841,084,000 during 2009, 2008 and 2007, respectively, which amounts included \$544,305,000, \$0 and \$838,561,000 of mortgage-backed securities. In 2007, the Company sold approximately \$833,160,000 of mortgage-backed securities that were in a loss position. The securities identified for sale had unique attributes that distinguished them from the rest of the portfolio and caused them to not meet the interest rate risk profile of the Company at the time. The first sale occurred in the first quarter. The securities sold were certain hybrid mortgage-backed securities with a coupon re-set date that exceeded 30 months and a weighted average yield to coupon re-set that was approximately 100 basis points less than the FHLB certificate of indebtedness short-term rate. The second sale occurred in the third quarter. The securities

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(3) Investment Securities (Continued)

sold were certain hybrid mortgage-backed securities with a coupon re-set date that was 15 - 30 months and a weighted average yield coupon re-set that was approximately 60 basis points below the FHLB short-term advance rate. In both quarters, the proceeds from the sales of the securities were used to pay down FHLB borrowings. The sales of the securities facilitated a re-positioning of the balance sheet to a more neutral position in terms of interest rate risk and are expected to improve operating ratios in the short term. Gross gains of \$11,980,000, \$6,427,000 and \$2,431,000 and gross losses of \$24,000, \$0 and \$18,369,000 were realized on the sales in 2009, 2008 and 2007, respectively.

Gross unrealized losses on investment securities and the fair value of the related securities, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, at December 31, 2009 were as follows:

	Less than 12 months		12 months or more		Total	
	Unrealized		Unrealized		Unrealized	
	Fair Value	Losses	Fair Value	Losses	Fair Value	Losses
	(Dollars in Thousands)					
Available for sale:						
Residential mortgage-backed securities	\$ 16,581	\$ (37)	\$ 59,879	\$ (15,068)	\$ 76,460	\$ (15,105)
Obligations of states and political subdivisions	14,910	(201)	275	(3)	15,185	(204)
Equity securities	—	—	33	(42)	33	(42)
	<u>\$ 31,491</u>	<u>\$ (238)</u>	<u>\$ 60,187</u>	<u>\$ (15,113)</u>	<u>\$ 91,678</u>	<u>\$ (15,351)</u>

Gross unrealized losses on investment securities and the fair value of the related securities, aggregated by investment category and length of time that individual securities have been in a continuous loss position, at December 31, 2008 were as follows:

	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
	(Dollars in Thousands)					
Available for sale:						
Residential mortgage-backed securities	\$ 893,067	\$ (32,335)	\$ 96,734	\$ (614)	\$ 989,801	\$ (32,949)
Obligations of states and political subdivisions	8,262	(274)	1,299	(66)	9,561	(340)
	<u>\$ 901,329</u>	<u>\$ (32,609)</u>	<u>\$ 98,033</u>	<u>\$ (680)</u>	<u>\$ 999,362</u>	<u>\$ (33,289)</u>

The unrealized losses on investments in mortgage-backed securities are primarily caused by changes in market interest rates. Mortgage-backed securities are primarily securities issued by the Freddie Mac, Fannie Mae and Ginnie Mae. The contractual cash obligations of the securities issued by Ginnie Mae are fully guaranteed by the U.S. Government. The contractual cash obligations of the securities issued by Freddie Mac and Fannie Mae are not fully guaranteed by the U.S. Government; however, the securities carry an implied AAA rating with limited credit risk, particularly given the placement of Fannie Mae and

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(3) Investment Securities (Continued)

Freddie Mac into conservatorship by the federal government in early September 2008. The decrease in fair value on mortgage-backed securities issued by Freddie Mac, Fannie Mae and Ginnie Mae is due to market interest rates. The Company has no intent to sell and will not more than likely than not be required to sell before a market price recovery or maturity of the securities; therefore, it is the conclusion of the Company that the investments in mortgage-backed securities issued by Freddie Mac, Fannie Mae and Ginnie Mae are not considered other-than-temporarily impaired. In addition, the Company has a small investment in non-agency mortgage-backed securities that have strong credit backgrounds and include additional credit enhancements to protect the Company from losses arising from high foreclosure rates. These securities have additional market volatility beyond economically induced interest rate events. The Company has received principal and interest payments in line with expected cash flows at the time of purchase. The Company has no intent to sell and will not more likely than not be required to sell before recovery of amortized cost, the non-agency mortgage-backed securities until a market price recovery or maturity and has continued to receive cash as expected. It is the conclusion of the Company that the investments in non-agency mortgage-backed securities are other-than-temporarily impaired, but primarily due to other than credit issues.

The unrealized losses on investments in other securities are caused by fluctuations in market interest rates. The underlying cash obligations of the securities are guaranteed by the entity underwriting the debt instrument. It is the belief of the Company that the entity issuing the debt will honor its interest payment schedule, as well as the full debt at maturity. The securities are purchased by the Company for their economic value. The decrease in fair value is primarily due to market interest rates and not other factors, and because the Company has no intent to sell and will not more likely than not be required to sell before a market price recovery or maturity of the securities, it is the conclusion of the Company that the investments are not considered other-than-temporarily impaired.

(4) Loans

A summary of net loans, by loan type at December 31, 2009 and 2008 is as follows:

	December 31,	
	2009	2008
	(Dollars in thousands)	
Commercial, financial and agricultural	\$ 2,703,379	\$ 2,574,247
Real estate—mortgage	954,010	888,095
Real estate—construction	1,583,057	1,911,954
Consumer	146,331	169,589
Foreign	280,485	328,948
Total loans	<u>\$ 5,667,262</u>	<u>\$ 5,872,833</u>

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(5) Allowance for Probable Loan Losses

A summary of the transactions in the allowance for probable loan losses for the years ended December 31, 2009, 2008 and 2007 is as follows:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
	(Dollars in Thousands)		
Balance at January 1,	\$ 73,461	\$ 61,726	\$ 64,537
Losses charged to allowance	(38,539)	(9,134)	(6,451)
Recoveries credited to allowance	1,638	1,056	4,348
Net losses charged to allowance	(36,901)	(8,078)	(2,103)
Provision (credit) charged to operations	58,833	19,813	(1,762)
Acquired in purchase transactions	—	—	1,054
Balance at December 31,	<u>\$ 95,393</u>	<u>\$ 73,461</u>	<u>\$ 61,726</u>

Loans accounted for on a non-accrual basis at December 31, 2009, 2008 and 2007 amounted to \$68,338,000, \$164,230,000 and \$33,622,000, respectively. The effect of such non-accrual loans reduced interest income by \$4,011,000, \$6,242,000 and \$1,378,000 for the years ended December 31, 2009, 2008 and 2007, respectively. Amounts received on non-accruals are applied, for financial accounting purposes, first to principal and then to interest after all principal has been collected. Accruing loans contractually past due 90 days or more as to principal or interest payments at December 31, 2009, 2008 and 2007 amounted to \$12,089,000, \$6,274,000 and \$21,840,000, respectively.

Impaired loans are those loans where it is probable that all amounts due according to contractual terms of the loan agreement will not be collected. The Company has identified these loans through its normal loan review procedures. Impaired loans are measured based on (1) the present value of expected future cash flows discounted at the loan's effective interest rate; (2) the loan's observable market price; or (3) the fair value of the collateral if the loan is collateral dependent. Substantially all of the Company's impaired loans are measured at the fair value of the collateral. In limited cases the Company may use other methods to determine the level of impairment of a loan if such loan is not collateral dependent.

The following table details key information regarding the Company's impaired loans:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
	(Dollars in Thousands)		
Balance of impaired loans where there is a related allowance for loan loss	\$ 106,780	\$ 137,153	\$ 39,618
Balance of impaired loans where there is no related allowance for loan loss	11,494	27,786	—
Total impaired loans	<u>\$ 118,274</u>	<u>\$ 164,939</u>	<u>\$ 39,618</u>
Allowance allocated to impaired loans	\$ 30,555	\$ 20,671	\$ 4,903

The impaired loans included in the table above were primarily comprised of collateral dependent commercial loans, which have not been fully charged off. The average recorded investment in impaired loans was \$149,528,000, \$93,654,000, and \$22,590,000 for the years ended December 31, 2009, 2008 and 2007, respectively. Interest income recorded on impaired loans was \$547,000, \$236,000 and \$1,989,000 for the years ended December 31, 2009, 2008 and 2007. The increase in the balance of impaired loans over

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(5) Allowance for Probable Loan Losses (Continued)

historical levels can be partially attributed to certain loans that filed for bankruptcy protection and a few loan relationships that deteriorated during 2009 and 2008. A portion of the impaired loans have adequate collateral and credit enhancements not requiring a related allowance for loan loss. The level of impaired loans is reflective of the economic weakness that has been created by the financial crisis and the subsequent economic downturn. While impaired loans have increased compared to historical levels, they have decreased for the period ended December 31, 2009, compared to the period ending December 31, 2008. The decrease in impaired loans from 2008 to 2009 can be attributed to improving economic conditions in certain industry sectors and market areas and collateral enhancements or other factors that improve the quality of the credits. Management is confident the Company's loss exposure regarding these credits will be significantly reduced due to the Company's long-standing practices that emphasize secured lending with strong collateral positions and guarantor support. Management is likewise confident the reserve for probable loan losses is adequate. The Company has no direct exposure to sub-prime loans in its loan portfolio, but the sub-prime crisis has affected the credit markets on a national level, and as a result, the Company has experienced an increasing amount of impaired loans; however, management's decision to place loans in this category does not necessarily mean that the Company will experience significant losses from these loans or significant increases in impaired loans from these levels.

Management of the Company recognizes the risks associated with these impaired loans. However, management's decision to place loans in this category does not necessarily mean that losses will occur. In the current environment, troubled loan management can be protracted because of the legal and process problems that delay the collection of an otherwise collectable loan. Additionally, management believes that the collateral related to these impaired loans and/or the secondary support from guarantors mitigates the potential for losses from impaired loans. It is also important to note that even though the economic conditions in Texas and Oklahoma are weakened, we believe these markets are improving and better positioned to recover than many other areas of the country.

The bank subsidiaries charge off that portion of any loan which management considers to represent a loss as well as that portion of any other loan which is classified as a "loss" by bank examiners. Commercial and industrial or real estate loans are generally considered by management to represent a loss, in whole or part, when an exposure beyond any collateral coverage is apparent and when no further collection of the loss portion is anticipated based on the borrower's financial condition and general economic conditions in the borrower's industry. Generally, unsecured consumer loans are charged-off when 90 days past due.

Notes to Consolidated Financial Statements (Continued)

(6) Bank Premises and Equipment

A summary of bank premises and equipment, by asset classification, at December 31, 2009 and 2008 were as follows:

	Estimated useful lives	2009	2008
(Dollars in Thousands)			
Bank buildings and improvements	5 – 40 years	\$ 384,760	\$ 351,766
Furniture, equipment and vehicles	1 – 20 years	265,425	252,290
Land		124,012	109,214
Real estate held for future expansion:			
Land, building, furniture, fixture and equipment	7 – 27 years	715	766
Less: accumulated depreciation		(284,537)	(247,665)
Bank premises and equipment, net		<u>\$ 490,375</u>	<u>\$ 466,371</u>

(7) Goodwill and Other Intangible Assets

The majority of the Company's identified intangibles are in the form of amortizable core deposit premium. In 2008, the Company purchased \$1,074,000 in identified intangibles in the acquisition of the rights to InsCorp, Inc. insurance agency insurance contracts, which will be amortized over a 7 year period. Information on the Company's identified intangible assets follows:

	Carrying Amount	Accumulated Amortization	Net
(Dollars in Thousands)			
December 31, 2009:			
Core deposit premium	\$ 58,675	\$ 37,496	\$ 21,179
Identified intangible (contract rights)	<u>1,333</u>	<u>154</u>	<u>1,179</u>
Total identified intangibles	<u>\$ 60,008</u>	<u>\$ 37,650</u>	<u>\$ 22,358</u>
December 31, 2008:			
Core deposit premium	\$ 58,675	\$ 32,364	\$ 26,311
Identified intangible (contract rights)	<u>1,074</u>	<u>—</u>	<u>1,074</u>
Total identified intangibles	<u>\$ 59,749</u>	<u>\$ 32,364</u>	<u>\$ 27,385</u>

Maximum amount outstanding at any month end	\$ 2,620,761	\$ 2,522,986

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(11) Junior Subordinated Deferrable Interest Debentures

The Company has formed twelve statutory business trusts under the laws of the State of Delaware, for the purpose of issuing trust preferred securities. As part of the Local Financial Corporation ("LFIN") acquisition, the Company acquired three additional statutory business trusts previously formed by LFIN for the purpose of issuing trust preferred securities. The twelve statutory business trusts formed by the Company and the three business trusts acquired in the LFIN transaction (the "Trusts") have each issued Capital and Common Securities and invested the proceeds thereof in an equivalent amount of junior subordinated debentures (the "Debentures") issued by the Company or LFIN, as appropriate. As of December 31, 2008, the Debentures issued by four of the trusts formed by the Company and the Debentures issued by all three of the trusts formed by LFIN have been redeemed by the Company. As of December 31, 2009, the principal amount of debentures outstanding totaled \$201,082,000. As a result of participation in the TARP Capital Purchase Program, the Company may not, without the consent of the Treasury Department, redeem any of the Debentures until the earlier to occur of December 23, 2011, or the date on which the Company has redeemed all of the Series A Preferred Stock issued under the Capital Purchase Program or the date on which the Treasury has transferred all of the Series A Preferred Stock to third parties not affiliated with the Treasury.

The Debentures are subordinated and junior in right of payment to all present and future senior indebtedness (as defined in the respective indentures) of the Company, and are *pari passu* with one another. The interest rate payable on, and the payment terms of the Debentures are the same as the distribution rate and payment terms of the respective issues of Capital and Common Securities issued by the Trusts. The Company has fully and unconditionally guaranteed the obligations of each of the Trusts with respect to the Capital and Common Securities. The Company has the right, unless an Event of Default (as defined in the Indentures) has occurred and is continuing, to defer payment of interest on the Debentures for up to ten consecutive semi-annual periods on Trust I and for up to twenty consecutive quarterly periods on Trusts VI, VII, VIII, IX, X, XI and XII. If interest payments on any of the Debentures are deferred, distributions on both the Capital and Common Securities related to that Debenture would also be deferred. The redemption prior to maturity of any of the Debentures may require the prior approval of the Federal Reserve and/or other regulatory bodies.

For financial reporting purposes, the Trusts are treated as investments of the Company and not consolidated in the consolidated financial statements. Although the Capital Securities issued by each of the Trusts are not included as a component of shareholders' equity on the consolidated statement of condition, the Capital Securities are treated as capital for regulatory purposes. Specifically, under applicable regulatory guidelines, the Capital Securities issued by the Trusts qualify as Tier 1 capital up to a maximum of 25% of Tier 1 capital on an aggregate basis. Any amount that exceeds the 25% threshold would qualify as Tier 2 capital. As of December 31, 2009, the total \$201,082,000, of the Capital Securities outstanding qualified as Tier 1 capital.

In March 2005, the Federal Reserve Board issued a final rule that allowed the inclusion of trust preferred securities in Tier 1 capital, but placed stricter quantitative limits. Under the final rule, after a transition period ending March 31, 2009, the aggregate amount of trust preferred securities and certain other capital elements would be limited to 25% of Tier 1 capital, net of goodwill, less any associated deferred tax liability. The amount of trust preferred securities and certain other elements in excess of the limit could be included in Tier 2 capital, subject to restrictions. On March 16, 2009, the Federal Reserve Board extended for two years the transition period. The Company believes that substantially all of the current trust preferred securities will be included in Tier 1 capital after the transition period ending on March 31, 2011.

Notes to Consolidated Financial Statements (Continued)

(11) Junior Subordinated Deferrable Interest Debentures (Continued)

The following table illustrates key information about each of the Debentures and their interest rates at December 31, 2009:

	Junior Subordinated Deferrable Interest Debentures (in thousands)	Repricing Frequency	Interest Rate	Interest Rate Index(1)	Maturity Date	Optional Redemption Date
Trust I	\$ 10,356	Fixed	10.18%	Fixed	June 2031	June 2011
Trust VI	\$ 25,774	Quarterly	3.72%	LIBOR + 3.45	November 2032	May 2010
Trust VII	\$ 10,310	Quarterly	3.53%	LIBOR + 3.25	April 2033	April 2010
Trust VIII	\$ 25,774	Quarterly	3.33%	LIBOR + 3.05	October 2033	April 2010
Trust IX	\$ 41,238	Fixed	7.10%	Fixed	October 2036	October 2011
Trust X	\$ 34,021	Fixed	6.66%	Fixed	February 2037	February 2012
Trust XI	\$ 32,990	Fixed	6.82%	Fixed	July 2037	July 2012
Trust XII	\$ 20,619	Fixed	6.85%	Fixed	September 2037	September 2012
	<u>\$ 201,082</u>					

(1) Trust IX, X, XI and XII accrue interest at a fixed rate for the first five years, then floating at LIBOR + 1.62%, 1.65%, 1.62% and 1.45% thereafter, respectively.

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(12) Earnings per Share ("EPS")

Basic EPS is calculated by dividing net income by the weighted average number of common shares outstanding. The computation of diluted EPS assumes the issuance of common shares for all dilutive potential common shares outstanding during the reporting period. The calculation of the basic EPS and the diluted EPS for the years ended December 31, 2009, 2008, and 2007 is set forth in the following table:

	<u>Net Income</u> <u>(Numerator)</u>	<u>Shares</u> <u>(Denominator)</u> (Dollars in Thousands, Except Per Share Amounts)	<u>Per Share</u> <u>Amount</u>
December 31, 2009:			
Basic EPS			
Net income available to common shareholders	\$ 129,758	68,373,732	\$ 1.90
Potential dilutive common shares	—	20,892	
Diluted EPS	<u>\$ 129,758</u>	<u>68,394,624</u>	\$ 1.90
December 31, 2008:			
Basic EPS			
Net income	\$ 132,112	68,576,654	\$ 1.93
Potential dilutive common shares	—	137,736	
Diluted EPS	<u>\$ 132,112</u>	<u>68,714,390</u>	\$ 1.92
December 31, 2007:			
Basic EPS			
Net income	\$ 121,312	69,036,274	\$ 1.76
Potential dilutive common shares	—	333,837	
Diluted EPS	<u>\$ 121,312</u>	<u>69,370,111</u>	\$ 1.75

(13) Employees' Profit Sharing Plan

The Company has a deferred profit sharing plan for full-time employees with a minimum of one year of continuous employment. The Company's annual contribution to the plan is based on a percentage, as determined by the Board of Directors, of income before income taxes, as defined, for the year. Allocation of the contribution among officers and employees' accounts is based on length of service and amount of salary earned. Profit sharing costs of \$4,366,000, \$4,683,000 and \$4,628,000 were charged to income for the years ended December 31, 2009, 2008, and 2007, respectively.

(14) International Operations

The Company provides international banking services for its customers through its bank subsidiaries. Neither the Company nor its bank subsidiaries have facilities located outside the United States. International operations are distinguished from domestic operations based upon the domicile of the customer.

Because the resources employed by the Company are common to both international and domestic operations, it is not practical to determine net income generated exclusively from international activities.

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(14) International Operations (Continued)

A summary of assets attributable to international operations at December 31, 2009 and 2008 are as follows:

	<u>2009</u>	<u>2008</u>
	<u>(Dollars in Thousands)</u>	
Loans:		
Commercial	\$ 230,464	\$ 270,298
Others	<u>50,021</u>	<u>58,650</u>
	280,485	328,948
Less allowance for probable loan losses	<u>(393)</u>	<u>(604)</u>
Net loans	<u>\$ 280,092</u>	<u>\$ 328,344</u>
Accrued interest receivable	\$ 1,373	\$ 1,896

At December 31, 2009, the Company had \$133,507,000 in outstanding standby and commercial letters of credit to facilitate trade activities. The letters of credit are issued primarily in conjunction with credit facilities, which are available to various Mexican banks doing business with the Company.

Revenues directly attributable to international operations were \$13,681,000, \$17,084,000 and \$21,525,000 for the years ended December 31, 2009, 2008 and 2007, respectively.

(15) Income Taxes

The Company files a consolidated U.S. Federal and State income tax return. The current and deferred portions of net income tax expense included in the consolidated statements of income are presented below for the years ended December 31:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
	<u>(Dollars in Thousands)</u>		
Current			
U.S.	\$ 77,653	\$ 71,280	\$ 60,462
State	3,340	2,882	(127)
Foreign	<u>30</u>	<u>51</u>	<u>55</u>
Total current taxes	81,023	74,213	60,390
Deferred			
U.S.	(8,513)	(6,030)	582
State	<u>5,478</u>	<u>1,347</u>	<u>(5,208)</u>
Total deferred taxes	<u>(3,035)</u>	<u>(4,683)</u>	<u>(4,626)</u>
Total income taxes	<u>\$ 77,988</u>	<u>\$ 69,530</u>	<u>\$ 55,764</u>

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(15) Income Taxes (Continued)

Total income tax expense differs from the amount computed by applying the U.S. Federal income tax rate of 35% for 2009, 2008 and 2007 to income before income taxes. The reasons for the differences for the years ended December 31 are as follows:

	2009	2008	2007
	(Dollars in Thousands)		
Computed expected tax expense	\$ 77,293	\$ 70,720	\$ 61,977
Change in taxes resulting from:			
Tax-exempt interest income	(1,937)	(1,552)	(1,625)
State tax, net of federal income taxes and tax credit	5,722	2,834	(2,272)
Other investment income	(3,526)	(3,321)	(3,079)
Other	436	849	763
Actual tax expense	<u>\$ 77,988</u>	<u>\$ 69,530</u>	<u>\$ 55,764</u>

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets and deferred tax liabilities at December 31, 2009 and 2008 are reflected below:

	2009	2008
	(Dollars in Thousands)	
Deferred tax assets:		
Loans receivable, principally due to the allowance for probable loan losses	\$ 35,979	\$ 27,237
Other real estate owned	76	42
Goodwill	3,132	3,132
Accrued expenses	170	200
State net operating loss carryforwards	—	5,069
Other	4,826	6,710
Total deferred tax assets	<u>44,183</u>	<u>42,390</u>
Deferred tax liabilities:		
Lease financing receivable	(59)	(4,503)
Bank premises and equipment, principally due to differences on depreciation	(24,786)	(21,514)
Net unrealized gains on available for sale investment securities	(36,355)	(9,988)
FHLB stock	(1,489)	(1,398)
Identified intangible assets	(20,951)	(20,202)
Other	(7,111)	(8,021)
Total deferred tax liabilities	<u>(90,751)</u>	<u>(65,626)</u>
Net deferred tax liability	<u>\$ (46,568)</u>	<u>\$ (23,236)</u>

The net deferred tax liability of \$46,568,000 at December 31, 2009 is included in other liabilities in the consolidated statements of condition. The net deferred tax liability of \$23,236,000 at December 31, 2008 is included in other liabilities in the consolidated statements of condition.

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(15) Income Taxes (Continued)

State net operating loss carryforwards were fully utilized in 2009. They originally expired beginning in June 2013 and ending in December 2024.

(16) Stock Options

On April 1, 2005, the Board of Directors adopted the 2005 International Bancshares Corporation Stock Option Plan (the "2005 Plan"). Effective May 19, 2008, the 2005 Plan was amended to increase the number of shares available for stock option grants under the 2005 Plan by 300,000 shares. The 2005 Plan replaced the 1996 International Bancshares Corporation Key Contributor Stock Option Plan (the "1996 Plan"). Under the 2005 Plan, both qualified incentive stock options ("ISOs") and non-qualified stock options ("NQSOs") may be granted. Options granted may be exercisable for a period of up to 10 years from the date of grant, excluding ISOs granted to 10% shareholders, which may be exercisable for a period of up to only five years. As of December 31, 2009, 142,922 shares were available for future grants under the 2005 Plan.

The fair value of each option award granted under the plan is estimated on the date of grant using a Black-Scholes-Merton option valuation model that uses the assumptions noted in the following table. Expected volatility is based on the historical volatility of the price of the Company's stock. The Company uses historical data to estimate the expected dividend yield and employee termination rates within the valuation model. The expected term of options is derived from historical exercise behavior. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

	2009	2008
Expected Life (Years)	6.13	6.13
Dividend yield	2.99%	2.75%
Interest rate	2.12%	1.44%
Volatility	41.81%	31.08%

A summary of option activity under the stock option plans for the twelve months ended December 31, 2009 is as follows:

	Number of options	Weighted average exercise price	Weighted average remaining contractual term (years)	Aggregate intrinsic value (\$)
Options outstanding at December 31, 2008	833,597	\$ 21.43		
Plus: Options granted	249,250	10.46		
Less:				
Options exercised	211,772	12.77		
Options expired	15,052	12.66		
Options forfeited	32,431	18.09		
Options outstanding at December 31, 2009	823,592	\$ 20.54	4.83	\$ 2,066,000
Options fully vested and exercisable at December 31, 2009	304,415	\$ 24.02	3.02	\$ 20,000

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(16) Stock Options (Continued)

Stock-based compensation expense included in the consolidated statements of income for the twelve months ended December 31, 2009 and December 31, 2008 was approximately \$655,000 and \$692,000, respectively. As of December 31, 2009 there was approximately \$1,199,000, of total unrecognized stock-based compensation cost related to non-vested options granted under the Company plans that will be recognized over a weighted average period of 1.6 years.

A summary of the status of the Company's non-vested options as of December 31, 2009, and changes during the twelve months ended December 31, 2009, is presented below:

Non-vested Options	Options	Weighted average grant-date fair value (\$)
Non-vested options at December 31, 2008	367,208	\$ 6.19
Granted	249,250	3.31
Vested	80,546	6.48
Forfeited	16,735	5.03
Non-vested options at December 31, 2009	519,177	\$ 4.80

Other information pertaining to option activity during the twelve month period ending December 31, 2009 and December 31, 2008 is as follows:

	Twelve Months Ended December 31,	
	2009	2008
Weighted average grant date fair value of stock options granted	\$ 3.31	\$ 4.90
Total fair value of stock options vested	\$ 522,000	\$ 624,000
Total intrinsic value of stock options exercised	\$ 581,000	\$ 591,000

(17) Long Term Restricted Stock Units

As a participant in the Troubled Asset Relief Program Capital Purchase Program (the "CPP"), the Company must comply with the Interim Final Rule on TARP Standards for Compensation and Corporate Governance issued in June 2009 by the Treasury, which implements the provisions of Section 111 of the Emergency Economic Stabilization Act of 2008, as amended by the American Recovery and Reinvestment Act of 2009. Pursuant to these provisions, the Company is subject to certain compensation restrictions, which include a prohibition on the payment or accrual of any bonuses (including equity-based incentive compensation) to certain officers and employees except for awards of CPP-compliant long-term restricted stock and stock units.

On December 18, 2009, the Company's board of directors (the "Board") adopted the 2009 International Bancshares Corporation Long-Term Restricted Stock Unit Plan (the "Plan") to give the Company additional flexibility in the compensation of its officers, employees, consultants and advisors in compliance with all applicable laws and restrictions. The Plan authorizes the Company to issue Restricted Stock Units ("RSUs") to officers, employees, consultants and advisors of the Company and its subsidiaries. The Plan provides that RSUs shall be issued by a committee of the Board appointed by the Board from

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(17) Long Term Restricted Stock Units (Continued)

time to time consisting of at least two (2) members of the Board, each of whom is both a non-employee director and an outside director. On December 18, 2009, the Board adopted resolutions creating the Long-Term Restricted Stock Unit Plan Committee to administer the Plan. RSUs issued under the Plan are not equity and are payable only in cash. The Plan provides for both the issuance of CPP-compliant long-term RSUs as well as RSUs that are not CPP-compliant.

Dennis E. Nixon, the Company's President, Chairman of the Board and a director of the Company, received an award of CPP-compliant RSUs, granted as of December 18, 2009, in the amount of \$250,000 for his performance during 2009. In order to meet the requirements of a CPP-compliant RSU, Mr. Nixon's RSUs do not exceed one-third of his total annual compensation.

(18) Commitments, Contingent Liabilities and Other Tax Matters

The Company leases portions of its banking premises and equipment under operating leases. Total rental expense for the years ended December 31, 2009, 2008 and 2007 were \$12,600,000, \$11,700,000 and \$10,100,000, respectively. Future minimum lease payments due under non-cancellable operating leases at December 31, 2009 were as follows:

<u>Fiscal year ending:</u>	<u>Total</u>
	<u>(in thousands)</u>
2010	\$ 10,043
2011	8,282
2012	5,648
2013	3,900
2014	2,485
Thereafter	7,664
Total	<u>\$ 38,022</u>

It is expected that certain leases will be renewed, as these leases expire. Aggregate future minimum rentals to be received under non-cancellable sub-leases greater than one year at December 31, 2009 were \$13,300,000.

Cash of approximately \$60,154,000 and \$60,405,000 at December 31, 2009 and 2008, respectively, was maintained to satisfy regulatory reserve requirements.

The Company is involved in various legal proceedings that are in various stages of litigation. Some of these actions allege "lender liability" claims on a variety of theories and claim substantial actual and punitive damages. The Company has determined, based on discussions with its counsel that any material loss in such actions, individually or in the aggregate, is remote or the damages sought, even if fully recovered, would not be considered material to the consolidated financial position or results of operations of the Company. However, many of these matters are in various stages of proceedings and further developments could cause management to revise its assessment of these matters.

The Company's lead bank subsidiary has invested in partnerships, which have entered into several lease-financing transactions. The Internal Revenue Service issued a Notice of Final Partnership Administrative Adjustments ("FPAA") on two of the partnerships. In both partnerships, the lead bank subsidiary was the owner of a ninety-nine percent (99%) limited partnership interest. In connection with

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(18) Commitments, Contingent Liabilities and Other Tax Matters (Continued)

the two partnerships through the first quarter of 2006, the Company expensed approximately \$25.7 million, which amount represents the total of the tax adjustments due and the interest due on such adjustments for both FPAAAs. Management will continue to evaluate the correspondence with the IRS on the FPAAAs and make any appropriate revisions to the amounts as deemed necessary.

The Company is involved in a dispute related to certain tax matters that were transferred to the Company in its 2004 acquisition of LFIN. The dispute involves claims by the former controlling shareholders of LFIN related to certain tax benefits enjoyed by LFIN in connection with losses on loans acquired from a failed thrift and a dispute LFIN had with the FDIC regarding tax benefits related to the failed thrift acquisition. A jury trial related to this dispute commenced in the U.S. District Court for the Western District of Oklahoma on February 8, 2010. While the outcome of any jury trial is very difficult to predict, the Company has determined, based on discussions with its legal counsel, that any material loss related to this dispute is remote. Management intends to continue to evaluate the merits of this matter and make appropriate revisions to the amount reserved in connection with this dispute as deemed necessary.

(19) Transactions with Related Parties

In the ordinary course of business, the subsidiaries of the Company make loans to directors and executive officers of the Corporation, including their affiliates, families and companies in which they are principal owners. In the opinion of management, these loans are made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons and do not involve more than normal risk of collectability or present other unfavorable features. The aggregate amounts receivable from such related parties amounted to approximately \$67,681,000 and \$79,438,000 at December 31, 2009 and 2008, respectively.

(20) Financial Instruments with Off-Statement of Condition Risk and Concentrations of Credit Risk

In the normal course of business, the bank subsidiaries are party to financial instruments with off-statement of condition risk to meet the financing needs of their customers. These financial instruments include commitments to their customers. These financial instruments involve, to varying degrees, elements of credit risk in excess of the amounts recognized in the consolidated statement of condition. The contract amounts of these instruments reflect the extent of involvement the bank subsidiaries have in particular classes of financial instruments. At December 31, 2009, the following financial amounts of instruments, whose contract amounts represent credit risks, were outstanding:

Commitments to extend credit	\$	1,167,993,000
Credit card lines		48,016,000
Standby letters of credit		132,151,000
Commercial letters of credit		1,356,000

The Company enters into a standby letter of credit to guarantee performance of a customer to a third party. These guarantees are primarily issued to support public and private borrowing arrangements. The credit risk involved is represented by the contractual amounts of those instruments. Under the standby letters of credit, the Company is required to make payments to the beneficiary of the letters of credit upon request by the beneficiary so long as all performance criteria have been met. At December 31, 2009, the maximum potential amount of future payments is \$132,151,000. At December 31, 2009, the fair value of

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(20) Financial Instruments with Off-Statement of Condition Risk and Concentrations of Credit Risk (Continued)

these guarantees is not significant. Unsecured letters of credit totaled \$29,384,000 and \$28,771,000 at December 31, 2009 and 2008, respectively.

The Company enters into commercial letters of credit on behalf of its customers which authorize a third party to draw drafts on the Company up to a stipulated amount and with specific terms and conditions. A commercial letter of credit is a conditional commitment on the part of the Company to provide payment on drafts drawn in accordance with the terms of the commercial letter of credit.

The bank subsidiaries' exposure to credit loss in the event of nonperformance by the other party to the above financial instruments is represented by the contractual amounts of the instruments. The bank subsidiaries use the same credit policies in making commitments and conditional obligations as they do for on-statement of condition instruments. The bank subsidiaries control the credit risk of these transactions through credit approvals, limits and monitoring procedures. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates normally less than one year or other termination clauses and may require the payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The bank subsidiaries evaluate each customer's credit-worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the subsidiary banks upon extension of credit, is based on management's credit evaluation of the customer. Collateral held varies, but may include residential and commercial real estate, bank certificates of deposit, accounts receivable and inventory.

The bank subsidiaries make commercial, real estate and consumer loans to customers principally located in South, Central and Southeast Texas and the State of Oklahoma. Although the loan portfolio is diversified, a substantial portion of its debtors' ability to honor their contracts is dependent upon the economic conditions in these areas, especially in the real estate and commercial business sectors.

(21) Capital Requirements

On December 23, 2008, as part of the Troubled Asset Relief Program Capital Purchase Program (the "TARP Capital Purchase Program") of the United States Department of the Treasury ("Treasury"), the Company entered into a Letter Agreement incorporating an attached Securities Purchase Agreement-Standard Terms (collectively, the "Securities Purchase Agreement") with the Treasury. The closing of the transactions contemplated in the Securities Purchase Agreement occurred on December 23, 2008.

Under the Securities Purchase Agreement, the Company agreed to sell 216,000 shares of the Company's fixed-rate cumulative perpetual preferred stock, Series A, par value \$.01 per share (the "Senior Preferred Stock"), having a liquidation preference of \$1,000 per share, for a total price of \$216,000,000. The Senior Preferred Stock will pay dividends at the rate of 5% per year for the first five years and 9% per year thereafter. The Senior Preferred Stock has no maturity date and ranks senior to the Company's common stock with respect to the payment of dividends and distributions and amounts payable upon liquidation, dissolution and winding up of the Company. The Senior Preferred Stock generally is non-voting except for class voting rights on matters that would adversely affect the rights of the holders of the Senior Preferred Stock. The Senior Preferred Stock qualifies for inclusion in Tier 1 capital for regulatory capital purposes and the issuance of the Senior Preferred Stock increased the capital ratios of the Company.

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(21) Capital Requirements (Continued)

In conjunction with the purchase of the Senior Preferred Stock, the Treasury received a warrant (the "Warrant") to purchase 1,326,238 shares of the Company's common stock (the "Warrant Shares") at \$24.43 per share, which would represent an aggregate common stock investment in the Company on exercise of the warrant in full equal to 15% of the Senior Preferred Stock investment. The term of the Warrant is ten years. The per share exercise price and the number of shares issuable upon exercise of the Warrant is subject to adjustment pursuant to customary anti-dilutive provisions in certain events, such as stock splits, certain distributions of securities or other assets to holders of the Company's common stock, and upon certain issuances of the Company's common stock at or below specified prices relative to the initial per share exercise price of the Warrant. The Warrant is immediately exercisable. The number of shares issuable upon exercise of the Warrant is also subject to reduction in certain limited events that involve the Company conducting Qualified Equity Offerings on or prior to December 31, 2009. Both the Senior Preferred Stock and Warrant will be accounted for as components of Tier 1 capital.

Bank regulatory agencies limit the amount of dividends, which the bank subsidiaries can pay the Corporation, through IBC Subsidiary Corporation, without obtaining prior approval from such agencies. At December 31, 2009, the subsidiary banks could pay dividends of up to \$390,000,000 to the Company without prior regulatory approval and without adversely affecting their "well capitalized" status. In addition to legal requirements, regulatory authorities also consider the adequacy of the bank subsidiaries' total capital in relation to their deposits and other factors. These capital adequacy considerations also limit amounts available for payment of dividends. The Company historically has not allowed any subsidiary bank to pay dividends in such a manner as to impair its capital adequacy.

The Company and the bank subsidiaries are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's consolidated financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company must meet specific capital guidelines that involve quantitative measures of the Company's assets, liabilities, and certain off-statement of condition items as calculated under regulatory accounting practices. The Company's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Additionally, as a result of the Company's participation in the TARP Capital Purchase Program, the Company is restricted in the payment of dividends and may not, without Treasury Department's consent, declare or pay any dividend on the Company Common Stock other than a regular semi-annual dividend of not more than \$.33 per share, as adjusted for any stock dividend or stock split. The restriction ceases to exist only on the earlier to occur of December 23, 2011 or the date on which the Company has redeemed all of the Series A Preferred Stock issued as part of the Capital Purchase Program or the date on which the Treasury has transferred all of the Preferred Stock to third parties not affiliated with the Treasury. Also, all accrued and unpaid dividends on the Senior Preferred Stock would have to be fully paid before the Company paid any dividends on its Common Stock. On April 7, 2009, the Company gained consent from the Treasury Department (the "Treasury Consent") to use the regular semi-annual cash dividend funds of not more than \$.33 per share, as adjusted for any stock dividend or stock split, to pay quarterly dividends and to repurchase common stock. Any cash dividends combined with amounts spent in conjunction with the Company's stock repurchase program will be limited by the restrictions set forth in the Treasury Consent.

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(21) Capital Requirements (Continued)

A company that participates in the TARP Capital Purchase Program must adopt certain standards for executive compensation under the Emergency Economic Stabilization Act of 2008 (EESA) and the American Recovery and Reinvestment Act of 2009 (the "ARRA") which was signed into law on February 17, 2009. While the U.S. Treasury must promulgate regulations to implement the executive compensation restrictions and standards set forth in the ARRA, the new law significantly expands the executive compensation restrictions previously imposed by the EESA. Such restrictions apply to any entity that has received or will receive funds under the TARP Capital Purchase Program, and shall generally continue to apply for as long as any obligation arising from securities issued under TARP, including preferred stock issued under the Capital Purchase Program, remain outstanding. These ARRA restrictions shall not apply to any TARP Capital Purchase Program recipient during such time when the federal government (i) only holds any warrants to purchase common stock of such recipient or (ii) holds no preferred stock or warrants to purchase common stock of such recipient. As a result of the Company's participation in the TARP Capital Purchase Program, the restrictions and standards set forth in the ARRA shall be applicable to the Company, subject to regulations promulgated by the U.S. Treasury.

Pursuant to the provisions of the ARRA, the Company may be permitted to repay the \$216 million it received under the TARP Capital Purchase Program, without regard to certain repayment restrictions in the Securities Purchase Agreement, which restricted the Company's ability to redeem the Senior Preferred Stock during the first three years following the date of investment. The redemption of the Senior Preferred Stock is subject to the consent of the Federal Reserve Bank of Dallas, which is the Company's primary Federal banking regulator. To date, the Company has not redeemed any of the Senior Preferred Stock.

Quantitative measures established by regulation to ensure capital adequacy require the Company to maintain minimum amounts and ratios (set forth in the table on the following page) of Total and Tier 1 capital to risk-weighted assets and of Tier 1 capital to average assets. Management believes, as of December 31, 2009, that the Company and each of the bank subsidiaries met all capital adequacy requirements to which it is subject.

As of December 31, 2009, the most recent notification from the Federal Deposit Insurance Corporation categorized all the bank subsidiaries as well capitalized under the regulatory framework for prompt corrective action. To be categorized as "well capitalized" the Company and the bank subsidiaries must maintain minimum Total risk-based, Tier 1 risk based, and Tier 1 leverage ratios as set forth in the table. There are no conditions or events since that notification that management believes have changed the categorization of the Company or any of the bank subsidiaries as well capitalized.

Notes to Consolidated Financial Statements (Continued)

(22) Fair Value

Effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 157 ("SFAS No. 157"), "Fair Value Measurements" for financial assets and liabilities. Additionally, in accordance with Financial Accounting Standards Board Staff Position No. 157-2, ("FSP No 157-2"), "Effective date of FASB Statement No. 157," the Company delayed application of SFAS No. 157 for non-financial assets and non-financial liabilities until January 1, 2009, except for those that are recognized or disclosed at fair value on a recurring basis. SFAS No. 157 and FSP No. 157-2 are now included in the Accounting Standards Codification ("ASC") in Topic 820, "Fair Value Measurements and Disclosures" ("ASC 820"). ASC 820 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. ASC 820 applies to all financial instruments that are being measured and reported on a fair value basis. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; it also establishes a fair value hierarchy that prioritizes the inputs used in valuation methodologies into the following three levels:

- Level 1 Inputs—Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 Inputs—Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Inputs—Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or other valuation techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy is set forth below.

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(22) Fair Value (Continued)

The following table represents assets and liabilities reported on the consolidated balance sheets at their fair value as of December 31, 2009 by level within the fair value measurement hierarchy.

		Fair Value Measurements at Reporting Date Using (in thousands)		
	Assets/Liabilities Measured at Fair Value December 31, 2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Impaired Loans		116,482		—		—		116,482

Investment securities available-for-sale are classified within level 2 and level 3 of the valuation hierarchy, with the exception of certain equity investments that are classified within level 1. For investments classified as level 2 in the fair value hierarchy, the Company obtains fair value measurements for investment securities from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond's terms and conditions, among other things. Investment securities classified as level 3 are non-agency mortgage-backed securities. The non-agency mortgage-backed securities held by the Company are traded in in-active markets and markets that have experienced significant decreases in volume and level of activity, as exhibited by few recent transactions, a significant decline or absence of new issuances, price quotations that are not based on comparable securities transactions and wide bid-ask spreads among other factors. As a result of the inability to use quoted market prices to determine fair value for these securities, the Company determined that fair value, as determined by level 3 inputs in the fair value hierarchy, is more appropriate for financial reporting and more consistent with the expected performance of the investments. For the investments classified within level 3 of the fair value hierarchy, the Company used a discounted cash flow model to determine the fair value. Inputs in the model included both historical performance and expected future performance based on information currently available. Assumptions used in the discounted cash flow model included estimates on future principal prepayment rates, default and loss severity rates.

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(22) Fair Value (Continued)

The following table presents a reconciliation of activity for such mortgage-backed securities on a net basis (Dollars in thousands):

Balance at December 31, 2008	\$ —
Principal paydowns, net of discount amortization	(8,023)
Total unrealized losses included in:	
Other comprehensive income	(14,979)
Transfers into level 3	82,571
Balance at December 31, 2009	<u>\$ 59,569</u>

Certain financial assets and financial liabilities are measured at fair value on a nonrecurring basis. The instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment).

As of December 31, 2009, the Company's financial instruments measured at fair value on a non-recurring basis are limited to impaired loans. Impaired loans are classified within level 3 of the valuation hierarchy. The fair value of impaired loans is derived in accordance with FASB ASC 310, "Receivables". The fair value of impaired loans is based on the fair value of the collateral, as determined through an external appraisal process, discounted based on internal criteria. Impaired loans are primarily comprised of collateral-dependent commercial loans.

The fair value estimates, methods, and assumptions for the Company's financial instruments at December 31, 2009 and December 31, 2008 are outlined below.

Cash and Due From Banks and Federal Funds Sold

For these short-term instruments, the carrying amount is a reasonable estimate of fair value.

Time Deposits with Banks

The carrying amounts of time deposits with banks approximate fair value.

Investment securities held-to-maturity

The carrying amounts of investments held-to-maturity approximate fair value.

Investment Securities

For investment securities, which include U. S. Treasury securities, obligations of other U. S. government agencies, obligations of states and political subdivisions and mortgage pass through and related securities, fair values are based on quoted market prices or dealer quotes. Fair values are based on the value of one unit without regard to any premium or discount that may result from concentrations of ownership of a financial instrument, probable tax ramifications, or estimated transaction costs. See disclosures of fair value of investment securities in Note 3.

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(22) Fair Value (Continued)

Loans

Fair values are estimated for portfolios of loans with similar financial characteristics. Loans are segregated by type such as commercial, real estate and consumer loans as outlined by regulatory reporting guidelines. Each category is segmented into fixed and variable interest rate terms and by performing and non-performing categories.

For variable rate performing loans, the carrying amount approximates the fair value. For fixed rate performing loans, except residential mortgage loans, the fair value is calculated by discounting scheduled cash flows through the estimated maturity using estimated market discount rates that reflect the credit and interest rate risk inherent in the loan. For performing residential mortgage loans, fair value is estimated by discounting contractual cash flows adjusted for prepayment estimates using discount rates based on secondary market sources or the primary origination market. At December 31, 2009, and December 31, 2008, the carrying amount of fixed rate performing loans was \$1,303,049,000 and \$1,272,370,000 respectively, and the estimated fair value was \$1,200,343,000 and \$1,253,496,000, respectively.

Accrued Interest

The carrying amounts of accrued interest approximate fair value.

Deposits

The fair value of deposits with no stated maturity, such as non-interest bearing demand deposit accounts, savings accounts and interest bearing demand deposit accounts, was equal to the amount payable on demand as of December 31, 2009 and 2008. The fair value of time deposits is based on the discounted value of contractual cash flows. The discount rate is based on currently offered rates. At December 31, 2009 and 2008, the carrying amount of time deposits was \$3,398,656,000 and \$3,317,512,000, respectively, and the estimated fair value was \$3,412,538,000 and \$3,343,150,000, respectively.

Securities Sold Under Repurchase Agreements and Other Borrowed Funds

Securities sold under repurchase agreements include both short and long-term maturities. Due to the contractual terms of the short-term instruments, the carrying amounts approximated fair value at December 31, 2009 and December 31, 2008. The fair value of the long-term instruments is based on established market spreads. At December 31, 2009 and December 31, 2008, the carrying amount of long-term repurchase agreements was \$1,000,000,000 and the estimated fair value was \$1,099,064,000 and \$1,158,873,000, respectively. Other borrowed funds are short-term Federal Home Loan Bank borrowings. Due to the contractual terms of these financial instruments, the carrying amounts approximated fair value at December 31, 2009 and December 31, 2008.

Junior Subordinated Deferrable Interest Debentures

The Company currently has fixed and floating junior subordinated deferrable interest debentures outstanding. Due to the contractual terms of the floating rate junior subordinated deferrable interest debentures, the carrying amounts approximated fair value at December 31, 2009 and December 31, 2008. The fair value of the fixed junior subordinated deferrable interest debentures is based on established market spreads to the debentures. At December 31, 2009 and 2008, the carrying amount of fixed junior

INTERNATIONAL BANCSHARES CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(22) Fair Value (Continued)

subordinated deferrable interest debentures was \$139,224,000 and \$139,190,000, respectively, and the estimated fair value was \$65,762,000 and \$44,704,000, respectively.

Commitments to Extend Credit and Letters of Credit

Commitments to extend credit and fund letters of credit are principally at current interest rates and therefore the carrying amount approximates fair value.

Limitations

Fair value estimates are made at a point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Because no market exists for a significant portion of the Company's financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Fair value estimates are based on existing on-and off-statement of condition financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. Other significant assets and liabilities that are not considered financial assets or liabilities include the bank premises and equipment and core deposit value. In addition, the tax ramifications related to the effect of fair value estimates have not been considered in the above estimates.

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We consent to the incorporation by reference in Registration Statement (No. 333-128147) on Form S-8 of International Bancshares Corporation of our reports dated March 1, 2010, relating to our audits of the consolidated financial statements and internal control over financial reporting, which reports are incorporated by reference and included in the December 31, 2009 annual report on Form 10-K of International Bancshares Corporation.

/s/ McGladrey & Pullen, LLP

Dallas, Texas
March 1, 2010

Certification

I, Dennis E. Nixon, certify that:

1. I have reviewed this Annual Report on Form 10-K of International Bancshares Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Certification

I, Imelda Navarro, certify that:

1. I have reviewed this Annual Report on Form 10-K of International Bancshares Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Annual Report of International Bancshares Corporation (the "Company") on Form 10-K for the year ended December 31, 2009 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Dennis E. Nixon, President and Principal Executive Officer of the Company, certify, pursuant to 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78o(d)), as applicable; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

**CERTIFICATION PURSUANT TO
31 C.F. R. SECTION 30.15**

I, Dennis E. Nixon, certify, based on my knowledge, that:

- (i) The compensation committee of International Bancshares Corporation has discussed, reviewed, and evaluated with senior risk officers at least every six months since September 14, 2009, for the period ending with the last day of International Bancshares Corporation's fiscal year containing that date (the applicable period), senior executive officer (SEO) compensation plans and the employee compensation plans and the risks these plans pose to International Bancshares Corporation;
 - (ii) The Compensation committee of International Bancshares Corporation has identified and limited during the applicable period any features of the SEO compensation plans that could lead SEOs to take unnecessary and excessive risks that could threaten the value of International Bancshares Corporation, and during that same applicable period has identified any features of the employee compensation plans that pose risks to International Bancshares Corporation and has limited those features to ensure that International Bancshares Corporation is not unnecessarily exposed to risks;
 - (iii) The compensation committee has reviewed, at least every six months since September 14, 2009 for the applicable period, the terms of each employee compensation plan and identified any features of the plan that could encourage the manipulation of reported earnings of International Bancshares Corporation to enhance the compensation of an employee, and has limited those features;
 - (iv) The compensation committee of International Bancshares Corporation will certify to the reviews of the SEO compensation plans and employee compensation plans required under (i) and (iii) above;
 - (v) The compensation committee of International Bancshares Corporation will provide a narrative description of how it limited during any part of the most recently completed fiscal year that included a TARP period the features in
 - a. SEO compensation plans that could lead SEOs to take unnecessary and excessive risks that could threaten the value of International Bancshares Corporation;
 - b. Employee compensation plans that unnecessarily expose International Bancshares Corporation to risks; and
 - c. Employee compensation plans that could encourage the manipulation of reported earnings of International Bancshares Corporation to enhance the compensation of an employee;
 - (vi) International Bancshares Corporation has required that bonus payments, as defined in the regulations and guidance established under Section 111 of EESA (bonus payments), of SEOs and twenty next most highly compensation employees be subject to a recovery or "clawback" provision during any part of the most recently completed fiscal year that was a TARP period if the bonus payments were based on materially inaccurate financial statements or any other materially inaccurate performance metric criteria;
 - (vii) International Bancshares Corporation has prohibited any golden parachute payment, as defined in the regulations and guidance established under Section 111 of EESA, to a SEO or any of the next five most highly compensated employees during the period beginning on the later of the closing date of the agreement between the TARP recipient and Treasury or June 15, 2009 and ending with the last day of the TARP recipient's fiscal year containing that date;
 - (viii) International Bancshares Corporation has limited bonus payments to its applicable employees in accordance with Section 111 of EESA and the regulations and guidance established thereunder during the period beginning on the later of the closing date of the agreement between the TARP
-

recipient and Treasury or June 15, 2009 and ending with the last day of the TARP recipient's fiscal year containing that date;

- (ix) The board of directors of International Bancshares Corporation has established an excessive or luxury expenditures policy, as defined in the regulations and guidance established under Section 111 of EESA, by the later of September 14, 2009, or ninety days after the closing date of the agreement between the TARP recipient and Treasury; this policy has been provided to Treasury and its primary regulatory agency; International Bancshares Corporation and its employees have complied with this policy during the applicable period and any expenses that, pursuant to this policy, required approval of the board of directors, a committee of the board of directors, an SEO, or an executive officer with a similar level of responsibility, were properly approved;
 - (x) International Bancshares Corporation will permit a non-binding shareholder resolution in compliance with any applicable federal securities rules and regulations in the disclosures provided under the federal securities laws related to SEO compensation paid or accrued during the period beginning on the later of the closing date or the agreement between the TARP recipient and Treasury or June 15, 2009, and ending with the last day of the TARP recipient's fiscal year containing that date;
 - (xi) International Bancshares Corporation will disclose the amount, nature, and justification for the offering during the period beginning on the later of the closing date of the agreement between the TARP recipient and Treasury or June 15, 2009 and ending the last day of the TARP recipient's fiscal year containing that date of any perquisites, as defined in the regulations and guidance established under Section 111 of EESA, whose total value exceeds \$25,000 for any employee who is subject to the bonus payment limitations identified in paragraph (viii);
 - (xii) International Bancshares Corporation will disclose whether International Bancshares Corporation, the board of directors of International Bancshares Corporation, or the compensation committee of International Bancshares Corporation has engaged during the period beginning on the later of the closing date of the agreement between the TARP recipient and Treasury or June 15, 2009 and ending with the last day of the TARP recipient's fiscal year containing that date, a compensation consultant; and the services of the compensation consultant or any affiliate of the compensation consultant provided during this period;
 - (xiii) International Bancshares Corporation has prohibited the payment of any gross-ups, as defined in the regulations and guidance established under Section 111 of EESA, to the SEOs and the next twenty most highly compensated employees during the period beginning on the later of the closing date of the agreement between the TARP recipient and Treasury or June 15, 2009 and ending with the last day of the TARP recipient's fiscal year containing that date;
 - (xiv) International Bancshares Corporation has substantially complied with all other requirements related to employee compensation that are provided in the agreement between International Bancshares Corporation and Treasury, including any amendments;
 - (xv) International Bancshares Corporation has submitted to Treasury a complete and accurate list of the SEOs and the twenty next most highly compensated employees for the current fiscal year and the most recently completed fiscal year, with the non-SEO's ranked in descending order of level of annual compensation, and with the name, title, and employer of each SEO and the most highly compensated employees identified; and
-

(xvi) I understand that a knowing and willful false or fraudulent statement made in connection with this certification may be punished by fine, imprisonment, or both.

**CERTIFICATION PURSUANT TO
31 C.F. R. SECTION 30.15**

I, Imelda Navarro, certify, based on my knowledge, that:

- (i) The compensation committee of International Bancshares Corporation has discussed, reviewed, and evaluated with senior risk officers at least every six months since September 14, 2009, for the period ending with the last day of International Bancshares Corporation's fiscal year containing that date (the applicable period), senior executive officer (SEO) compensation plans and the employee compensation plans and the risks these plans pose to International Bancshares Corporation;
 - (ii) The Compensation committee of International Bancshares Corporation has identified and limited during the applicable period any features of the SEO compensation plans that could lead SEOs to take unnecessary and excessive risks that could threaten the value of International Bancshares Corporation, and during that same applicable period has identified any features of the employee compensation plans that pose risks to International Bancshares Corporation and has limited those features to ensure that International Bancshares Corporation is not unnecessarily exposed to risks;
 - (iii) The compensation committee has reviewed, at least every six months since September 14, 2009 for the applicable period, the terms of each employee compensation plan and identified any features of the plan that could encourage the manipulation of reported earnings of International Bancshares Corporation to enhance the compensation of an employee, and has limited those features;
 - (iv) The compensation committee of International Bancshares Corporation will certify to the reviews of the SEO compensation plans and employee compensation plans required under (i) and (iii) above;
 - (v) The compensation committee of International Bancshares Corporation will provide a narrative description of how it limited during any part of the most recently completed fiscal year that included a TARP period the features in
 - a. SEO compensation plans that could lead SEOs to take unnecessary and excessive risks that could threaten the value of International Bancshares Corporation;
 - b. Employee compensation plans that unnecessarily expose International Bancshares Corporation to risks; and
 - c. Employee compensation plans that could encourage the manipulation of reported earnings of International Bancshares Corporation to enhance the compensation of an employee;
 - (vi) International Bancshares Corporation has required that bonus payments, as defined in the regulations and guidance established under Section 111 of EESA (bonus payments), of SEOs and twenty next most highly compensation employees be subject to a recovery or "clawback" provision during any part of the most recently completed fiscal year that was a TARP period if the bonus payments were based on materially inaccurate financial statements or any other materially inaccurate performance metric criteria;
 - (vii) International Bancshares Corporation has prohibited any golden parachute payment, as defined in the regulations and guidance established under Section 111 of EESA, to a SEO or any of the next five most highly compensated employees during the period beginning on the later of the closing date of the agreement between the TARP recipient and Treasury or June 15, 2009 and ending with the last day of the TARP recipient's fiscal year containing that date;
 - (viii) International Bancshares Corporation has limited bonus payments to its applicable employees in accordance with Section 111 of EESA and the regulations and guidance established thereunder during the period beginning on the later of the closing date of the agreement between the TARP
-

recipient and Treasury or June 15, 2009 and ending with the last day of the TARP recipient's fiscal year containing that date;

- (ix) The board of directors of International Bancshares Corporation has established an excessive or luxury expenditures policy, as defined in the regulations and guidance established under Section 111 of EESA, by the later of September 14, 2009, or ninety days after the closing date of the agreement between the TARP recipient and Treasury; this policy has been provided to Treasury and its primary regulatory agency; International Bancshares Corporation and its employees have complied with this policy during the applicable period and any expenses that, pursuant to this policy, required approval of the board of directors, a committee of the board of directors, an SEO, or an executive officer with a similar level of responsibility, were properly approved;
 - (x) International Bancshares Corporation will permit a non-binding shareholder resolution in compliance with any applicable federal securities rules and regulations in the disclosures provided under the federal securities laws related to SEO compensation paid or accrued during the period beginning on the later of the closing date or the agreement between the TARP recipient and Treasury or June 15, 2009, and ending with the last day of the TARP recipient's fiscal year containing that date;
 - (xi) International Bancshares Corporation will disclose the amount, nature, and justification for the offering during the period beginning on the later of the closing date of the agreement between the TARP recipient and Treasury or June 15, 2009 and ending the last day of the TARP recipient's fiscal year containing that date of any perquisites, as defined in the regulations and guidance established under Section 111 of EESA, whose total value exceeds \$25,000 for any employee who is subject to the bonus payment limitations identified in paragraph (viii);
 - (xii) International Bancshares Corporation will disclose whether International Bancshares Corporation, the board of directors of International Bancshares Corporation, or the compensation committee of International Bancshares Corporation has engaged during the period beginning on the later of the closing date of the agreement between the TARP recipient and Treasury or June 15, 2009 and ending with the last day of the TARP recipient's fiscal year containing that date, a compensation consultant; and the services of the compensation consultant or any affiliate of the compensation consultant provided during this period;
 - (xiii) International Bancshares Corporation has prohibited the payment of any gross-ups, as defined in the regulations and guidance established under Section 111 of EESA, to the SEOs and the next twenty most highly compensated employees during the period beginning on the later of the closing date of the agreement between the TARP recipient and Treasury or June 15, 2009 and ending with the last day of the TARP recipient's fiscal year containing that date;
 - (xiv) International Bancshares Corporation has substantially complied with all other requirements related to employee compensation that are provided in the agreement between International Bancshares Corporation and Treasury, including any amendments;
 - (xv) International Bancshares Corporation has submitted to Treasury a complete and accurate list of the SEOs and the twenty next most highly compensated employees for the current fiscal year and the most recently completed fiscal year, with the non-SEO's ranked in descending order of level of annual compensation, and with the name, title, and employer of each SEO and the most highly compensated employees identified; and
-

(xvi) I understand that a knowing and willful false or fraudulent statement made in connection with this certification may be punished by fine, imprisonment, or both.
