

Mangrove Pavilion Event Venue

WHERE THE LAGOON
BECOMES THE VENUE

ITZ'ANA
MANGROVE PAVILION

Mangrove Pavilion Event Venue

Hidden within Belize's untouched mangrove landscape, Itz'ana Resort & Residences introduces the Mangrove Pavilion — a destination event venue designed as an immersive connection between architecture, water, jungle and sea.

More than a pavilion, it is a living sanctuary where tropical gardens, lagoon reflections, Caribbean light and bioclimatic architecture merge into one seamless experience. Surrounded by mangroves and framed by panoramic glass walls, the venue dissolves the boundary between indoors and outdoors, allowing every event to feel deeply rooted in nature while elevated through world-class hospitality and refined design.

THE LAGOON TERRACE

At the heart of the experience is The Lagoon Terrace — an open-air extension emerging directly from the pavilion into the surrounding water landscape. As the glass walls disappear, the venue transforms into a fluid indoor-outdoor setting where golden sunsets, mangrove silhouettes and Caribbean breezes become part of the event itself.

The terrace naturally adapts into a waterfront ceremony stage, cocktail garden, moonlit dinner setting, or immersive social space unlike anywhere else in Belize.
